

KEY VIZIT FEATURES

- **Sending photos is easy** – Photos can be sent to the Vizit frame via MMS or email from one's phone, Internet, PC or even Vizit to Vizit!
- **Real-time sharing** – Receive photos of important milestones and memories in real-time from anyone, anywhere by way of the frame's two-way cellular network connection.
- **Social network / community building** – Send invites to friends and family to allow them the opportunity to immediately begin sharing their photos right to your Vizit frame.
- **Full-circle experience** – Share, reply and forward your photos directly from the Vizit frame with just a touch.
- **Full-touch display** – The Vizit frame automatically scales your photos to ensure they look their very best on a clear 10.4" full-touch LCD.
- **Intuitive interface** – The touch-activated carousel menu features simple graphic icons and large touch

targets, providing easy and fun navigation for all ages and levels of tech savvy.

- **Remote photo management** – All photos sent to the Vizit frame are stored in a personal VizitMe.com account where your frame's photos can be stored, accessed and managed.
- **Modern Design** – The Vizit frame features an ultra-thin display and wall mountable folding base, available in several color combinations and accents.
- **Leading edge technology** – Vizit's unique combination of touch-screen technology, proprietary software and cellular connectivity creates a rich, yet effortless, photo sharing experience.
- **Simple set-up** – Plug it in, turn it on and Vizit is ready to receive and share photos. No need to upload photos with memory cards.
- **Always up-to-date** – Software updates are sent seamlessly over-the-air without requiring further action from the user or interrupting the Vizit experience.
