

Timothy S. Harden

President
Supply Chain and Fleet Operations

Tim Harden is President-Supply Chain and Fleet Operations for AT&T Services, Inc. He is responsible for all related global functions, including strategic sourcing, purchasing, supplier quality and supplier diversity programs, supply chain logistics and distribution, and fleet management.

His responsibilities cover all aspects of AT&T's business, including wireless, IP-based communications, high speed Internet access, local and long distance voice, directory publishing, marketing and advertising services.

Prior to his new assignment, Harden was president and CEO of

AT&T West, where he oversaw nearly 40,000 employees who deliver traditional and Internet Protocol (IP)-based voice, broadband Internet, wireless and video services to the company's California and Nevada customers.

Previously, Harden served as president of network services for AT&T Southwest, responsible for all installation, repair, construction and maintenance of the company's network infrastructure in Arkansas, Kansas, Missouri, Oklahoma and Texas. Under his leadership, AT&T deployed a new IP-based network in the Southwest, the technology platform underlying AT&T U-verse™ – the company's next-generation television and high-speed Internet service that launched in June 2006.

Harden also previously served as president of Enterprise Business Services – Data and Network Services for SBC Operations. He has gained broad telecommunications experience from a series of executive assignments within SBC and Pacific Telesis, including president of SBC Telecom, Inc. and senior vice president – network engineering and planning of SBC Data Services.

Other prior assignments include vice president and general manager – SBC Industry Markets operations, responsible for service and support of network wholesale and local competition customers within SBC; vice president and chief operating officer of Pacific Bell's Broadband Deployment Advanced Communications Network; vice president and general manager of Pacific Bell Industry Markets; vice president and general manager of the Pacific Bell North Coast Regional Business Unit; and president and chief executive officer of Pacific Telesis Business Systems. Other assignments have included positions in operations, special services, customer services and switching in both Northern and Southern California.

Harden joined Pacific Bell in 1982 from Caterpillar Tractor Company. He graduated from the U.S. Naval Academy in Annapolis, MD with a Bachelor of Science degree in Engineering and Operations Research. He also was an Associate Professor at the University of Utah and is a retired Captain in the US Navy.

Harden is active in organizations that promote economic development, educational and youth activities. He is Vice Chairman on the QueEST Forum Executive Board, and is a member of World /Supply Chain 50, which represents a group of the top 50 Fortune 500 Procurement professionals from around the world. He is also a member of the Bay Area Council Executive Committee and was Co-Chair of the Southern California Leadership Council. Harden also served on the board of trustees for the San Francisco Museum of Modern Art, the board of directors of the Mt. Diablo Silverado Council of the Boy Scouts of America, the board of directors for Special Olympics Northern California, and the national advisory board of the AT&T Veterans Organization. Harden is also on the Board of Directors of The San Antonio Bowl Association and a member of the CAPS Research Board of Trustees.

Harden was inducted as a scholar athlete to the National Football Foundation and College Hall of Fame, and was later named a Distinguished American by this organization for his efforts in support of the mission to promote and develop the qualities of leadership, sportsmanship, competitive zeal and the drive for academic excellence in America's young people.

A native Californian, Harden and his wife, Laurie, have four grown children, and currently reside in San Antonio, Texas.
