

AT&T Wi-Fi

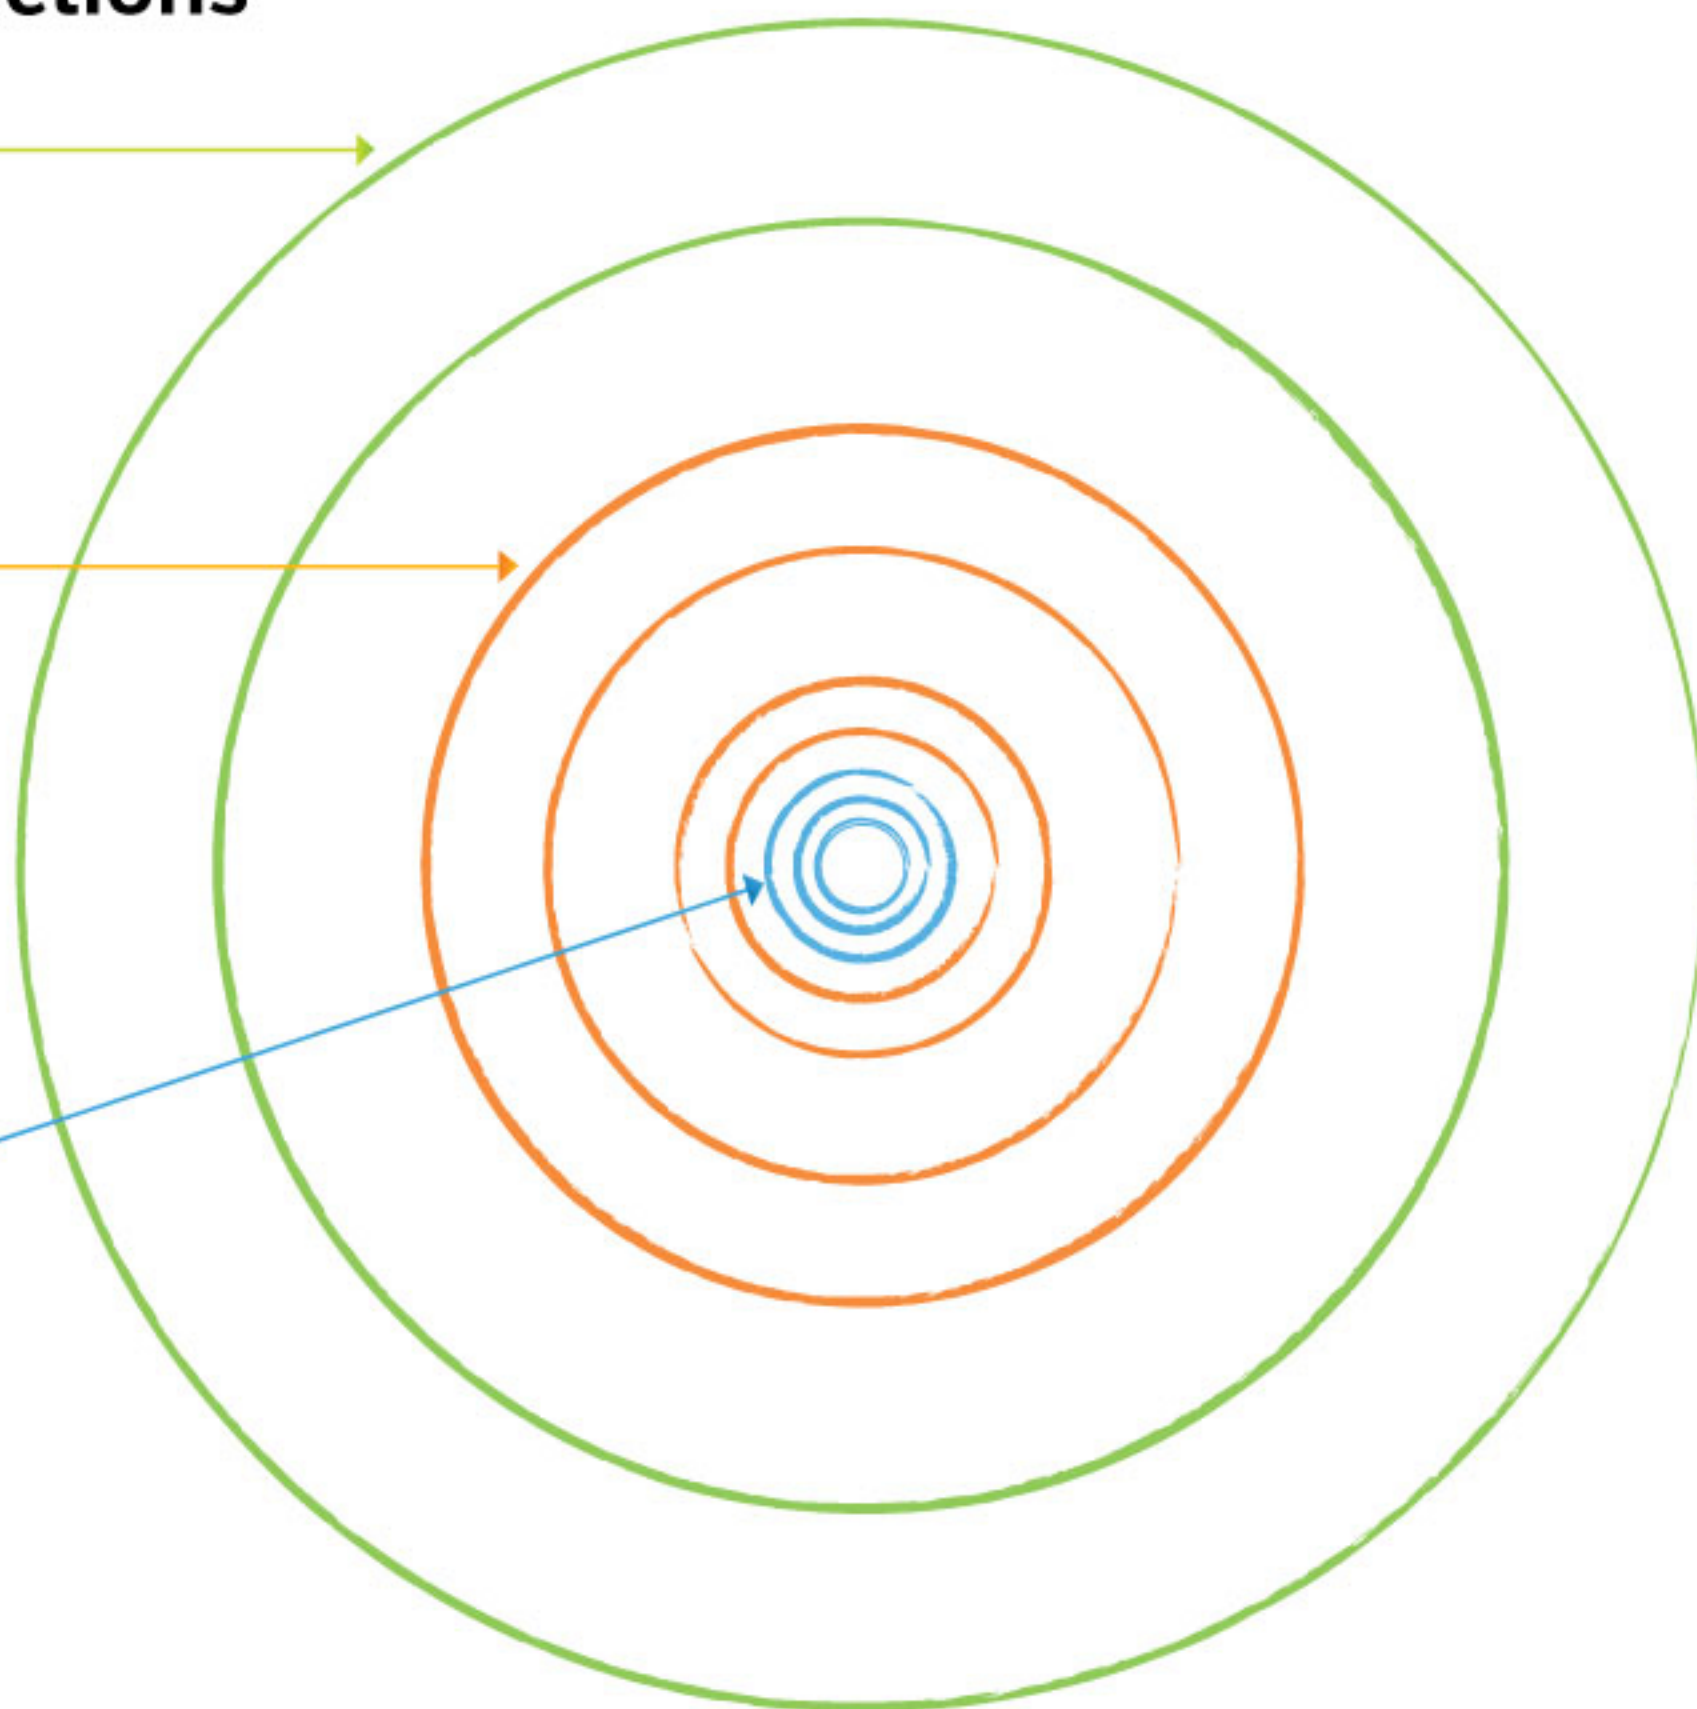

Customers are increasingly using AT&T's Wi-Fi network for a fast, reliable mobile broadband connection. AT&T has the nation's largest Wi-Fi network with more than 20,000 U.S. hotspots. Wi-Fi plays an important role in AT&T's strategy to mobilize everything for customers, complementing our wired and 3G wireless networks and bridging the gap between connectivity at home and on the go.

GROWTH

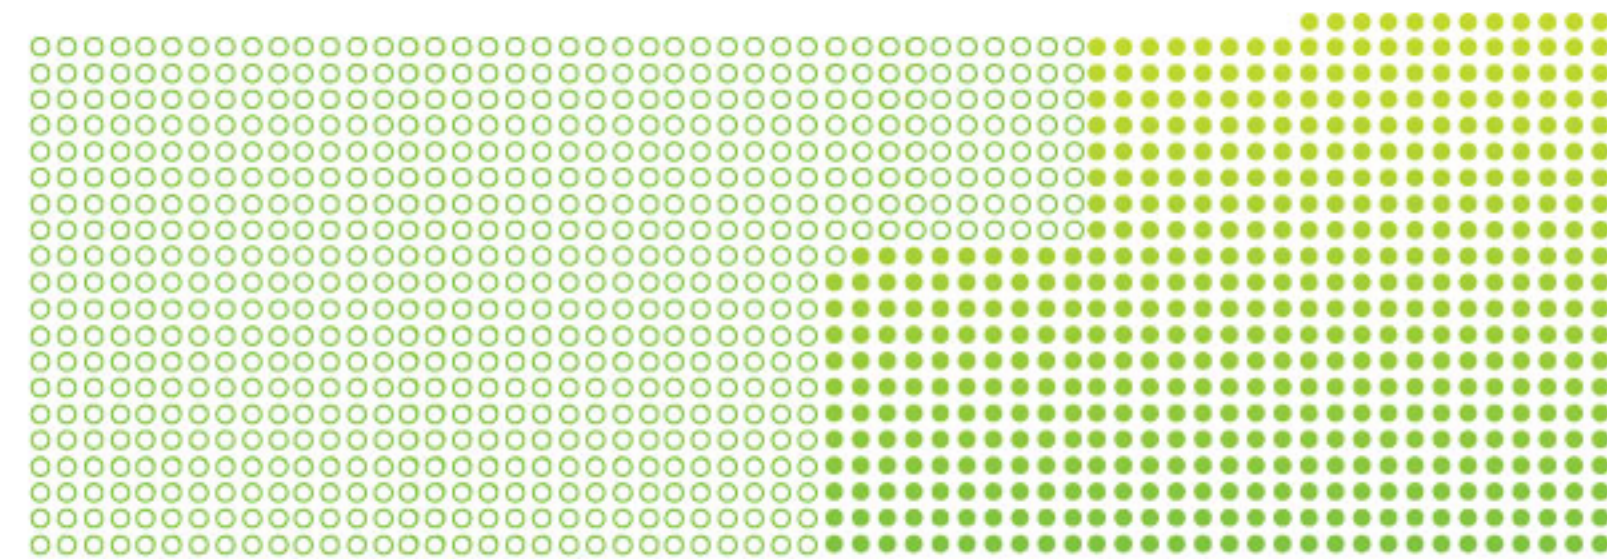

Wi-Fi Connections

By Quarter

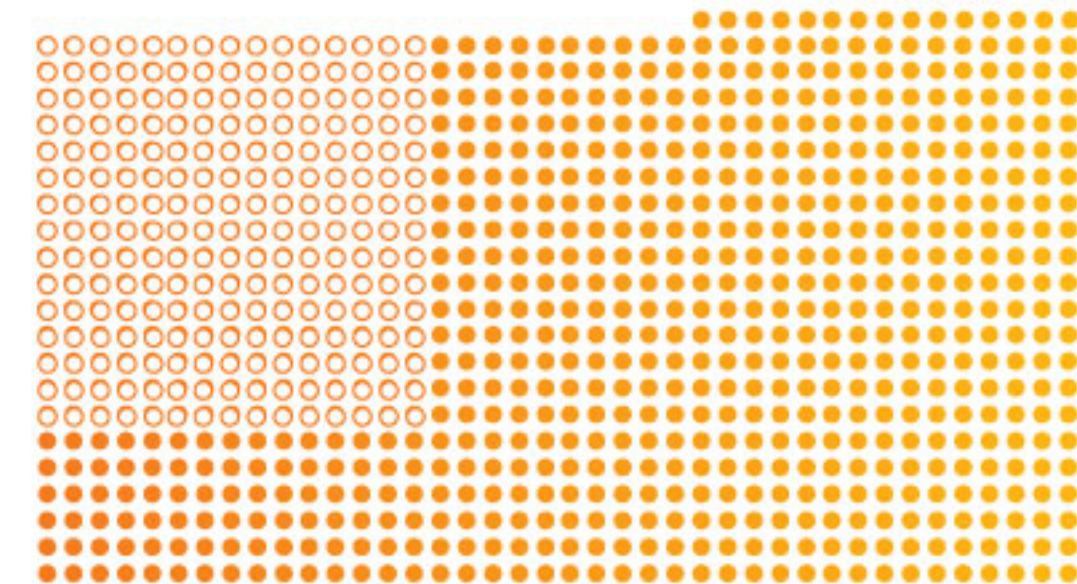

- 2010**
 - 2Q10: 68.1 million
 - 1Q10: 53.1 million
- 2009**
