

Business Pooled Nation for Data

Share the value.

Make managing your mobile workforce easier than ever. Pooled wireless data access is a simple and economical way to share data among Corporate Responsibility Users (CRUs). Workers use the data they need. Light users and heavy users can help balance each other out. It's a smart way to help control costs.

¹ Plans include Mobile Hotspot and tethering at no additional cost for capable devices.

² Prices are subject to change and do not include taxes. In addition to the monthly cost of the rate plan and any selected features, AT&T imposes the following charges: (1) a Regulatory Cost Recovery Charge of up to \$1.25 to help defray its cost incurred in complying with obligations and charges imposed by State/Federal telecom regulations; (2) a gross receipts surcharge; (3) State and Federal Universal Service Charges; and (4) other government assessments on AT&T. These fees are not taxes or government-required charges. See att.com/additionalcharges for details.

³ 1,024 kilobytes (KB) = 1 megabyte (MB). If you exceed your data plan's initial allowance, you will automatically be provided with additional data at the stated per/KB pay-per-use rate. All data allowances, including overages, must be used in the billing period in which the allowance is provided, or they will be forfeited.

⁴ **Messaging Pay-Per-Use Charges:** If you do not select a messaging plan, the following charges apply: text messages – \$0.20 per message; picture/video messages – \$0.30 per message. **International Roaming Data & MSG Pay-Per-Use (PPU) Charges:** \$0.0195 for each KB used, except Canada which is \$0.015 per KB; and 50¢ per text message sent, \$1.30 per picture/video message sent. Standard domestic rates apply to incoming messages. PPU charges for international messages sent from U.S.: 25¢ for text message and 50¢ for picture/video messages.

IMPORTANT INFORMATION: All prices are billed monthly and are valid for use in the U.S. International use not included. New one- or two-year CRU Term/service commitment may be required. \$36 Activation Fee for each new line. **Early Termination Fee/Cancellation Fee (ETF):** None if cancelled during the first 30 days – up to \$35 restocking fee applies (10% for tablets and accessories over \$199); thereafter, ETF up to \$150 or \$325 depending on device (details at att.com/equipmentETF). Subject to change. Additional software, hardware and/or subscription may be required for certain features. Additional device restrictions apply for access to corporate email/intranet sites and business applications using qualified plans. **Coverage:** Check coverage in your area at wireless.att.com/coverageviewer. Mobile Broadband not available in all areas. Your phone's display does not indicate the rate you will be charged. Please review your coverage map for areas included in and out of plan. 4G speeds delivered by HSPA+ with enhanced backhaul. Not available everywhere. Deployment ongoing. Compatible device and data plan required. **Business Pooled Nation for Data Plans:** Available only to customers with a qualified AT&T business agreement for wireless services ("Business Agreement") and their respective Corporate Responsibility Users ("CRUs"). Within a single Billing Account Number ("BAN"), CRUs activated on separate Business Pooled Nation for Data Plans are combined to create a "Data Pool." Every billing cycle, each CRU first uses his or her plan's included domestic data usage ("Included Usage"). If a CRU does not use all his or her Included Usage, it creates an underage in the amount of the unused KB of data usage ("Under Usage"). If a CRU uses more than his or her Included Usage, it creates an overage in the amount of the excess KB of data usage ("Over Usage"). The Data Pool's Under Usage amounts for each CRU and Over Usage amounts for each CRU are then aggregated respectively and the totals are compared. If the aggregate Under Usage amount exceeds the aggregate Over Usage amount, then the difference is allocated among each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice equal to the amount of each such CRU's additional data usage charges. Any excess Under Usage will be forfeited. If the aggregate Over Usage amount exceeds the aggregate Under Usage amount, then the ratio of Under Usage to Over Usage is applied equally to the data usage of each CRU in the Data Pool with Over Usage, resulting in a credit on the invoice against each such CRU's corresponding additional data usage charges to partially offset such charges. For example, if a Data Pool has 900 Under Usage KB and 1000 Over Usage KB (which means a ratio of 90%), then each CRU with Over Usage will receive a bill credit equal to 90% of his or her additional data usage charges. CRUs changing price points or migrating Business Pooled Nation for Data plans during a bill cycle may result in one-time prorations or other minor impacts to the credit calculation. Customer may have more than one Data Pool within a Foundation Account Number; however, CRUs in one Data Pool cannot take advantage of another Data Pool's Under Usage, and each CRU can only participate in one Data Pool at a time. AT&T reserves the right to limit the number of CRUs in a Data Pool due to business needs and system limitations. CRUs on non-pooling AT&T plans may be included in the same BAN as CRUs on Business Pooled Nation for Data Plans; however, these non-pooling CRUs will not receive the pooling benefits or contribute Included Usage to other CRUs in a Data Pool. Additional terms and conditions apply – for details, see your company's Business Agreement, including without limitation, the "Enterprise Customers: Additional Service and Equipment Related Terms" found at att.com/abs-addtl-terms. **Wi-Fi:** Wi-Fi enabled device required. Wi-Fi access includes AT&T Wi-Fi Basic. Other restrictions apply. See attwifi.com for details and locations. International roaming not included.
