

# Sustainability at AT&T: *More than just one day*

*In 2011, our energy-efficiency efforts paid off in the form of*

**\$42 million**  
*in annualized savings.*

In 2011, AT&T collected approximately

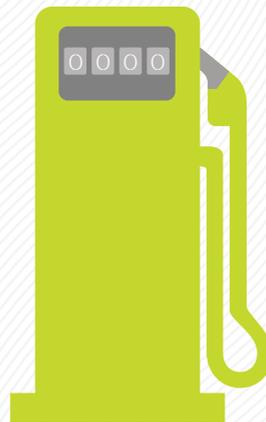

**3M**

*cell phones for reuse and recycling.*

**50.1M**

50.1 M pounds of network scrap materials kept out of landfills through reusing, selling and recycling materials in 2011.

We expect to avoid the purchase of

**2,500,000**

*gallons of unleaded gasoline in 2012 and each subsequent year our fleet of CNG vehicles\**

\*Based on EOY 2011 count of 3,469 CNG vehicles.
