

AT&T Telepresence Solution[®]

Enhancements Make Collaboration Easier

More than **1/3** of the companies ranked in the Fortune 100 are connected to the AT&T Business Exchange.

Telepresence grew from **1,281** meeting rooms in 2009 to more than **3,000** meeting rooms projected for 2011.

More than **one third** of the endpoints connected to the AT&T Business Exchange

are **outside** the United States.

12,000,000

AT&T customers held more than **12 million** minutes of meetings on immersive telepresence systems in the first three quarters of 2011.

AT&T will install more than **50** internal telepresence rooms in 2011, growing internal deployments to more than **190** rooms spanning more than **20** countries.

Since 2008, AT&T has logged more than **83,400** telepresence meeting hours.

Between January and September 2011, AT&T has realized almost **\$7.5 million** in travel dollars saved and more than **4,400 metric tons** of CO₂ emissions averted.

Using AT&T's Carbon Impact Assessment Tool, organizations can easily calculate the estimated greenhouse gas emissions and cost savings of using telepresence to replace or reduce business travel and increase productivity and collaboration.
