

THE BLACKBERRY BOLD FROM AT&T

The Best BlackBerry Ever on the Nation's Fastest 3G Network

AT&T is making a bold statement in the world of smartphones with the introduction of the BlackBerry® Bold™, the best BlackBerry ever on the nation's fastest 3G network. Available only to AT&T customers in the U.S. from the leading provider of BlackBerry services in the world, the BlackBerry Bold is built for speed. Beyond AT&T's HSPA-based, 3G BroadbandConnect network, the BlackBerry Bold features more than twice the processing power of previous BlackBerry smartphones. Couple that with an iconic design, the best international wireless coverage of any carrier, simultaneous voice and data capabilities, built-in GPS and Wi-Fi®, a rich set of multi-media capabilities and AT&T-exclusive services, and the BlackBerry Bold from AT&T is the complete package that will boldly go where no BlackBerry customer has gone before.
