

## Why GoPhone?

**A network you can trust, with flexible options – now including unlimited talk and text for just 60 dollars a month.**

For customers interested in the flexibility of prepaid wireless and worry-free calling on a nationwide network, GoPhone from AT&T gives customers their choice of devices, applications, service plans and billing options.

On October 12, AT&T introduced a new Unlimited Talk and Text package. Customers will now be able to pay only \$60 per month for unlimited calling and texting nationwide, with no annual contract. Unlimited texting includes Instant Messaging, picture and video messages, plus texting to Mexico and over 100 countries worldwide. There are no roaming charges in the U.S. or long distance fees.

GoPhone customers enjoy the advantages of AT&T's national network coverage, flexible payment options, and Rollover Balance®, which lets customers on certain plans carry over their unused account balances when they refill before their balances expire, up to the account maximum.

### Multiple GoPhone Options Include:

	GoPhone	Boost Mobile	Virgin Mobile	Metro PCS	Cricket
National Network	✓	✓	✓		
Pay per Day	✓				✓
Pay per Minute	✓	✓	✓	✓	✓
Rollover Balance	✓				

GoPhone customers can refill their account 24 hours a day, seven days a week with prepaid refill cards, online or by dialing 611.

GoPhone comes standard with services such as voicemail, caller ID, and call forwarding, and can be customized to include the enhanced services of your choice, from text messaging to MEdia™ Net. GoPhone packages, available in all AT&T stores, include a new device and airtime credit.
