

# AT&T U-verse TV: Advanced Features and Apps

AT&T U-verse<sup>SM</sup> is changing what you can do with your TV. Below are some of the unique content, applications and services delivered with our advanced IPTV platform that give you more control. AT&T U-verse just keeps getting better — and U-verse TV customers can expect additional enhancements and applications in the future.

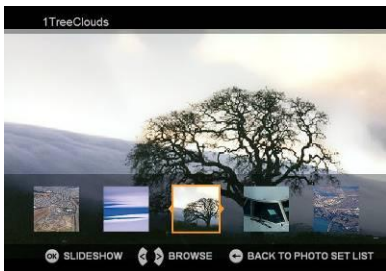

## Total Home DVR

Watch HD and SD recordings from a single DVR on other connected TVs in the home with Total Home DVR. You can also schedule and manage recordings from any U-verse receiver, pause a recorded show

and pick it up where you left off in another room, play back up to four recorded shows at once, and play back the same recorded show on different TVs at different points.

## More HD Channels Than Cable

U-verse HD technology delivers rich, realistic video and 5.1 channel audio with access to more than 110 HD channels in every U-verse TV market.

## AT&T Online Photos from Flickr

Watch slideshows and browse your online photos right from the comfort of your couch, on your U-verse TV screen.

## Remote Access to DVR

With U-verse TV and Internet, schedule DVR recordings even when you're on the go from any Web-connected PC or compatible wireless device.

## AT&T Yahoo! Games

Play your favorite games on your TV screen, including Sudoku, Solitaire, JT's Blocks and Mah-Jongg Tiles.

## Local Yellow Pages Search

Search your local Yellow Pages directly on your TV screen with YELLOWPAGES.COM TV.

## U-verse TV Multiview

Watch up to four channels at one time and select which channel is the main picture with audio with U-verse TV Multiview. Instead of surfing one channel at a time, you can tune to a single channel to see Sports Multiview, News

Multiview and Kids Multiview programming. Select the record button to schedule recordings without exiting Multiview.

## AT&T U-bar

Access customizable stock, weather, sports and traffic information on your TV screen, based on the preferences you set on the att.net portal using your AT&T High Speed Internet account.

## Media Share

Stream your photos and music from any compatible PC on your home network to your U-verse TV screen with Media Share.

## Seasonal Sports Apps

Follow and interact with exciting sports events on your TV screen. Track your fantasy football league and stats with Yahoo! Sports Fantasy

Football. Play along with your personalized tournament bracket with College Basketball from Yahoo! Sports. And view multiple course feeds, the leaderboard and more with the Masters golf tournament app.

## AT&T Weather On Demand

Find the local and national weather information you want, for the U.S. city you want, at the time you want — all by tuning to channel 227.
