

**AT&T Video Share is a unique 3-G service that enables users to share live video over wireless phones while carrying on a voice call. The service provides a dramatic way to share personal moments and key events beyond the capabilities of voice and text. For more information, visit [www.att.com/videoshare](http://www.att.com/videoshare).**

Video share provides users with an exciting level of connectivity and presents new opportunities to share experiences with friends and family across town or across the country. Consumers can share moments with family and friends while the moments are happening – everything from weddings and a baby’s first steps to a Little League at-bat or a clearance-sale find.

For business users, the service enables a range of innovative business applications, from showing real estate or retail displays to facilitating insurance claims or troubleshooting efforts.

AT&T is the first U.S. service provider to deliver Video Share capabilities, which demonstrate the company’s powerful network and commitment to meaningful innovation.

### Service Requirements

To use Video Share, both the sender and receiver must have:

- A 3G Video Share-capable wireless phone
- Video Share service enabled on the phone
- AT&T 3G wireless network coverage
- A “Video Share Ready” prompt when a call is placed

### Video Share Service Packages

Two Video Share service packages are available to customers to meet the needs of both heavy and light users.

	Video Share Starter \$4.99/month	Video Share Plus \$9.99/month	Video Share Pay-Per-Use
<b>Video Share minutes per month</b>	25	60	35 cents per minute
<b>Additional usage</b>	30 cents per minute	25 cents per minute	

Video Share minutes charged only to sender. For both the Video Share service packages and pay-per-use option, both sender and receiver will be charged for any airtime usage and wireless minutes.
