FEDERAL COMMUNICATIONS COMMISSION  
OFFICE OF THE SECRETARY

Ms. Magalie Roman Salas  
Secretary  
Federal Communications Commission  
445 12th Street, S.W.  
Washington, D.C. 20554

*Re: Joint Application by Southwestern Bell for Provision of In-Region, InterLATA Services in Kansas and Oklahoma, CC Docket No. 00-217*

Dear Ms. Salas:

On behalf of SBC Communications Inc. ("SBC") and pursuant to 47 C.F.R. § 1.65(a), I am writing to inform you that certain information provided in the Affidavit of Elizabeth Ham (FCC filed Oct. 26, 2000) may have been incorrect. This affidavit contains the following paragraph:

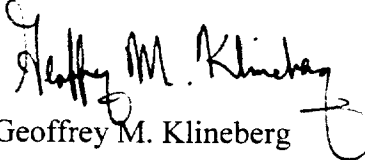

Prior to June 1999, AT&T experienced problems testing and reporting trouble on lines for combined loop and port orders. SWBT investigated the problem and discovered that if an error prevented a CRIS (or disconnect) order from posting to completion, the Loop Maintenance Operations System ("LMOS") did not process the CABS (or new) order for the combined loop and port. The CABS order processing did not occur because there was already a working line record for the TN. In June 1999, SWBT changed programming so that LMOS no longer waits for Disconnect orders to post to completion before processing them. Disconnect orders are now processed from SORD distribution. This has allowed for LMOS to build the line record correctly 98% of the time on AT&T combination loop and port orders. LMOS builds the line record the same day that the orders post to the CABS system. This allows a user of Trouble Administration to test or report trouble on that TN on the same day that the order has posted to the CABS billing system.

Ham Aff. ¶ 262 (footnote omitted). It has recently come to SBC's attention that this affidavit appears to be inaccurate with respect to certain details concerning how LMOS operated after June 1999. It now appears that Disconnect orders were not processed from SORD distribution at the time the affidavit was filed. SBC is investigating this and related matters.

Magalie Roman Salas
