

# AT&T's 4G Evolution

AT&T customers have access to the nation’s largest 4G network for a widespread, ultra-fast and consistent 4G experience. We have two 4G networks working together for customers: LTE and HSPA+ with enhanced backhaul. We’re expanding 4G LTE across our network footprint, and AT&T customers will continue to have access to fast 4G speeds even when they are outside of an LTE area. With other carriers, when you travel outside of their LTE coverage, you’re on a much slower 3G network.

## 4G LTE Markets:

- \* Akron, OH
  - \* Athens, GA
  - \* Atlanta, GA
  - \* Austin, TX
  - \* Baltimore, MD
  - \* Baton Rouge, LA
  - \* Bloomington, IN
  - \* Boston, MA
  - \* Bryan-College Station, TX
  - \* Canton, OH
  - \* Chapel Hill, NC
  - \* Charlotte, NC
  - \* Chicago, IL
- \* Dallas-Fort Worth, TX
  - \* Houston, TX
  - \* Indianapolis, IN
  - \* Lafayette, IN
  - \* Kansas City, MO
  - \* Las Vegas, NV
  - \* Los Angeles, CA
  - \* Muncie, IN
  - \* Naples, FL
  - \* New Orleans, LA
  - \* New York City, NY
  - \* Oakland, CA
  - \* Oklahoma City, OK
- \* Orlando, FL
  - \* Phoenix, AZ
  - \* Raleigh-Durham, NC
  - \* San Antonio, TX
  - \* San Diego, CA
  - \* San Francisco, CA
  - \* San Jose, CA
  - \* San Juan, PR
  - \* Sarasota-Bradenton, FL
  - \* St. Louis, MO
  - \* Tampa-St. Petersburg, FL
  - \* Washington, D.C.

AT&T has made five speed upgrades in recent years to provide our customers with consistently fast speeds before, during, and after LTE deployment. Other carriers can’t say the same.

**260** More than 260 million people covered by our 4G network, the nation’s largest

**100** Virtually 100 percent of AT&T’s wireless network is covered by HSPA+, which, when combined with enhanced backhaul, enables 4G speeds

**86** percent of mobile data traffic runs over enhanced fiber backhaul

**38** AT&T 4G LTE now available in 38 markets

**74** million Americans have access to AT&T 4G LTE (as of January 2012)

**30** About 30 percent of AT&T postpaid smartphone subscribers have a 4G device

**AT&T DELIVERED THE FASTEST 4G LTE SPEEDS**  
according to PCWorld speed tests\*

- Gizmodo**  
“The Results Are In: AT&T’s LTE is Fast as Blazing Hell”
- PC Magazine**  
“Watch out, Verizon. There's a new fastest network in town: AT&T's LTE. ... Just as exciting as the sheer download speeds were the connection quality results.”
- Houston Chronicle**  
“AT&T’s first LTE smartphones are almost too fast. Almost. ... Sometimes, the results...were almost beyond belief.”
- Frost & Sullivan**
