

3.1 SERVICE CHARGES

3.1.1 MULTI-ELEMENT SERVICE CHARGES

A. DESCRIPTION

1. Multi-Element Service Charges apply to the ordering, installing, moving, changing, rearranging or furnishing of individual and multi-line residence and business service, and trunks, except as otherwise shown.

2. Multi-Element Service Charges include the following elements:

a. Service Ordering Charge

The term Service Ordering Charge means the charge that applies per customer request for work performed by the Company in connection with the receiving, recording and processing of customer requests for service to be completed for the same account, at the same premises, at the same time.

One service ordering charge applies to each service order issued for each customer request for service and work as shown in Rates and Charges following. All items included on that service order are covered on the service order charge.

b. Central Office Line Connection Charge

The term Central Office Line Connection charge means the charge that applies for arranging each exchange line to provide service between the central office and the customer's premises. The charge applies for work including but not limited to:

(1) Making and/or changing connections in the central office.

(2) Making and/or changing connections in distribution facilities between the central office and the customer's premises, including necessary cross connections and line and station transfers,

(3) Installation of Network Interface Device (NID)

c. Premises Visit Charge

The term Premises Visit Charge means the charge that applies for premises work to business customers that is not covered in the Central Office Line Connection Charge. The charge only applies if a premises visit is required.

3.1 SERVICE CHARGES

3.1.3 CHARTER NUMBER SERVICE

A. DESCRIPTION

Charter Number is a service that allows a customer to retain and port their current telephone number to another wire center within the same Rate Center when the customer is faced with either changing locations and/or changing types of service and/or consolidating services. Charter Number will allow customers to maintain their existing telephone number while reducing the confusion and expense associated with changing telephone numbers. As indicated above, this service will only provide for the porting of telephone numbers within the same Rate Center.

B. REGULATIONS

1. Charter Number Service will be available to POTS, DID/PBX, Centrex, ISDN BRI and ISDN PRIME Service Customers.
2. Charter Number Service will only provide porting of a working in service telephone number within the same Rate Center.
3. InterLATA porting will not be allowed with this service. All numbers ported must be within the same area code (NPA) geographical boundaries.
4. No porting is allowed outside of MSA's as defined in FCC Tariff No. 1.
5. Once a telephone number is ported using Charter Number Service, subsequent telephone numbers, (i.e. Additional Line) will be issued from the switch in which the main telephone number resides not from the original switch.
6. Charter Number Service is available where facilities and operating conditions permit.
7. The ported number will only function from one location.
