

# Service Pricing Schedule - Michigan Bell Telephone Company

## Network Planning and Engineering Service

From Michigan Bell Telephone Company to SNET America, Inc.

SPS T06602-MI-3C5-1  
GSA Contract No. MI-700104

The following provisions will apply to the Network Planning and Engineering Services furnished to SNET America, Inc. (Buyer) by Michigan Bell Telephone Company (Seller) pursuant to this service pricing schedule and the General Services Agreement, to which it is attached and forms a part.

### Section I. Scope of Services

**Layer 1/2/3 and Voice Network Planning and Engineering Service:** Services include, but are not limited, to: network planning functions; project integration and planning functions; corporate-wide network planning initiatives; program/project management; common systems standards and applications engineering; equipment and material approval for use (AFUs) and life cycle management; switching/transport/data process support; asset management; cross discipline engineering systems support; network engineering regulatory and compliance support and associated support functions for Layer 1 (i.e., Inter-LATA Transport), Layer 2 (i.e., ATM/FR/Ethernet), Layer 3 (i.e., Internet Protocol) and Voice (i.e., TDM/VoIP) Network Engineering Support services.

Buyer shall provide Seller with access to the necessary information for Seller to provide the services under this agreement, including but not limited to detailed business operating plans including regulatory mandates; current and new products; product priorities; detailed business organizational plans; detailed business, network and systems architectures including details on related infrastructure; forecasts of all products/services; existing methods related to requested service; and detailed financials associated with all business development functional areas.

### Section II. Pricing
