

AT&T Voice Services

The AT&T family of companies has served consumers with quality voice services for more than a century and will continue building on this heritage with continued innovation, reliability, integrity. Through its subsidiaries, the new AT&T family of companies is the nation's leading local phone and long distance service provider.

AT&T companies offer consumers some of the best choices and values in voice services, pairing the reliability of traditional wireline services with wireless services and new technologies like VoIP.

Local and Long Distance Service

AT&T companies offer consumers convenience, flexibility, and value through a wide variety of local and long distance service plans. In addition to selecting local phone service, residential customers may choose from a wide variety of call-management features, including Call Waiting ID, Privacy Manager, Three-Way Calling and voice mail service. Customers can choose from unlimited local and long distance calling, low per-minute rates or "block of time" plans for calls to the United States. They can also choose from compelling choices for international calling rates and plans to anywhere in the world.

Voice Over Internet Protocol (VoIP)

The new AT&T family of companies offers digital voice service based on Voice over Internet Protocol, or VoIP technology, under the AT&T CallVantage® Service brand. AT&T CallVantage Service combines the power of voice, home phone and high-speed broadband service.

Service plans, where available, include local, long distance and international calling; popular features, like Do Not Disturb, Locate Me and Call Filtering. With AT&T CallVantage Service, consumers realize savings, convenience and feature-rich innovations.

Cingular Wireless

Through Cingular Wireless®, the largest wireless carrier in the United States, the new AT&T companies offer a variety of local and national wireless voice and data services in the traditional 13-state SBC local service region.

Cingular Wireless (AT&T Inc. owns 60 percent of Cingular Wireless through a joint venture with BellSouth Corp.) continues to work closely with the new AT&T family of companies to create a new category of convergence services that combines the mobility and flexibility of Cingular Wireless service with the reliability and quality of local phone service. Cingular has the largest digital voice and data network in the nation and the largest mobile-to-mobile community of any national wireless carrier.
