Program restrictions
Lifeline is a government assistance program and willfully making false statements to obtain the benefit can result in fines, imprisonment, de-enrollment or being barred from the program. Only one Lifeline service is available per household, which is defined as any individual or group of individuals who live together at the same address and share income and expenses. A household is not permitted to receive Lifeline benefits from multiple providers. Violation of the one-per-household limitation constitutes a violation of the Federal Communications Commission (or “FCC”) rules and will result in the subscriber’s de-enrollment from the program. The service is non-transferable, and only eligible consumers may enroll in the program.

Documentation necessary for enrollment: All subscribers will be required to provide documentation to demonstrate eligibility based on (1) household income at or below 135% of FPG for a household of that size; OR (2) the household's participation in one of the government assistance programs listed above.
