Reminder:
- Your Wi-Fi Gateway does not contain a battery backup.
- Battery backup is available for purchase from third-party manufacturers and retailers to keep you connected in the event of a power failure. Visit att.com/batterybackup for more information.

Get started
Approximate installation time: 20 minutes

These instructions will guide you through the process of replacing your Wi-Fi Gateway.

In the box:

- Wi-Fi Gateway (Front View)
- Power Cord (2 parts)
1. **Set up**  
Approximate time: 10 minutes

Please note that your U-verse TV, Internet, and voice services will not operate during this process. This includes recording TV shows.

A. Unplug power cord from existing Wi-Fi Gateway  
- Set power cord aside  
- Stand new Wi-Fi Gateway side-by-side with existing Wi-Fi Gateway

B. Transfer one connection at a time from the existing Wi-Fi Gateway to new Wi-Fi Gateway

C. Carefully read and remove yellow Power sticker covering the Power port of new Wi-Fi Gateway  
- Connect new power cord to Power port of new Wi-Fi Gateway and into electrical outlet

Below is a completed setup. Your connections may vary.

2. **Power up**  
Approximate time: 1-5 minutes

Your Wi-Fi Gateway is now powering up. During this time (up to 5 minutes), do not unplug the power cord or the green data cable, as this can permanently damage the Wi-Fi Gateway and significantly delay your service activation.

When complete, the Service light will begin flashing, then turn to solid green. If the Service light does not turn solid green or continues to blink after 5 minutes, see **Need more help?** on the back of this guide.

**NOTE:** Your TV may take a few minutes to display. Check your TV for service, if your TV does not respond refer to **Need more help?** on the back of this guide.

3. **Go Wi-Fi**  
Approximate time: 1–5 minutes

A. Select only one option to begin the Wi-Fi setup.

**Option 1: Connect using PC**  
- Connect laptop or PC with an Ethernet cable to your Wi-Fi Gateway  
- Continue to B

**Option 2: Connect using smartphone/tablet**  
- Establish a temporary connection using new Wi-Fi settings located on yellow sticker on new Wi-Fi Gateway  
- Open your device’s Wi-Fi connection settings and select your Wi-Fi Network Name and enter your Wi-Fi Password to connect to your network  
- Continue to B

B. **Note:** Please wait up to 10 minutes for the Wi-Fi Gateway to complete the power up process before attempting to restore your settings.

- Open a browser and go to ufix.att.com/restore  
- Log in to your U-verse account. If you forgot your User ID (primary AT&T email address) and Password, help can be found on the account log-in screen.  
- Follow the onscreen instructions to transfer the existing Wi-Fi settings.  
- Record existing Network Name and Wi-Fi Password on separate yellow sticker from kit.  
- Place new yellow sticker over your new Wi-Fi Gateway’s yellow sticker.

**NOTE:** If Wi-Fi settings did not transfer or to use new Wi-Fi Network Name and Password, refer to the **Need more help?** section on the back of this guide.

**NOTE:** Any custom settings made for security cameras, game consoles, etc., on your original Wi-Fi Gateway will also need to be made on your new Wi-Fi Gateway.

4. **Easy Return**  
(Refer to return instructions in your kit)

A. Return your equipment at no cost to you within 21 days to avoid $150 charge.

B. Take original gateway and power cord to nearest The UPS Store. Bring your AT&T Account number located on your packing slip. Please do not return other devices.

C. UPS will scan your equipment, provide a receipt, pack, and ship equipment to AT&T at no cost to you.
Need more help?

No TV or Internet service:

- **Check your connections:** Cables usually make an audible click when secure.
- **Check Power:** Power light on the Wi-Fi Gateway should be green; if not, try another electrical outlet.
- **Check Service light on front of the Wi-Fi Gateway:** If after 5 minutes, the light is red or off, power down the Wi-Fi Gateway by holding down red Reset button for 15 seconds.
- **TV Receivers not responding:** Confirm Service light is solid green on the Wi-Fi Gateway. If so, hold the TV receiver’s Power button down for 10 seconds and release, then wait five minutes.

- **Wi-Fi Gateway Power light is amber:** Don’t worry. This is a normal part of the power-up sequence.
- **No dial tone:** Make sure your phone cable is plugged into the Phone Line port on the Wi-Fi Gateway.
