Reminder:

- Your new gateway does not contain a battery backup.
- Battery backup is available for purchase from third party manufacturers and retailers to keep you connected in the event of a power failure. Visit att.com/batterybackup for more information.

Get started

Total approximate installation time: 20 minutes

These instructions will guide you through the process of replacing your Wi-Fi Gateway.

In the box:

Power Cord
2 parts
1. Set up
Approximate time: 10 minutes

- Unplug the battery backup from existing Wi-Fi Gateway and electrical outlet
- Stand new Wi-Fi Gateway side-by-side with existing Wi-Fi Gateway

Below is a completed setup. Your connections may vary.

A. You will not have internet or Phone service while you’re replacing your Wi-Fi Gateway.

2. Power up
Approximate time: 1-5 minutes

Your Wi-Fi Gateway is now powering up. During this time, the Broadband light will turn red and the Power light will turn solid green.

Wait up to 5 minutes for the Service indicator light to turn solid green.

During this time (up to 5 minutes), do not unplug the power cord or the green data cable, as this can permanently damage the Wi-Fi Gateway and significantly delay your service activation.

If the Service light does not turn solid green or continues to blink after 5 minutes, see the Having trouble? section on the back of this guide.

3. Go Wi-Fi
Approximate time: 1–5 minutes

New Wi-Fi setup:

A. Select only one option to begin the Wi-Fi setup

Option 1: Connect using PC
- Connect laptop or PC with an Ethernet cable to your Wi-Fi Gateway
- Continue to B

Option 2: Connect using smartphone/tablet
- Establish a temporary connection using new Wi-Fi settings located on yellow sticker on new Wi-Fi Gateway
- Open your device’s Wi-Fi connection settings and select your Wi-Fi Network Name and enter your Wi-Fi Password to connect to your network
- Continue to B

B. Note: Please wait up to 10 minutes for the Wi-Fi Gateway to complete the power up process before attempting to restore your settings.
- Open a browser and go to ufix.att.com/restore
- Log in to your AT&T account. If you forgot your User ID (primary AT&T email address) and Password, help can be found on the account log-in screen.
- Follow the onscreen instructions to transfer the existing Wi-Fi settings.
- Record existing Network Name and Wi-Fi Password on separate yellow sticker from kit.
- Place new yellow sticker over your new Wi-Fi Gateway’s yellow sticker.

NOTE: If Wi-Fi settings did not transfer or to use new Wi-Fi Network Name and Password, refer to the Having trouble? section on the back of this guide.

NOTE: Any custom settings made for security cameras, game consoles, etc., on your original Wi-Fi Gateway will also need to be made on your new Wi-Fi Gateway.

4. Easy Return
(Refer to return instructions in your kit)

A. Return your equipment at no cost to you within 21 days to avoid $150 charge.

B. Take original gateway and power cord to nearest The UPS Store.
- Bring your AT&T Account number located on your packing slip.
- Please do not return other devices (e.g., backup battery, etc.).

C. UPS will scan your equipment, provide a receipt, pack, and ship equipment to AT&T at no cost to you.
Having trouble?

No Internet service:

**Check your connections:** Cables usually make an audible click when secure.

**Check Power:** Power light on the Wi-Fi Gateway should be green; if not, try another electrical outlet.

**Check Service light on front of the Wi-Fi Gateway:** If after 5 minutes, the light is red or off, power down the Wi-Fi Gateway by holding down the red Reset button for 15 seconds.

If your existing Wi-Fi settings did not transfer, you will need to set up a new Wi-Fi Network Name and Password. To do so, follow these steps:

- Use settings from new Wi-Fi Gateway yellow sticker
- Open your device's Wi-Fi connection settings, select your Wi-Fi Network Name and enter Wi-Fi Password to connect
- Record and keep your Wi-Fi settings for future reference when connecting all your Wi-Fi devices

![Wi-Fi Network Name: ATTXXXXXXX
Wi-Fi Password: XXXXXXXXXXX](image)

**Wi-Fi Gateway Power light is amber:** Don’t worry. This is a normal part of the power-up sequence.

**No dial tone:** Make sure your phone cable is plugged into the Phone Line port on the Wi-Fi Gateway.

**Additional assistance:** Call 800.288.2020 and ask for “technical support”.
