Your phone is designed to make it easy for you to access a wide variety of content. For your protection, we want you to be aware that some applications that you enable may involve the location of your phone being shared. For applications available through AT&T, we offer privacy controls that let you decide how an application may use the location of your phone and other phones on your account. However, the AT&T privacy tools do not apply to applications available outside of AT&T. Please review the terms and conditions and the associated privacy policy for each location-based service to learn how location information will be used and protected. In addition, your AT&T phone may be used to access the Internet and to download, and/or purchase goods, applications, and services from AT&T or elsewhere from third parties. AT&T provides tools for you to control access to the Internet and certain Internet content. These controls may not be available for certain devices which bypass AT&T controls.

### Instruction symbols

These symbols may appear in the User guide.

- ! Note
- ⚫ Tip
- ⚠ Warning

> Use a selection or navigation key to scroll and select. See *Navigation* on page 13.
Getting started

Assembly
Before you start using your phone, you need to insert a SIM card and the battery.

To insert the SIM card

1. Remove the battery cover.
2. Slide the SIM card into its holder with the gold-colored contacts facing down.

To insert the battery

1. Insert the battery with the label side up and the connectors facing each other.
2. Attach the battery cover.

Turning on the phone

To turn on the phone

1. Press and hold down the power button.
2. Enter your SIM card PIN, if requested, and select OK.
3. Select a language.
4. Follow the instructions to use the setup wizard for basic settings and useful tips.

💡 If you want to correct a mistake when you enter your PIN, press Clear.

SIM card
When you register as a subscriber with AT&T, you get a SIM (Subscriber Identity Module) card, which contains information about your subscription. Always turn off your phone and detach
the charger before you insert or remove the SIM card.

- You can save contacts on the SIM card before you remove it from your phone. See To copy names and numbers to the SIM card on page 34.

PIN
You may need a PIN (Personal Identification Number) to activate the services and functions in your phone. Your PIN is supplied by AT&T. Each PIN digit appears as *, unless it starts with emergency number digits, for example, 112 or 911. You can see and call an emergency number without entering a PIN.

- If you enter the wrong PIN three times in a row, the SIM card is blocked. See SIM card lock on page 57.

Standby
After you have turned on your phone and entered your PIN, the name of the network operator appears. This view is called standby. Your phone is now ready for use.

Using other networks
Making and receiving calls, using messaging, and data transfer, for example, Internet-based services, outside your home network (roaming), may incur additional costs. Contact AT&T for more information.

Help
In addition to this User guide, Feature guides and more information are available at www.sonyericsson.com/support.

Help and information are also available in your phone.

To view information about functions
- Scroll to a function and select Info, if available. In some cases, Info appears under Options.

To view the phone status
- Select Menu > Settings > General > Phone status.

Charging the battery
The phone battery is partly charged when you buy it.
To charge the battery

1 Connect the charger to the phone. It takes approximately 2.5 hours to fully charge the battery. Press a key to view the screen.
2 Remove the charger by tilting the plug upwards.

💡 You can use your phone while it is charging. You can charge the battery at any time and for more or less than 2.5 hours. You can interrupt the charging without damaging the battery.

Navigation

To access the main menu
- When Menu appears on the screen, press the right selection key to select Menu.
- If Menu does not appear on the screen, press , and then press the right selection key to select Menu.

To navigate the phone menus

- Press the navigation key , , or to move through the menus.

To select actions on the screen
- Press the left, center or right selection key.

To view options for an item
- Select Options to, for example, edit.

To end a function
- Press .

To return to standby
- Press .

To navigate your media
1. Select Menu > Media.
2. Scroll to a menu item and press .
3. To go back, press .

To delete items
- Press to delete items such as numbers, letters, pictures and sounds.

Status bar icons
You may see icons in the standby screen of your phone.

Shortcuts
You can use keypad shortcuts to go directly to functions from standby.

To use navigation key shortcuts
• Press 1, 2, 3 or 4 to go directly to a function.

To edit a navigation key shortcut
1 Select Menu > Settings > General > Shortcuts.
2 Scroll to an option and select Edit.
3 Scroll to a menu option and select Shortc..

Main menu shortcuts
Menu numbering starts from the top left icon and moves across and then down row by row.

To go directly to a main menu item
• Select Menu and press 1 – 9, *, #, 0 + or #–$$.

! The Main menu layout must be set to Grid. See To change the main menu layout on page 55.

Activity menu
The activity menu allows you to multitask and gives you a quick access to:
• New events – missed calls and new messages.
• Running apps – applications that are running in the background.
• My shortcuts – add your favorite functions to access them quickly.
• Internet – quick access to the Internet.

To open the activity menu
• Press 0.

Memory
You can save content on a memory card, in the phone memory and on the SIM card. Photos and music are saved on the memory card, if a memory card is inserted. If not, or if the memory card is full, photos and music are saved in the phone memory. Messages and
contacts are saved in the phone memory, but you can choose to save them on the SIM card.

Memory card

You may have to purchase a memory card separately.

Your phone supports Memory Stick Micro™ (M2™) memory card adding more storage space to your phone. It can also be used as a portable memory card with other compatible devices.

You can move content between a memory card and the phone memory. See Handling content in the phone on page 23.

To insert a memory card

• Remove the battery cover and insert the memory card with the gold-colored contacts facing down.

Phone language

You can select a language to use in your phone.

To change the phone language

1 Select Menu > Settings > General > Language > Phone language.
2 Select an option.

Entering text

You can use multitap text input or T9™ Text Input to enter text. The T9 Text Input method uses a built-in dictionary.

To change text input method

• When you enter text, press and hold down .

To shift between capitals and lowercase letters

• When you enter text, press (a).

To enter numbers

• When you enter text, press and hold down - – .

To enter periods and commas

• When you enter text, press 1.

To enter a symbol

1 When you enter text, select Options > Add symbol.
2 Scroll to a symbol and select Insert.

To enter text using T9™ Text Input
1 Select, for example, Menu > Messaging > Write new > Message.
2 If T9 is not displayed, press and hold down $ to change to T9 Text Input.
3 Press each key only once, even if the letter you want is not the first letter on the key. For example, to write the word “Jane”, press 5, 2, 6, 3. Write the whole word before looking at the suggestions.
4 Use ▲ or ▼ to view suggestions.
5 Press # to accept a suggestion.

To enter text using multitap
1 Select, for example, Menu > Messaging > Write new > Message.
2 If T9 is displayed, press and hold down $ to change to multitap text input.
3 Press 2 – 9 repeatedly until the desired letter appears.
4 When a word is written, press # to add a space.

To add words to the built-in dictionary
1 When you enter text using T9 Text Input, select Options > Spell word.
2 Write the word using multitap input and select Insert.

Walkman™
You can listen to music, audio books and podcasts. For more information, see Transferring content to and from a computer on page 26.

Stereo portable handsfree

To use a handsfree
- Connect a portable handsfree. Music stops when you receive a call and resumes when the call has ended.

! If headphones are not included with the phone, you may purchase them separately.
Walkman™ player

You can use the media player keys to control the Walkman™ player when the phone is closed. The keys must be unlocked. For information on how to unlock the keys, see To unlock the media player keys on page 59.

To play music
1 When the phone is open, select Menu > AT&T Music > WALKMAN.
2 Browse by category using the navigation key.
3 Scroll to a title and select Play.

💡 You can use ◀ to start playing music when the phone is closed. ▶ starts the last used music application, that is the Walkman™ player or the radio.

To stop playing music
• When the phone is closed, press ■.

To fast forward and rewind
• When the phone is closed, press and hold down ▶ or ◀.

To move between tracks
• When the phone is closed, press ▶ or ◀.

To minimize the player
• When the phone is open, select Options > Minimise.

To return to the player
• When the phone is open and you are not in any menu, press ◀.

Shake control

To switch tracks
1 When the phone is closed and music is playing, press and hold down ▶ and move the phone to the right with a flick of your wrist to go to the next track.
2 To go to the previous track, use the same action to the left.
To shuffle tracks

- When the phone is closed and music is playing, press and hold down \( \text{and} \) and shake your phone.

To change the volume

1. When the phone is closed and music is playing, hold the phone out in front of you facing upwards.
2. Press and hold down \( \text{and} \) and bend your arm upwards towards you to increase the volume. To decrease the volume, repeat the action in the opposite direction.

Playlists

You can create playlists to organize your music. You can add tracks and folders to a playlist. It may take a few minutes for the phone to create a playlist.

To create a playlist

1. Select Menu > AT&T Music > WALKMAN > Playlists.
2. Scroll to New playlist and select Add.
3. Enter a name and select OK.
4. For each track you want to add, scroll to the track and select Mark.
5. Select Add to add the marked tracks to the playlist.

To add tracks to a playlist

1. When the phone is open, select Menu > AT&T Music > WALKMAN > Playlists.
2. Select a playlist.
3. Scroll to Add music and select Add.
4. For each track you want to add, scroll to the track and select Mark.
Select Add to add the marked tracks to the playlist.

**SensMe™**

With SensMe™ you can create playlists in two ways, by mood or from all the tracks in your phone. By mood, you first use Media Go™ to transfer tracks to your phone. Information such as mood, tempo and chords is then added. The tracks are displayed as dots on a map with two axes. In the All view, all the tracks in your phone are placed randomly on the map.

**To create a playlist by mood**

1. When the phone is open, select Menu > Media > Music.
2. Scroll to SensMe™ and select Open.
3. Press ◀, ▶, ▶ or ◀.
4. Make sure you are in Mood view. If you are not, select Mood.
5. To preview different tracks, press ◀, ▶, ◀ or ▶.
6. To choose an area of tracks, select Add and press ◀ or ▶.
7. To create the playlist and play it in the Walkman™ player, select Create.
8. Select Options > Save playlist.
9. Enter a name and select OK.

**To create a playlist from All view**

1. When the phone is open, select Menu > Media > Music.
2. Scroll to SensMe™ and select Open.
3. Press ◀, ▶, ▶ or ◀.
4. Make sure you are in All view. If you are not, select All.
5. To preview different tracks, press ◀, ▶, ◀ or ▶.
6. To choose an area of tracks, select Add and press ◀ or ▶.
7. To create the playlist and play it in the Walkman™ player, select Create.
8. Select Options > Save playlist.
9. Enter a name and select OK.

**Audio books**

If you use Media Go™ to transfer audio books to your phone from a computer, you can listen to the audio books in your phone. It may take a few minutes before a transferred audio book
appears in the list of available audio books.

⚠️ You can download the Media Go™ software from www.sonyericsson.com/support.

To access audio books
- Select Menu > AT&T Music > WALKMAN > Audio books.

💡 You can find audio books in formats other than M4B and those that do not have ID3v2 chapter tags in the Tracks folder.

TrackID™ and MusicID™
TrackID™ and MusicID™ are music recognition services. You can search for title, artist and album name for a track you hear playing on the radio in your phone. TrackID can be used for songs playing on the phone's built-in FM Radio. MusicID can be used for songs playing on an external music source.

To search for track information
- When the built-in FM radio is playing select Options > TrackID™.
- When an external music source is playing, select Menu > AT&T Music > MusicID™.

💡 For best results, use TrackID™ and MusicID™ in a quiet area.

Video player

To play videos
1 Select Menu > Media > Video > Videos.
2 Scroll to a title and select Play.

To stop playing videos
- Press the center selection key.

To fast forward and rewind
- Press and hold down ⬅️ or ➡️.

To move between videos
- Press ⬅️ or ➡️.

To change the volume
- Press the side volume key up or down.

To change the video screen size
1 Select Options > Video size.
2 Select an option.

To save a picture from a video clip
1 To pause the video clip, press the center selection key.
2 To save the paused image as a picture, select Options > Save picture.
FM radio

You can use the media player keys to control the radio when the phone is closed. The keys must be unlocked. For information on how to unlock the keys, see To unlock the media player keys on page 59.

Do not use your phone as a radio in places where this is prohibited.

To turn on the FM radio
1. Connect a handsfree to the phone.

You can use [Play] to turn on the radio when the phone is closed. [Track Forward] starts the last used music application, that is the radio or the Walkman™ player.

To search for channels automatically
• When the phone is open, select Search.

To search for channels manually
• When the phone is closed, press [Track Back] or [Track Forward].

To change the volume
• Press the side volume key up or down.

To minimize the FM radio
• When the phone is open, select Options > Minimise.

To return to the FM radio
• Select Menu > Tools & Apps > Radio.

Saving channels
You can save up to 20 preset channels.

To save channels automatically
• When the phone is open, select Options > Auto save.

To save channels manually
1. When the phone is open and you have found a radio channel, select Options > Save.
2. Scroll to a position and select Insert.

To select saved channels
1. When the phone is open, select Options > Channels.
2. Select a radio channel.

To switch between saved channels
• When the phone is closed, press and hold down [Track Forward] or [Track Back].
**MusicDJ™**

You can compose and edit your own melodies to use as ringtones. Pre-arranged sounds with different characteristics are available.

*To compose a melody*
1. Select **Menu > Tools & Apps > Tools > MusicDJ™**.
2. Select to Insert, Copy or Paste sounds.
3. Use ‹, †, ‡ or † to scroll between the sounds.
4. Select Options > Save melody.

**Record sound**

You can record a voice memo or a call. Recorded sounds can also be set as ringtones.

*In some countries or states it is required by law that you inform the other person before recording the call.*

*To record a sound*
- Select **Menu > Entertainment > Record sound > Record**.

*To record a call*
1. During an ongoing call, select Options > Record.
2. To save the recording, select **Save**.

**AT&T Music**

Go to AT&T Music to access your Walkman player, purchase ringtones or to access other music applications.

**AT&T Music options**
- **WALKMAN** – a music player.
- **Shop Music** – discover, sample and download songs directly from your phone.
- **MusicID** – identify the song title, artist or album in a flash by holding your phone up to the music. MusicID can identify millions of songs.
- **XM Radio** – XM Mobile Radio® offers commercial-free music stations.
- **Music Videos** – stream your favorite mobile videos straight to your phone.
- **Make-UR-Tones** – lets you create custom ringtones from full track songs.
- **Community** – access a hot user community where you can chat with your friends about the latest music.
- **Music Apps** – purchase music related applications.
To access AT&T Music

- Select Menu > AT&T Music and select an option.

Transferring and handling content

You can transfer and handle content such as pictures and music.

⚠️ You are not allowed to exchange some copyright-protected material. identiﬁes a protected item.

Handling content in the phone

You can use File manager in your phone, to handle content saved in the phone memory or on a memory card. Tabs and icons in File manager show where the content is saved. If the memory is full, delete some content to create space.

To view memory status

1. Select Menu > File manager.
2. Select Options > Memory status.
3. Select Memory card or Phone.

To select more than one item in a folder

1. Select Menu > File manager.
2. Scroll to a folder and select Open.
3. Select Options > Mark > Mark several.
4. For each item you want to mark, scroll to the item and select Mark.
To move items between the phone memory and the memory card
1 Select Menu > File manager.
2 Find an item and select Options > Manage file > Move.
3 Select Memory card or Phone.
4 Scroll to a folder and select Open.
5 Select Paste.

To view information about content
1 Select Menu > File manager.
2 Find an item and select Options > Information.

Sending content to another phone
You can send content, for example, in messages or using Bluetooth™ wireless technology.

To send content
1 Scroll to an item and select Options > Send.
2 Select a transfer method.

! Make sure the receiving device supports the transfer method you select.

Using a USB cable
You can connect your phone to a computer with a USB cable to synchronize, transfer and back up phone content and use your phone as a modem. For more information, go to www.sonyericsson.com/support to read Feature guides.

! You may have to purchase a USB cable separately.

Before using a USB cable
See Required operating systems on page 27.

! Only use a USB cable supported by your phone. Do not remove the USB cable from your phone or computer during transfer as this may corrupt the memory card or the phone memory.

PC Software
You may use Windows® Explorer, Sony Ericsson PC Suite, or Media Go™ with your phone. Sony Ericsson PC software is available from www.sonyericsson.com/support to use with your phone.

In the phone menu, you must select the USB mode based on how you plan to use the USB cable with your phone. The table lists the available computer applications and the corresponding USB mode for each.

</tbody>
</table>

**USB default mode**

You can select the USB mode the phone uses when a USB cable is attached.

**To change the USB default mode**

1. Select Menu > Settings > the Connectivity tab > USB > USB default mode.
2. Select an option.
Disconnect the USB
The correct method for disconnecting the USB cable depends on the USB mode.

To disconnect the USB cable safely in Mass storage or Phone mode
1 When the phone is in Mass storage or Phone mode, right-click the removable disk icon in Windows Explorer.
2 Select Eject.
3 When the message is shown, Mass storage session ended. It is now safe to remove the USB cable.

To disconnect the USB cable safely in Media transfer or Printer mode
• Remove the USB cable.

Transferring content to and from a computer
With Windows® Explorer or Media Go™, you can transfer music from CDs, music on your computer, or music that you have purchased online to a memory card. Windows® Explorer is a file manager that often comes with your computer and can be used to view and manage your files and folders. Media Go™ enables you to transfer music, photos and videos between your phone and a computer. You can download Media Go™ from www.sonyericsson.com/support. For more information on using the phone with a USB cable, see Using a USB cable on page 24.

To use the phone with Windows® Explorer
1 Connect a USB cable to the phone and the computer.
2 On your phone (depending on the phone setup):
   • The phone may switch to Media transfer and be ready to use.
   • If prompted with a USB mode menu, select Media transfer.
3 On your computer:
   • Wait until the memory card appears as an external disk in Windows Explorer.
   • Drag and drop selected files between the phone and the computer.
   • For full access to your music in the music player, place it in the Music folder on the phone’s memory or a memory card. For more information on how to move files already stored on your phone or memory card to the Music folder, see To move items.
between the phone memory and the memory card on page 24.

Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card.

Required operating systems
You need one of these operating systems to use Sony Ericsson PC software:

- Microsoft® Windows Vista™
- Microsoft® Windows XP, Service Pack 2 or higher

To download Media Go™
1 Computer: In your Internet browser, go to www.sonyericsson.com/support.
2 Select a region and country.
3 Select Software downloads.
4 Select a phone from the list.
5 Select Read more and download under Media Go™.
6 Select Download now and save the file to your computer.

- Remember where you have saved the file.

To install Media Go™ from the downloaded file
1 Locate the downloaded Media Go™ file on the computer.

2 Double-click the file and follow the instructions.

To transfer content using Media Go™

Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card or the phone memory.

1 Connect the phone to a computer with a USB cable supported by your phone.
2 On your phone (depending on setup):
   - The phone may switch to Media transfer. If so, disconnect the cable and change the USB default mode to Mass storage. See USB default mode on page 25. Do not remove the USB cable from your phone or computer during transfer, as this may corrupt the memory card. Media Go™ software is available for download at www.sonyericsson.com/support.
   - If prompted with a USB mode menu, select Mass storage. The phone will shut down in this mode but will restart again when it is disconnected from the USB cable.
3 On your computer: Drag and drop selected files between the phone and the computer.
4 Wait until the phone appears in Media Go™.
5 Move files between your phone and the computer in Media Go™.

**Phone name**
You can enter a name for your phone that is shown to other devices when using, for example, Bluetooth™ wireless technology.

*To enter a phone name*
1 Select Menu > Settings > Connectivity > Phone name.
2 Enter the phone name and select OK.

**Using Bluetooth™ wireless technology**
The Bluetooth™ function is free of charge and makes wireless connection to other Bluetooth devices possible. You can, for example:

- Connect to handsfree devices.
- Connect to several devices at the same time.
- Connect to computers and access the Internet.
- Exchange items.
- Play multiplayer games.

⚠️ *A range within 10 metres (33 feet), with no solid objects in between, is recommended for Bluetooth communication.*

**Before using Bluetooth wireless technology**
You must turn on the Bluetooth function to communicate with other devices. You may also have to pair your phone with other Bluetooth devices.

*To turn on the Bluetooth function*
- Select Menu > Settings > Connectivity > Bluetooth > Turn on.

⚠️ *Make sure that the device you want to pair your phone with has the Bluetooth function activated and Bluetooth visibility turned on.*

*To pair the phone with a device*
1 Select Menu > Settings > Connectivity > Bluetooth > My devices.
2 Scroll to New device and select Add to search for available devices.
3 Select a device.
4 Enter a passcode, if required.

*To allow connection to the phone*
1 Select Menu > Settings > Connectivity > Bluetooth > My devices.
2 Select a device from the list.
3 Select Options > Allow connection.
4 Select Always ask or Always allow.

This is only possible with devices that require access to a secure service.

To pair the phone with a Bluetooth handsfree for the first time
1 Select Menu > Settings > Connectivity > Bluetooth > Handsfree.
2 Select a device.
3 Enter a passcode, if required.

Power saving
You can save battery power with the Power save function. In Power save mode you can only connect with a single Bluetooth device. If you want to connect with more than one Bluetooth device at the same time you must turn this function off.

To turn on power save
• Select Menu > Settings > Connectivity > Bluetooth > Power save > On.

Transferring sound to and from a Bluetooth handsfree
You can transfer the sound to and from a Bluetooth handsfree using a phone key or the handsfree key.

To transfer sound
1 Select Menu > Settings > Connectivity > Bluetooth > Handsfree > Incoming call.
2 Select an option. In phone transfers sound to the phone. In handsfree transfers sound to the handsfree.

You need to answer the call with the phone key for this setting to apply.

To transfer sound during a call
1 During a call, select Sound.
2 Select from the list.

Backing up and restoring
You can backup and restore contacts, the calendar, tasks, notes and bookmarks using the Sony Ericsson PC Suite.

You can backup and restore Address Book contacts, the calendar, tasks, notes and bookmarks using the Sony Ericsson PC Suite.

Before backing up and restoring, you need to install the Sony Ericsson PC Suite, which is available from www.sonyericsson/support.

You can backup and restore contacts within your phone using a Memory Stick Micro™ (M2™) memory card. You can move content between the
memory card and the phone memory. See Handling content in the phone on page 23.

💡 Back up your phone content regularly to make sure you do not lose it.

To make a backup using the Sony Ericsson PC Suite

1 Computer: Start the Sony Ericsson PC Suite from Start/Programs/Sony Ericsson/Sony Ericsson PC Suite.
2 Follow the instructions in the Sony Ericsson PC Suite for how to connect.
3 Phone: Select Phone mode.
4 Computer: Go to the backup and restore section in the Sony Ericsson PC Suite and make a backup.

To restore phone content using the Sony Ericsson PC Suite

⚠ The Sony Ericsson PC Suite will overwrite all the phone content during the restore process. You may damage your phone if you interrupt the process.

1 Computer: Start the Sony Ericsson PC Suite from Start/Programs/Sony Ericsson/Sony Ericsson PC Suite.
Calling

Making and receiving calls
You need to turn on your phone and be within range of a network.

To make a call
1 Enter a phone number (with international country code and area code, if applicable).
2 Press \( \text{\textendash} \).

- You can call numbers from your Address Book and call list. See Address Book on page 33, and Call list on page 33. You can also use your voice to make calls. See Voice control on page 36.

To end a call
- Press \( \text{\textendash} \).

To make international calls
1 Press and hold down \( \text{\textendash} \) until a “+” sign appears.
2 Enter the country code, area code (without the first zero) and phone number.
3 Press \( \text{\textendash} \).

To re-dial a number
- When Retry? appears select Yes.

To answer a call
- Press \( \text{\textendash} \).

To reject a call
- Press \( \text{\textendash} \).

To change the ear speaker volume during a call
- Press the volume key up or down.

To mute the microphone during a call
1 Press and hold down \( \text{\textendash} \).
2 Press and hold down \( \text{\textendash} \) again to resume.

To turn on the loudspeaker during a call
- Press SpkrOn.

Do not hold your phone to your ear when waiting. When the call connects, your phone gives a loud signal.

To view missed calls
- Press \( \text{\textendash} \) to open the call list.

Networks
Your phone switches automatically between GSM and 3G (UMTS) networks depending on availability.
Emergency calls
Your phone supports international emergency numbers, for example, 112 or 911. You can normally use these numbers to make emergency calls in any country, with or without the SIM card inserted, if you are within range of a network.

! In some countries, other emergency numbers may also be promoted. Your network operator may therefore have saved additional local emergency numbers on the SIM card.

To make an emergency call
• Enter 112 (the international emergency number) and press  🔄.

To view your local emergency numbers
1 Select Menu > Contacts.
2 Scroll to New contact and select Options > Special numbers > Emergency nos..

AT&T Video Share
You can share experiences while on a call with friends and family when they happen or save them to share later. When on a call, the person who initiates the Video Share session transmits the video. Only the person placing a Video Share call can save the Video Share session.

Types of Video Share calls
You can share information live or a prerecorded session.
• Live share – streams live information as the camera captures it.
• Pre-recorded – allows you to share a previously recorded Video Share session.

Before you begin
To use Video Share service, both parties on the call must have:
• Video share service activated on their account.
• 3G coverage.
• Video Share turned on.

To initiate a Video Share session
• While on a call, select Share.

To accept a Video Share session
• When you receive a Video Share call request, press Yes.

To end a Video Share session
• To continue the call, but end the Video Share session, press Stop.
To save Video Share sessions

• Select Menu > Settings > the Calls tab > Video Share > Auto record.

Call list
You can view information about recent calls.

To call a number from the call list
1 Press and scroll to a tab.
2 Scroll to a name or a number and press .

Address Book
You can save names, phone numbers and personal information in Contacts. Information can be saved in the phone memory or on the SIM card.

💡 You can synchronize your contacts using the Sony Ericsson PC Suite.

Default contacts
You can choose which contact information is shown as default. If Phone contacts is selected as default, your contacts show all the information saved in Contacts. If you select SIM contacts as default, your contacts show names and numbers saved on the SIM card.

To select default contacts
1 Select Menu > Contacts.
2 Scroll to New contact and select Options > Advanced > Default contacts.
3 Select an option.

Phone contacts
Phone contacts can contain names, phone numbers and personal information. They are saved in the phone memory.

To add a phone contact
1 Select Menu > Contacts.
2 Scroll to New contact and select Add.
3 Enter the name and select OK.
4 Scroll to New Number: and select Add.
5 Enter the number and select OK.
6 Select a number option.
7 Scroll between the tabs and add information to the fields.
8 Select Save.

Calling contacts

To call a contact
1 Select Menu > Contacts.
2 Scroll to a contact and press .

To go directly to the contacts list
• Press and hold down 2 – 9.
To call with Smart search

1. Press 0+ – 9 to enter a sequence of (at least two) digits. All entries which match the sequence of digits or corresponding letters are shown in a list.
2. Scroll to a contact or a phone number and press ℹ️.

To turn on or off Smart search

1. Select Menu > Settings > Calls > Smart search.
2. Select an option.

Editing contacts

To add information to a phone contact

1. Select Menu > Contacts.
2. Scroll to a contact and select Options > Edit contact.
3. Scroll between the tabs and select Add or Edit.
4. Select an option and an item to add or edit.
5. Select Save.

If your subscription supports Calling Line Identification (CLI) service, you can assign personal ringtones and pictures to contacts.

To copy names and numbers to phone contacts

1. Select Menu > Contacts.
2. Scroll to New Contact and select Options > Advanced > Copy from SIM.
3. Select an option.

To copy names and numbers to the SIM card

1. Select Menu > Contacts.
2. Scroll to New contact and select Options > Advanced > Copy to SIM.
3. Select an option.

⚠️ When you copy all contacts from your phone to the SIM card, all existing SIM card information is replaced.

To automatically save names and phone numbers on the SIM card

1. Select Menu > Contacts.
2. Scroll to New contact and select Options > Advanced > Auto save on SIM.
3. Select an option.

To save contacts on a memory card

1. Select Menu > Contacts.
2. Scroll to New contact and select Options > Advanced > Back up to m. card.
SIM contacts
SIM contacts can contain names and numbers only. They are saved on the SIM card.

To add a SIM contact
1. Select Menu > Contacts.
2. Scroll to New contact and select Add.
3. Enter the name and select OK.
4. Enter the number and select OK.
5. Select a number option and add more information, if available.
6. Select Save.

Deleting contacts

To delete all contacts
1. Select Menu > Contacts.
2. Scroll to New contact and select Options > Advanced > Delete all contacts.
3. Select an option.

Contact memory status
The number of contacts you can save in your phone or on the SIM card depends on available memory.

To view contact memory status
1. Select Menu > Contacts.
2. Scroll to New contact and select Options > Advanced > Memory status.

Myself
You can enter information about yourself and, for example, send your business card.

To enter Myself information
1. Select Menu > Contacts.
2. Scroll to Myself and select Open.
3. Scroll to an option and edit the information.
4. Select Save.

To add your own business card
1. Select Menu > Contacts.
2. Scroll to Myself and select Open.
3. Scroll to My contact info and select Add > Create new.
4. Scroll between the tabs and add information to the fields.
5. Enter the information and select Save.

Groups
You can create a group of phone numbers and email addresses from Phone contacts to send messages to. See Messaging on page 39. You can also use groups (with phone numbers) when you create accepted callers lists. See Accept calls on page 38.

To create a group of numbers and email addresses
1. Select Menu > Contacts.
2 Scroll to New contact and select Options > Groups.
3 Scroll to New group and select Add.
4 Enter a name for the group and select Cont.
5 Scroll to New and select Add.
6 For each contact phone number or email address you want to mark, scroll to it and select Mark.
7 Select Cont. > Done.

**Speed dial**

Speed dialing lets you select nine contacts that you can dial quickly from standby. The contacts can be saved in positions 1-9.

*To add contacts to speed dial numbers*

1 Select Menu > Contacts.
2 Scroll to New contact and select Options > Speed dial.
3 Scroll to a position number and select Add.
4 Select a contact.

*To speed dial*

- Enter the position number and press ‡.

---

**More calling features**

**Voicemail**

If your subscription includes an answering service, callers can leave a voicemail message when you cannot answer a call.

*To enter your voicemail number*

1 Select Menu > Messaging > Settings > the Message settings tab > Voicemail number.
2 Enter the number and select OK.

*To call your voicemail service*

- Press and hold down 1.

**Voice control**

By creating voice commands you can:

- Voice dial – call someone by saying their name
- Answer and reject calls when you use a handsfree

*To record a voice command using voice dialing*

1 From standby select Menu > Settings > the General tab > Voice control > Voice dialling > Activate.
2 Select Yes > New voice command and select a contact. If the contact has
more than one number, select the number to add the voice command to.

3 Record a voice command such as “John mobile.”

4 Follow the instructions that appear. Wait for the tone and say the command to record. The voice command is played back to you.

5 If the recording sounds OK, select Yes. If not, select No and repeat steps 3 and 4.

! Voice commands are saved in the phone memory only. They cannot be used in another phone.

To voice dial

1 Press and hold down a volume key.

2 Wait for the tone and say a recorded name, for example “John mobile.” The phone plays the name back to you and connects the call.

Forwarding calls

You can forward calls, for example, to an answering service.

To forward calls

1 Select Menu > Settings > Calls > Divert calls.

2 Select a call type and a forward option.

3 Select Activate.

4 Enter the number to forward calls to and select OK.

More than one call

You can handle more than one call at a time. For example, you can put an ongoing call on hold, while you make or answer a second call. You can also switch between the two calls. You cannot answer a third call without ending one of the first two calls.

Call waiting

You will hear a beep if you receive a second call while call waiting is active.

To activate call waiting

- Select Menu > Settings > Calls > Manage calls > Call waiting > Activate.

To make a second call

1 During the call, press 📞. This puts the ongoing call on hold.

2 Select Options > Add call.

3 Enter the number to call and press 📞.

To answer a second call

- During the call, press 📞. This puts the ongoing call on hold.
To reject a second call
• During the call, press (and continue with the ongoing call.

To end an ongoing call and answer a second call
• During the call, select Replace active call.

Handling two voice calls
You can have calls ongoing and on hold at the same time.

To switch between two calls
• During the call, press (.

To join two calls
• During the call, select Options > Join calls.

To connect two calls
• During the call, select Options > Transfer call. You are disconnected from both calls.

To end an ongoing call and return to the call on hold
• First press and then (.

Conference calls
With a conference call, you can have a joint conversation with up to five people.

To add a new participant
1 During the call, press (This puts the joined calls on hold.
2 Select Options > Add call.
3 Enter the number to call and press (.
4 Select Options > Join calls to add the new participant.
5 Repeat this task to add more participants.

To release a participant
1 Select Options > Release part.. 
2 Select the participant to release.

To have a private conversation
1 During the call, select Options > Talk to and select the participant to talk to.
2 To resume the conference call, select Options > Join calls.

Accept calls
You can choose to receive calls from certain phone numbers only.

To add numbers to the accepted callers list
1 Select Menu > Settings > Calls > Manage calls > Accept calls > Only from list.
2 Scroll to New and select Add.
Select a contact or Groups.

See Groups on page 35.

To accept all calls

- Select Menu > Settings > Calls > Manage calls > Accept calls > All callers.

Showing or hiding your phone number

You can decide to show or hide your phone number when you make a call.

To hide your phone number

1. Select Menu > Settings > Calls > Show/hide my no..
2. Select Hide number.

Text and multimedia messages

Messages can contain text, pictures, sound effects, animations, and melodies. You can also create and use templates for your messages.

When sending messages, the phone automatically selects the most suitable method (as a text or multimedia message) for sending the message.

Sending messages

You can send messages from your phone. The maximum size of a standard text message is 160 characters including spaces if no other items are added to the message. If you enter more than 160 characters, a second message is created. Your messages are sent as one concatenated message.

To create and send a message

1. Select Menu > Messaging > Write new > Message.
2. Enter text. To add items to the message, press , scroll and select an item.
3. Select Continue > Contacts look-up.
4 Select a recipient and select Send.

- If you send a message to a group, you will be charged for each member.

To copy and paste text in a message
1 When you write the message, select Options > Copy & paste.
2 Select Copy all or Mark & copy. Scroll to and mark text in the message.
3 Select Options > Copy & paste > Paste.

Receiving and saving messages
You are notified when you receive a message. Messages are automatically saved in the phone memory. When the phone memory is full, you can delete messages or save them on a memory card or on the SIM card.

To save an incoming message on a memory card
- Select Menu > Messaging > Settings > the Message settings tab > Save to > Memory card.

To save a message on the SIM card
1 Select Menu > Messaging > Messages and select a folder.
2 Scroll to a message and select Options > Save message.

To view a message from the inbox
1 Select Menu > Messaging > Inbox.

2 Scroll to the message and select View.

To call a number in a message
- When you view the message, scroll to the phone number and press 📞.

Templates
If you often use the same phrases and pictures in a message, you can save the message as a template.

To add a message template
1 Select Menu > Messaging > Templates > New template > Add.
2 Enter text. To add items to the message, press 📩, scroll 🔄 and select an item.
3 Select Save.
4 Enter a title and select Ok.

Message options
You can set some options, such as the Message alert and default storage location, to apply to all messages. You can set other options, such as the Delivery priority and Delivery time, for each message you send.
To set options for all messages
1 Select Menu > Messaging > the Message settings tab.
2 Select an option.

To set options for a specific message
1 When the message is ready and a recipient is selected, select Options > Advanced.
2 Scroll to an option and select Edit.

Conversations
You can choose whether to view your messages in Conversations or Inbox. A messaging conversation shows all messaging communication between you and one of your contacts.

To view messages in Conversations
• Select Menu > Messaging > Inbox > the Conversations tab.
• Select Menu > Messaging > Conversations and select a conversation.

To send a message from Conversations
1 Select Menu > Messaging > Conversations.
2 Select a conversation.
3 Write a message and select Send.

Voice messages
You can send and receive a sound recording as a voice message.

*The sender and recipient must have a subscription supporting multimedia messaging.*

To record and send a voice message
1 Select Menu > Messaging > Write new > Voice message.
2 Record the message and select Stop > Send > Contacts look-up.
3 Select a recipient and select Send.

Mobile Email
Check your email accounts, such as Yahoo!™ Mail, AT&T Yahoo!™, Windows™ Live Mail, AOL™ and AIM™ quickly and easily.

Before using Mobile Email
• Verify that your AT&T account supports a data plan.
• Have your email account information ready.

To use Mobile Email
1 Select Menu > Messaging > Mobile Email.
2 Select the provider you want to use. Follow the prompts to enter your username and password.
3 Select Next to log into your account.

To write a new email
1 From your Mobile Email inbox, select Options > Compose New.
2 Fill in each field.
3 Press Send.

To delete an email
1 From your Mobile Email inbox, select an email.
2 Select Options > Delete.

Menu names may change with different email providers.

To view message options
1 From your Mobile Email inbox, select an email.
2 Select Options and scroll to an option.

Menu names may change with different email providers.

Instant Messaging (IM)
Connect and log into the IM server to communicate online with your family and friends. If your subscription supports instant messaging and presence services, you can send and receive messages and see contact status when they are online.

To choose your IM settings
1 Select Menu > Messaging > IM.
2 Select IM community > Sign In.
3 Enter your account name and password to configure the account.
4 Select Sign In.

After signing into an IM community, its name replaces IM in the menu.

To use IM
1 Select Menu > Messaging.
2 Select your IM community > Sign In.
3 Enter your password, if needed.
4 Press Sign In.

To add a contact to the list
1 Select Menu > Messaging.
2 Select your IM community > Sign In.
3 Enter your password, if needed.
4 Press Sign In.
5 Select the Buddies tab > Options > Add buddy.
6 Enter the contact’s screen name.

The tab name varies depending on IM community chosen.

To send an IM
1 Select Menu > Messaging.
2 Select your IM community > Sign In.
3 Enter your password, if needed.
4 Press Sign In.
5 Select your IM community > the Buddies tab.
6 Select a buddy > Send IM.
7 Type your message and select Send.

To automatically sign in
1 Verify Save password: is on.
2 Select Menu > Messaging.
3 Select your IM community > Sign In.

Status
Show your status to your contacts only or show it to all users on the IM server.

To set the status
1 Select Menu > Messaging.
2 Select your IM community > My Status tab.
3 Choose Available and select Edit.
4 Select an option.

Save password
Prior to logging in, you can store the password for your community to avoid entering it at each sign on.

To save the password
1 Select Menu > Messaging.
2 Select your IM community > Sign In.
3 Select Save password:.

Auto Sign in
You can bypass the sign in screen when logging in to your IM community by turning on the phone.
Imaging

You can take photos and record video clips to view, save or send. You find saved photos and video clips in Media and in File manager.

Using the camera

To activate the camera
- Select Menu > Camera.

Viewfinder and camera keys

1. Zoom in or out
2. Take photos/Record video
3. Select still camera or video camera
4. Brightness
5. Self-timer
6. Night mode
7. Camera: Shoot mode
   Video: Video length
8. Camera key guide

To take a photo

1. Activate the camera and press the navigation key to scroll to 📷.
2. Press the center selection key to take a photo. The photo is automatically saved.

To record a video clip

1. Activate the camera and press the navigation key to scroll to 🎥.
2. Press the center selection key to start recording.
3. To stop recording, press the center selection key. The video clip is automatically saved.
To use zoom
• Press 📷 or 📷.

When taking a photo, zoom is available only in VGA picture size.

To adjust brightness
• Press the volume key up or down.

To view photos
1 Activate the camera and press the navigation key to scroll to 📷.
2 Select Options > View all photos
3 Press 📷 or 📷 to scroll to a photo.

To view video clips
1 Activate the camera and press the navigation key to scroll to 📷.
2 Select Options > View all clips.
3 Scroll to a video clip and press the center selection key.

More camera features

To change settings
• Activate the camera and select Options.

To view information about settings
• Scroll to a setting and select Info.

Photo fix
You can use Photo fix to improve photos. In a one-click operation, brightness, light and contrast are adjusted to give you the best possible photo. The improvements are saved as a copy of the photo. The original photo is not affected.

To improve a photo with Photo fix
1 Activate the camera and press the navigation key to scroll to 📷.
2 Make sure Review is set to On. Select Options > Review > On.
3 Take a photo.
4 During review, select Options > Photo fix.

Camera tips and tricks

Rule of thirds
Don’t place your subject in the middle of the frame. By placing it a third of the way in, you will achieve a better result.

Hold it steady
Avoid blurry pictures by holding the camera steady. Try to steady your hand by leaning it against a solid object.

Get closer
By getting as close as possible to your subject you won’t have to rely on the zoom. Try to fill your viewfinder with your subject.
Stay within the flash range
Pictures taken beyond the maximum flash range will be too dark. The maximum flash range is about four steps away.

Consider variety
Think different angles, move towards the object. Take some vertical pictures. Try different positions.

Use a plain background
A plain background will help to highlight your subject.

Keep your lens clean
Phones are used in all manner of weather and places and carried in pockets and bags. This results in the camera lens becoming dirty and covered with fingerprints. Use a soft cloth to clean the lens.

Viewing and tagging photos

To view photos in a slide show
1 Select Menu > Media > Camera media > Camera album.
2 Select a month.
3 Scroll to a photo and select View.
4 Select Options > Slide show.
5 Select a mood.

To tag photos
1 Select Menu > Media > Camera media > Camera album.
2 Select a month.
3 Scroll to a photo and select View.
4 Press and scroll to a tag.
5 Select Options > Tag this photo.
6 For each photo you want to tag, scroll to the photo and select Options > Tag this photo.

Photo tags
You can organize your photos with photo tags. You can create new tags, assign one or several tags to a photo, or remove a tag from a photo. Photos with the same tag are put together under Photo tags. For example, you can add tag "Vacation" to all your vacation photos, and view them all in Photo tags, under the tag "Vacation".

To create a new photo tag
1 Select Menu > Media > Camera media > Camera album.
2 Select a month.
3 Scroll to a photo and select View.
4 Press and select Options > New tag.
5 Enter a name and select OK.
6 Select an icon.
7 To tag the photo, select Options > Tag this photo.

To tag photos
1 Select Menu > Media > Camera media > Camera album.
2 Select a month.
3 Scroll to a photo and select View.
4 Press and scroll to a tag.
5 Select Options > Tag this photo.
6 For each photo you want to tag, scroll to the photo and select Options > Tag this photo.
**Using photos**
You can add a photo to a contact.

*To use photos*
1. Select **Menu > Media > Camera media > Camera album**.
2. Select a month.
3. Scroll to a photo and select **View**.
4. Select **Options > Use as**.
5. Select an option.

**Working with photos**
You can view, enhance and organize your photos and video clips on your computer by installing the *Adobe Photoshop Album Starter Edition*. It is available for download at www.sonyericsson.com/support.

Use Media Go™ to transfer content to and from your phone. For more information, see *Transferring content to and from a computer* on page 26.

**PhotoDJ™ and VideoDJ™**
You can edit photos and video clips.

*To edit and save a photo*
1. Select **Menu > Media > Photo > Camera album**.
2. Select a month.
3. Scroll to a photo and select **View**.
4. Select **Options > Edit in PhotoDJ™**.
5. Edit the photo.

*To edit and save a video clip*
1. Select **Menu > Tools & Apps > Tools > VideoDJ**.
2. Select **Add > Video clip** and scroll to a video clip.
3. Select **Edit** and choose an option.
4. Edit the video clip.
5. Select **Options > Save**.

*To trim a video clip*
1. Select **Menu > Tools & Apps > Tools > VideoDJ**.
2. Select **Add > Video clip** and scroll to a video clip.
3. Select **Edit > Trim**.
4. Select **OK > Set > Start** to set the starting point.
5. Select **Set > End** to set the ending point.
6. Select **Trim > Options > Save**.

**Printing photos**
You can print your photos by transferring them to a computer that is connected to a standard printer. For more information, see *Transferring content to and from a computer* on page 26. You can also print photos without a computer by connecting your
phone directly to a printer that accepts USB, Bluetooth, or Memory Stick Duo connections.

To print photos using a USB cable
1. Connect a USB cable to the phone.
2. Connect the USB cable to the printer.
3. Select Menu > Settings > the Connectivity tab > USB > USB mode.
4. Disconnect and reconnect the cable to the phone.
5. Select Print.
6. Select a month.
7. Scroll to a photo and select Options > Print.

💡 You should disconnect and re-connect the USB cable if there is a printer error.

To print photos via memory stick
1. Save the photos on your phone to M2 Memory Stick.
2. Insert the M2 Memory Stick into a Memory Stick Duo adaptor.
3. Insert the Memory Stick Duo adaptor into a printer that accepts Memory Stick Duo.

⚠️ You may have to purchase a M2 Memory Stick and a Memory Stick Duo adaptor separately.

💡 You can also print using a Bluetooth compatible printer that supports the Object Push Profile.

MEdia™ Net
You can browse the Internet by accessing MEdia Net.

To start browsing
1. Select 🌐.
2. Enter a Web address, a search phrase or the name of a bookmark.

To exit the browser
• Select Options > Exit browser.

Bookmarks
You can create and edit bookmarks as quick links to your favorite Web pages.

To create a bookmark
1. When you browse the Internet, select Options > Tools > Add Bookmark.
2. Enter a title and an address. Select Save.

To select a bookmark
1. Select 🌐.
2. Select Options > Go to > Bookmarks.
3. Scroll to a bookmark and select Go to.

History pages
You can view Web pages you have browsed.
To view history pages
• Select | Options > Go to > History.

More browser features

To use pan and zoom on a Web page
1 When you browse the Internet, press ⑤.
2 Use the navigation key to move the frame.
3 Press Zoom.
4 To switch back to pan, press ⑤.

To use pan and zoom, Smart-Fit must be turned off.

To turn on or off Smart-Fit Rendering™
1 Select Menu > Options > Advanced > Smart-Fit.
2 Select an option.

To make a call when you browse
• Press .

To send a link
1 When you browse the Internet, select Options > Tools > Send link.
2 Select a transfer method.

Make sure the receiving device supports the transfer method you select.

Internet keypad shortcuts
You can use the keypad to go directly to an Internet browser function.

<table>
<thead>
<tr>
<th>Key</th>
<th>Shortcut</th>
</tr>
</thead>
<tbody>
<tr>
<td>①</td>
<td>Bookmarks</td>
</tr>
<tr>
<td>② - ⑨</td>
<td>Enter text to Enter address, Search Internet or search in Bookmarks</td>
</tr>
<tr>
<td>⑤</td>
<td>Zoom</td>
</tr>
<tr>
<td>⑥</td>
<td>Pan &amp; zoom (when Smart-Fit is off)</td>
</tr>
</tbody>
</table>

To select Internet keypad shortcuts
1 Select ④.
2 Select Options > Advanced > Keypad mode > Shortcuts.

To make a call when you browse
• Press ⑥.

To save a picture from a Web page
1 When you browse the Internet, select Options > Tools > Save picture.
2 Select a picture.

To find text on a Web page
1 Select Options > Tools > Find on page.
2 Enter text and select Find.
Internet security and certificates

Your phone supports secure browsing. Certain Internet services, such as banking, require certificates in your phone. Your phone may already contain certificates when you buy it or you can download new certificates.

To view certificates in the phone

• Select Menu > Settings > General > Security > Certificates.

Synchronizing

You can synchronize your phone using a computer program.

For more information, go to www.sonyericsson.com/support to read the Synchronization Feature guide.

Synchronizing using a computer

You can use a USB cable or Bluetooth wireless technology to synchronize phone contacts, appointments, bookmarks, tasks and notes with a computer program such as Microsoft Outlook®.

Before synchronizing, you need to install the Sony Ericsson PC Suite.

Sony Ericsson PC Suite software is available for download at www.sonyericsson.com/support.

See Required operating systems on page 27.

To download Sony Ericsson PC Suite

1 Computer: In your Internet browser, go to www.sonyericsson.com/support.
2 Select a region and country.
3 Select Software downloads.
4 Select a phone from the list.
5 Select Read more and download under PC Suite.
6 Select Download now and save the file to your computer.

💡 Remember where you save the file.

To install Sony Ericsson PC Suite from the downloaded file
1 Locate the downloaded Sony Ericsson PC Suite file on the computer.
2 Double-click the file and follow the instructions.

To synchronize using the Sony Ericsson PC Suite
1 Computer: Start Sony Ericsson PC Suite from Start/Programs/Sony Ericsson/Sony Ericsson PC Suite.
2 Follow the instructions in the Sony Ericsson PC Suite for how to connect.
3 Phone: Select Phone mode.
4 Computer: When you are notified that the Sony Ericsson PC Suite has found your phone, you can start synchronizing.

💡 For usage details, see the Sony Ericsson PC Suite Help section once the software has been installed on your computer.

More features

Flight mode
In Flight mode the network and radio transceivers are turned off to prevent disturbance to sensitive equipment.

When the flight mode menu is activated you are asked to select a mode the next time you turn on your phone:

- Normal mode – full functionality
- Flight mode – limited functionality

To activate the flight mode menu
• Select Menu > Settings > General > Flight mode > Continue > Show at startup.

To select flight mode
1 When the flight mode menu is activated, turn off your phone.
2 Turn on your phone and select Flight mode.

Gesture control
When the phone is closed, you can mute incoming calls or snooze alarms with a hand gesture.

To use gesture control
• When a call comes in or the alarm rings, a light appears adjacent to the camera.
When the light appears, sweep your hand back and forth once in front of the camera lens to mute the call or snooze the alarm.

* The distance between your hand and the camera lens must be 0–3 inches (0–7 cm).

To turn on gesture control

- Select Menu > Settings > General > Gesture control > Turn on.

Alarms

You can set a sound or the radio as an alarm signal. The alarm sounds even if the phone is turned off. When the alarm sounds you can silence it or turn it off.

To set the alarm

1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Edit.
4. Enter a time and select OK > Save.

To set the recurring alarm

1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Edit.
4. Scroll to a day and select Mark.
5. To select another day, scroll to the day and select Mark.
6. Select Done > Save.

To set the alarm signal

1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Edit.
3. Scroll to the 🎶 tab.
5. Find and select an alarm signal. Select Save.

To silence the alarm

- When the alarm sounds, press any key.
- To repeat the alarm, select Snooze.

To turn off the alarm

- When the alarm sounds, press any key, then select Turn off.

To cancel the alarm

1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Turn off.

The alarm in silent mode

You can set the alarm not to sound when the phone is in silent mode.

To set an alarm to sound or not in silent mode

1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Edit.
3. Scroll to the 🎶 tab.
4. Scroll to Silent mode and select Edit.
5. Select an option.
**To set the snooze duration**
1. Select Menu > Tools & Apps > Alarms.
2. Scroll to an alarm and select Edit.
3. Scroll to Snooze duration and select Edit.
4. Select an option.

**Calendar**
- You can synchronise your calendar with a computer calendar, with a calendar on the Web or with a Microsoft® Exchange Server (Microsoft® Outlook®).
- You can synchronize your calendar with a Microsoft® Exchange Server (Microsoft® Outlook®).

**Appointments**
You can add new appointments or reuse existing appointments.

**To add an appointment**
1. Select Menu > Tools & Apps > Organizer > Calendar.
2. Select a date.
3. Scroll to New appointment and select Add.
4. Enter the information and confirm each entry.
5. Select Save.

**To view an appointment**
1. Select Menu > Tools & Apps > Organizer > Calendar.
2. Select a date.
3. Scroll to an appointment and select View.

**To edit an appointment**
1. Select Menu > Tools & Apps > Organizer > Calendar.
2. Select a date.
3. Scroll to an appointment and select View.
4. Select Options > Edit.
5. Edit the appointment and confirm each entry.
6. Select Save.

**To set when reminders should sound**
1. Select Menu > Tools & Apps > Organizer > Calendar.
2. Select a date.
3. Select Options > Advanced > Reminders.
4. Select an option.

!: A reminders option set in calendar affects a reminders option set in tasks.

**Notes**
You can make notes and save them.
You can also show a note in standby.
**To add a note**
1. Select Menu > Tools & Apps > Organizer > Notes.
2. Scroll to New note and select Add.
3. Write a note and select Save.

**To show a note in standby**
1. Select Menu > Tools & Apps > Organizer > Notes.
2. Scroll to a note and select Options > Show in standby.

**To hide a note from standby**
1. Select Menu > Tools & Apps > Organizer > Notes.
2. Scroll to the note shown in standby. This is marked with an icon. Select Options > Hide in standby.

**Tasks**
You can add new tasks or reuse existing tasks.

**To add a task**
1. Select Menu > Tools & Apps > Organizer > Tasks.
2. Select New task and select Add.
3. Select an option.
4. Enter details and confirm each entry.

**To set when reminders should sound**
1. Select Menu > Tools & Apps > Organizer > Tasks.
2. Scroll to a task and select Options > Reminders.
3. Select an option.

![A reminders option set in tasks affects a reminders option set in calendar.]

**Profiles**
You can change settings such as the ring volume and vibrating alert to suit different locations. You can reset all profiles to the phone’s original settings.

**To select a profile**
1. Select Menu > Settings > General > Profiles.
2. Select a profile.

**To view and edit a profile**
1. Select Menu > Settings > General > Profiles.
2. Scroll to a profile and select Options > View and edit.

![You cannot rename the Normal profile.]
**Time and date**

*To set the time*
1. Select Menu > Settings > General > Time & date > Time.
2. Enter the time and select Save.

*To set the date*
1. Select Menu > Settings > General > Time & date > Date.
2. Enter the date and select Save.

*To set the time zone*
1. Select Menu > Settings > General > Time & date > My time zone.
2. Select the time zone you are in.

! *If you select a city, My time zone also updates the time when daylight saving time changes.*

**Theme**

You can change the appearance of the screen through items such as colors and wallpaper. You can also create new themes and download them. For more information, go to www.sonyericsson.com/fun.

*To set a theme*
1. Select Menu > Settings > Display > Theme.
2. Scroll to a theme and select Set.

**Main menu layout**

You can change the layout of the icons in the main menu.

*To change the main menu layout*
1. Select Menu > Options > Main menu layout.
2. Select an option.

**Ringtones**

*To set a ringtone*
1. Select Menu > Settings > Sounds & alerts > Ringtone.
2. Find and select a ringtone.

*To set the ringtone volume*

- Use the side volume keys to raise or lower the volume.

*To turn off the ringtone*

- Press (and then press and hold down #.

! *The alarm signal is not affected.*

*To set the vibrating alert*
1. Select Menu > Settings > Sounds & alerts > Vibrating alert.
2. Select an option.
Screen orientation
You can change between landscape and portrait orientation, or select Auto rotate to have the orientation change when you rotate the phone.

To change screen orientation in the browser
1 Select 📱.
2 Select Options > View.
3 Select Landscape or Portrait.

To change screen orientation in Media
1 Select Menu > Media > Settings > Orientation.
2 Select an option.

Games
Your phone contains preloaded games. You can also download games. For more information, go to www.sonyericsson.com/fun. Help texts are available for most games.

To start a game
1 Select Menu > Media > Games.
2 Select a game.

To end a game
• Press 📱.

Applications
You can download and run Java applications. You can also view information or set different permissions.

To select a Java application
1 Select Menu > Tools & Apps > Applications.
2 Select an application.

Java application screen size
Some Java applications are designed for a specific screen size. For more information, contact the application vendor.

⚠️ The screen size of your phone is 240 x 320 pixels.

To set the screen size for a Java application
1 Select Menu > Tools & Apps > Applications.
2 Scroll to an application and select Options > Screen size.
3 Select an option.

To set a Java™ application as a wallpaper
1 Select Menu > Settings > Display.
2 Select Wallpaper > Application.
3 Select a Java application.

! You can only see the Java applications that have support for wallpaper.

**Locks**

**SIM card lock**
This lock only protects your subscription. Your phone will work with a new SIM card. If the lock is on, you have to enter a PIN (Personal Identity Number).

If you enter your PIN incorrectly three times in a row, the SIM card is blocked and you need to enter your PUK (Personal Unblocking Key). Your PIN and PUK are supplied by AT&T.

To unblock the SIM card
1 When PIN blocked appears, enter your PUK and select OK.
2 Enter a new four-to-eight-digit PIN and select OK.
3 Re-enter the new PIN and select OK.

To edit the PIN
1 Select Menu > Settings > General > Security > Locks > SIM protection > Change PIN.
2 Enter your PIN and select OK.
3 Enter a new four-to-eight-digit PIN and select OK.

4 Re-enter the new PIN and select OK.

! If Codes do not match appears, you entered the new PIN incorrectly. If Wrong PIN appears, followed by Old PIN:, you entered your old PIN incorrectly.

To use the SIM card lock
1 Select Menu > Settings > General > Security > Locks > SIM protection > Protection.
2 Select an option.
3 Enter your PIN and select OK.

**Phone lock**
You can stop unauthorized use of your phone. Change the phone lock code (0000) to any four-to-eight-digit personal code.

! It is important that you remember your new code. If you forget it, you have to take your phone to your local Sony Ericsson retailer.

To use the phone lock
1 Select Menu > Settings > General > Security > Locks > Phone protection > Protection.
2 Select an option.
3 Enter the phone lock code and select OK.
To unlock the phone

• Enter your code and select OK.

To change the phone lock code

1 Select Menu > Settings > General > Security > Locks > Phone protection > Change code.
2 Enter the old code and select OK.
3 Enter the new code and select OK.
4 Repeat the code and select OK.

Password Saver

You can save security codes, for example, for credit cards. You must set a passcode to open the Password Saver.

Checkword

The checkword confirms that you have entered the correct passcode. If the passcode is correct, the correct codes are shown. If the passcode is incorrect, the checkword and the codes shown are also incorrect.

To add a code

1 Select Menu > Tools & Apps > Organizer > Code memo.
2 Enter a passcode and select Continue.
3 Scroll to New code and select Add.
4 Enter a name associated with the code and select Continue.
5 Enter the code and select Done.

To change a passcode

1 Select Menu > Tools & Apps > Organizer > Code memo.
2 Enter your passcode and select Ok.
3 Select Options > Change passcode.
4 Enter your new passcode and select Ok.
5 Re-enter the new passcode and select Ok.

Forget your passcode?

If you forget your passcode, you must reset the Password Saver. This means that all entries in the Password Saver are deleted. The next time you enter the Password Saver, you must proceed as if you are opening it for the first time. See To open Password Saver for the first time on page 58.
IMEI number
Keep a copy of your IMEI (International Mobile Equipment Identity) number in case your phone is stolen.

To view your IMEI number
• Press ⑧⑧⑧, 0⑧, ⑧⑧, ⑧⑧, ⑧⑧。

Using the flip
When the phone is closed, you can use the media player keys on the flip to control your Walkman™ player or radio. You can lock these keys to avoid accidental touch.

To unlock the media player keys
• Slide the key lock switch away from ⑧⑧.

To lock the media player keys
• Slide the key lock switch towards ⑧⑧.

Troubleshooting
Some problems will require you to call AT&T.

For more support go to www.sonyericsson.com/support.

Common questions
I have problems with memory capacity or the phone is working slowly
Restart your phone every day to free memory or do a Master reset.

Master reset
If you select Reset settings, the changes that you have made to settings will be deleted.
If you select Reset all, your settings and content, such as contacts, messages, pictures, sounds and downloaded games, will be deleted. You may also lose content that was in the phone at purchase.

To reset the phone
1 Select Menu > Settings > General > Master reset.
2 Select an option.
3 Follow the instructions that appear.
I cannot charge the phone or battery capacity is low
The charger is not properly connected or the battery connection is poor. Remove the battery and clean the connectors.

The battery is worn out and needs to be replaced. See Charging the battery on page 7.

No battery icon appears when I start charging the phone
It may take a few minutes before the battery icon appears on the screen.

Some menu options appear in gray
A service is not activated. Contact AT&T.

I cannot use Internet-based services
Your subscription does not include data capability. Settings are missing or incorrect.

You can download settings using the setup wizard or by going to www.sonyericsson.com/support.

To download settings
1 Select Menu > Settings > User help > Settings download.
2 Follow the instructions that appear.

To enter a service center number
1 Select Menu > Settings > Connectivity > Message settings > Text message and scroll to Service centre. The number is shown if it is saved on the SIM card.
2 If there is no number shown, select Edit.
3 Scroll to New ServiceCentre and select Add.

I cannot send messages from my phone
Most messages require a service center number to send them. The number is supplied by AT&T and is usually saved on the SIM card. If the number to your service center is not saved on your SIM card, you must enter the number yourself. To send most picture messages, you must set an MMS profile and the address of your message server.

To send most multimedia messages, you must set an MMS profile and the address of your message server. If no MMS profile or message server exists, you may be able to obtain the settings automatically from AT&T or at www.sonyericsson.com/support.
4 Enter the number, including the international “+” sign and country code.
5 Select Save.

To select an MMS profile
1 Select Menu > Settings > Connectivity > Message settings > Picture message.
2 Select an existing profile or create a new one.

To set the message server address
1 Select Menu > Settings > Connectivity > Message settings > Picture message.
2 Scroll to a profile and select Options > Edit.
3 Scroll to Message server and select Edit.
4 Enter the address and select OK > Save.

The phone does not ring or rings too softly
Make sure that Silent mode has not been set to On. See To turn off the ringtone on page 55.

Check the ringtone volume. See To set the ringtone volume on page 55.

Check the profile. See To select a profile on page 54.

Check the forward call options. See To forward calls on page 37.

The phone cannot be detected by other devices using Bluetooth wireless technology
You have not turned the Bluetooth function on. Make sure that the visibility is set to Show phone. See To turn on the Bluetooth function on page 28.

I cannot synchronize or transfer content between my phone and my computer, when using a USB cable.
The cable or software has not been properly installed. Go to www.sonyericsson.com/support to read Feature guides which contain detailed installation instructions and troubleshooting sections.

I have forgotten my Password Saver passcode
If you forget your passcode, you must reset the Password Saver. This means that all entries in the Password Saver are deleted. The next time you enter the Password Saver, you must proceed as if you are opening it for the first time.

To reset Password Saver
1 Select Menu > Tools & Apps > Organizer > Code memo.
2 Enter an incorrect passcode three times.
3 Reset code memo and delete all items? appears.
4 Select Yes.

Where can I find the regulatory information such as my IMEI number if I cannot turn on my phone?

Error messages

**Insert SIM**
There is no SIM card in your phone or you may have inserted it incorrectly.

See *To insert the SIM card* on page 6.
The SIM card connectors need cleaning. If the card is damaged, contact AT&T.

**Insert correct SIM card**
Your phone is set to work only with certain SIM cards. Check if you are using the correct operator SIM card.

Wrong PIN/Wrong PIN2
You have entered your PIN or PIN2 incorrectly.
Enter the correct PIN or PIN2 and select Yes.

PIN blocked/PIN2 blocked
You have entered your PIN or PIN2 code incorrectly three times in a row.
To unblock, see *SIM card lock* on page 57.

Codes do not match
Codes that you have entered do not match. When you want to change a security code, for example your PIN, you have to confirm the new code. See *SIM card lock* on page 57.

**No netw. coverage**
Your phone is in flight mode. See *Flight mode* on page 51.
Your phone is not receiving any network signal, or the received signal is too weak. Contact AT&T and make sure that the network has coverage where you are.
The SIM card is not working properly. Insert your SIM card in another phone. If this works, it is probably your phone
that is causing the problem. Please contact the nearest Sony Ericsson service location.

**Emerg. calls only**
You are within range of a network, but you are not allowed to use it. However, in an emergency, some network operators allow you to call the international emergency number 112. See *Emergency calls* on page 32.

**PUK blocked. Contact operator.**
You entered your personal unblocking key code (PUK) incorrectly 10 times in a row.

---

**Hearing Aid Compatibility**

Your phone is designed for Hearing Aid Compatibility (HAC) and uses settings to optimize its use with hearing aids.

**Hearing Aid Settings**
You can choose the setting in the phone to match the setting in your hearing aid before making or receiving calls.

*To select a phone setting for HAC*

- Select *Menu > Settings > General > Accessibility > Hearing aid* and choose an option:
  - **On** – Use when your hearing aid is set to T-coil mode.
  - **Off** – Use when your hearing aid is set to Microphone mode.

**Hearing Aid Compatibility and New Technologies**
This phone has been tested and rated for use with hearing aids for some of the wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested yet for use with hearing aids. It is important to
try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Consult your service provider about its return and exchange policies and for information on hearing aid compatibility.

**Hearing Aid Compatibility Rating**

This model handset was designed to comply with the requirements set forth in Section 20.19 of the Federal Communication Commission's (FCC) rules governing hearing aid compatibility (HAC), for the reduction of RF interference and magnetic coupling (T-coil) to hearing aids. The Microphone (M) rating and T-coil (T) rating is defined and labeled on the handset box. Devices meeting HAC compliance must have a minimum M3 and/or T3 rating or above as defined by the FCC in accordance with the latest ANSI Standard C63.19. The (M) rating refers to lower RF emission levels of the handset. The (T) rating refers to the magnetic coupling between the handset and the T-coil compatible hearing aid. Some hearing aids are also provided an (M) rating, and are more immune than others to interference. To determine the (M) rating of your hearing aid, please contact your hearing health professional. More information about digital wireless devices and hearing aid compatibility can be found at [www.sonyericsson-snc.com](http://www.sonyericsson-snc.com).
Important information

Sony Ericsson Consumer Web site

At www.sonyericsson.com/support there is a support section where help and tips are only a few clicks away. Here you will find the latest computer software updates and tips on how to use your product more efficiently.

Service and support

You have access to a portfolio of exclusive service advantages such as:

- Global and local Web sites providing support.
- A global network of call centers.
- An extensive network of Sony Ericsson service partners.
- A warranty period. Learn more about the warranty conditions in the Important information.

At www.sonyericsson.com/support, you can find the latest support tools and information. For operator-specific services and features, please contact your network operator.

You can also contact our call centers. If your country/region is not represented in the list below, please contact your local dealer. (Calls are charged according to national rates, including local taxes, unless the phone number is a toll-free number.)

Guidelines for Safe and Efficient Use

Please follow these guidelines. Failure to do so might entail a potential health risk or product malfunction. If in doubt as to its proper function, have the product checked by a certified service partner before charging or using it.

Recommendations for care and safe use of our products

- Handle with care and keep in a clean and dust-free place.
- **Warning!** May explode if disposed of in fire.
- Do not expose to liquid or moisture or excess humidity.
- For optimum performance, the product should not be operated in temperatures below +14°F(-10°C) or above +113°F(+45°C). Do not expose the battery to temperatures above +140°F(+60°C).
- Do not expose to flames or lit tobacco products.
- Do not drop, throw or try to bend the product.
- Do not paint or attempt to disassemble or modify the product. Only Sony Ericsson authorized personnel should perform service.
- Consult with authorized medical staff and the instructions of the medical device manufacturer before using the product near pacemakers or other medical devices or equipment.
- Discontinue use of electronic devices, or disable the radio transmitting functionality of the device, where required or requested to do so.
- Do not use where a potentially explosive atmosphere exists.
• Do not place the product, or install wireless equipment, in the area above an air bag in a car.
• **Caution:** Cracked or broken displays may create sharp edges or splinters that could be harmful upon contact.
• Do not use the Bluetooth Headset in positions where it is uncomfortable or will be subject to pressure.

**Children**

**Warning!** Keep out of the reach of children. Do not allow children to play with phones or accessories. They could hurt themselves or others. Products may contain small parts that could become detached and create a choking hazard.

**Power supply (Charger)**

Connect the charger to power sources as marked on the product. Do not use outdoors or in damp areas. Do not alter or subject the cord to damage or stress. Unplug the unit before cleaning it. Never alter the plug. If it does not fit into the outlet, have a proper outlet installed by an electrician. When a power supply is connected there is a small drain of power. To avoid this small energy waste, disconnect the power supply when the product is fully charged. Use of charging devices that are not Sony Ericsson branded may pose increased safety risks.

**Battery**

New or idle batteries can have short-term reduced capacity. Fully charge the battery before initial use. Use for the intended purpose only. Charge the battery in temperatures between +41°F(+5°C) and +113°F(+45°C). Do not put the battery into your mouth. Do not let the battery contacts touch another metal object. Turn off the product before removing the battery. Performance depends on temperatures, signal strength, usage patterns, features selected and voice or data transmissions. Only Sony Ericsson service partners should remove or replace built-in batteries. Use of batteries that are not Sony Ericsson branded may pose increased safety risks. Replace the battery only with another Sony Ericsson battery that has been qualified with the product per the standard IEEE-1725. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard.

**Personal medical devices**

Mobile phones may affect implanted medical equipment. Reduce risk of interference by keeping a minimum distance of 6 inches(15 cm) between the phone and the device. Use the phone at your right ear. Do not carry the phone in your breast pocket. Turn off the phone if you suspect interference. For all medical devices, consult a physician and the manufacturer.

**Driving**

Some vehicle manufacturers forbid the use of phones in their vehicles unless a handsfree kit with an external antenna supports the installation. Check with the vehicle manufacturer’s representative to be sure that the phone or Bluetooth handsfree will not affect the electronic systems in the vehicle. Full attention should be given to driving at all times and local laws and regulations restricting the use of wireless devices while driving must be observed.

**GPS/Location based functions**

Some products provide GPS/Location based functions. Location determining functionality is provided “As is” and “With all faults”. Sony Ericsson does not make any representation or warranty as to the accuracy of such location information. Use of location-based information by the device may not be uninterrupted or error free and may
additionally be dependent on network service availability. Please note that functionality may be reduced or prevented in certain environments such as building interiors or areas adjacent to buildings. Caution: Do not use GPS functionality in a manner which causes distraction from driving.

Emergency calls
Calls cannot be guaranteed under all conditions. Never rely solely upon mobile phones for essential communication. Calls may not be possible in all areas, on all networks, or when certain network services and/or phone features are used.

Antenna
Use of antenna devices not marketed by Sony Ericsson could damage the phone, reduce performance, and produce SAR levels above the established limits. Do not cover the antenna with your hand as this affects call quality, power levels and can shorten talk and standby times.

Radio Frequency (RF) exposure and Specific Absorption Rate (SAR)
When the phone or Bluetooth handsfree is turned on, it emits low levels of radio frequency energy. International safety guidelines have been developed through periodic and thorough evaluation of scientific studies. These guidelines establish permitted levels of radio wave exposure. The guidelines include a safety margin designed to assure the safety of all persons and to account for any variations in measurements.
Specific Absorption Rate (SAR) is used to measure radio frequency energy absorbed by the body when using a mobile phone. The SAR value is determined at the highest certified power level in laboratory conditions, but because the phone is designed to use the minimum power necessary to access the chosen network, the actual SAR level can be well below this value. There is no proof of difference in safety based on difference in SAR value.
Products with radio transmitters sold in the US must be certified by the Federal Communications Commission (FCC). When required, tests are performed when the phone is placed at the ear and when worn on the body. For body-worn operation, the phone has been tested when positioned a minimum of 15 mm from the body without any metal parts in the vicinity of the phone or when properly used with an appropriate Sony Ericsson accessory and worn on the body.
For more information about SAR and radio frequency exposure, go to: www.sonyericsson.com/health.

Flight mode
Bluetooth and WLAN functionality, if available in the device, can be enabled in Flight mode but may be prohibited onboard aircraft or in other areas where radio transmissions are prohibited. In such environments, please seek proper authorization before enabling Bluetooth or WLAN functionality even in Flight mode.

Malware
Malware (short for malicious software) is software that can harm the phone or other computers. Malware or harmful applications can include viruses, worms, spyware, and other unwanted programs. While the device does employ security measures to resist such efforts, Sony Ericsson does not warrant or represent that the device will be impervious to the introduction of malware. You can however reduce the risk of malware attacks by using care when downloading content or accepting applications, refraining from opening or responding to messages from unknown sources, using trustworthy services to access the Internet, and only downloading content to the phone from known, reliable sources.
Accessories
Use only Sony Ericsson branded original accessories and certified service partners. Sony Ericsson does not test third-party accessories. Accessories may influence RF exposure, radio performance, loudness, electric safety and other areas. Third-party accessories and parts may pose a risk to your health or safety or decrease performance.

Accessible Solutions/Special Needs
In the US, compatible Sony Ericsson phones may offer compatibility with TTY terminals (with use of necessary accessory). For more information call the Sony Ericsson Special Needs Center on 877 878 1996 (TTY) or 877 207 2056 (voice), or go to www.sonyericsson-snc.com.

Disposal of old electrical and electronic equipment
Electronic equipment and batteries should not be included as household waste but should be left at an appropriate collection point for recycling. This helps prevent potential negative consequences for the environment and human health. Check local regulations by contacting your local city office, your household waste disposal service, the shop where you purchased the product or calling a Sony Ericsson call center.

Disposing of the battery
Check local regulations or call a Sony Ericsson call center for information. Never use municipal waste.

Memory card
If the product comes complete with a removable memory card, it is generally compatible with the handset purchased but may not be compatible with other devices or the capabilities of their memory cards. Check other devices for compatibility before purchase or use. If the product is equipped with a memory card reader, check memory card compatibility before purchase or use.
Memory cards are generally formatted prior to shipping. To reformat the memory card, use a compatible device. Do not use the standard operating system format when formatting the memory card on a PC. For details, refer to the operating instructions of the device or contact customer support.

Warning!
If the device requires an adapter for insertion into the handset or another device, do not insert the card directly without the required adapter.

Precautions on memory card use
- Do not expose the memory card to moisture.
- Do not touch terminal connections with your hand or any metal object.
- Do not strike, bend, or drop the memory card.
- Do not attempt to disassemble or modify the memory card.
- Do not use or store the memory card in humid or corrosive locations or in excessive heat such as a closed car in summer, in direct sunlight or near a heater, etc.
- Do not press or bend the end of the memory card adapter with excessive force.
- Do not let dirt, dust, or foreign objects get into the insert port of any memory card adapter.
- Check you have inserted the memory card correctly.
- Insert the memory card as far as it will go into any memory card adapter needed. The memory card may not operate properly unless fully inserted.
- We recommend that you make a backup copy of important data. We are not responsible for any
loss or damage to content you store on the memory card.

- Recorded data may be damaged or lost when you remove the memory card or memory card adapter, turn off the power while formatting, reading or writing data, or use the memory card in locations subject to static electricity or high electrical field emissions.

Protection of personal information

Erase personal data before disposing of the product. To delete data, perform a master reset. Deleting data from the phone memory does not ensure that it cannot be recovered. Sony Ericsson does not warrant against recovery of information and does not assume responsibility for disclosure of any information even after a master reset.

Loudness warning!

Avoid volume levels that may be harmful to your hearing.

End User License Agreement

Software delivered with this device and its media is owned by Sony Ericsson Mobile Communications AB, and/or its affiliated companies and its suppliers and licensors.

Sony Ericsson grants you a non-exclusive limited license to use the Software solely in conjunction with the Device on which it is installed or delivered. Ownership of the Software is not sold, transferred or otherwise conveyed.

Do not use any means to discover the source code or any component of the Software, reproduce and distribute the Software, or modify the Software. You are entitled to transfer rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided the third party agrees in writing to be bound by the terms of this License.

This license exists throughout the useful life of this Device. It can be terminated by transferring your rights to the Device to a third party in writing. Failure to comply with any of these terms and conditions will terminate the license immediately. Sony Ericsson and its third party suppliers and licensors retain all rights, title and interest in and to the Software. To the extent that the Software contains material or code of a third party, such third parties shall be beneficiaries of these terms.

This license is governed by the laws of Sweden. When applicable, the foregoing applies to statutory consumer rights.

In the event Software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the Software.

Limited Warranty

Sony Ericsson Mobile Communications AB, SE-221 88 Lund, Sweden, (Sony Ericsson) or its local affiliated company, provides this Limited Warranty for your phone, original accessory delivered with your phone, and/or your mobile computing product (hereinafter referred to as “Product”).

Should your Product need warranty service, please return it to the dealer from whom it was purchased, or contact your local Sony Ericsson Call Center (national rates may apply) or visit www.sonyericsson.com to get further information.

Our warranty

Subject to the conditions of this Limited Warranty, Sony Ericsson warrants this Product to be free from defects in design, material and workmanship at the time of its original purchase by a consumer. This Limited Warranty will last for a period of one (1) year as from the original date of purchase of the Product.
What we will do

If, during the warranty period, this Product fails to operate under normal use and service, due to defects in design, materials or workmanship, Sony Ericsson authorized distributors or service partners, in the country/region* where you purchased the Product, will, at their option, either repair or replace the Product in accordance with the terms and conditions stipulated herein.

Sony Ericsson and its service partners reserve the right to charge a handling fee if a returned Product is found not to be under warranty according to the conditions below.

Please note that some of your personal settings, downloads and other information may be lost when your Sony Ericsson Product is repaired or replaced. At present, Sony Ericsson may be prevented by applicable law, other regulation or technical restrictions from making a backup copy of certain downloads. Sony Ericsson does not take any responsibility for any lost information of any kind and will not reimburse you for any such loss. You should always make backup copies of all the information stored on your Sony Ericsson Product such as downloads, calendar and contacts before handing in your Sony Ericsson Product for repair or replacement.

Conditions

1. This Limited Warranty is valid only if the original proof of purchase for this Product issued by a Sony Ericsson authorized dealer specifying the date of purchase and serial number**, is presented with the Product to be repaired or replaced. Sony Ericsson reserves the right to refuse warranty service if this information has been removed or changed after the original purchase of the Product from the dealer.

2. If Sony Ericsson repairs or replaces the Product, the repair for the defect concerned, or the replaced Product shall be warranted for the remaining time of the original warranty period or for ninety (90) days from the date of repair, whichever is longer. Repair or replacement may involve the use of functionally equivalent reconditioned units. Replaced parts or components will become the property of Sony Ericsson.

3. This warranty does not cover any failure of the Product due to normal wear and tear, or due to misuse, including but not limited to use in other than the normal and customary manner, in accordance with the Sony Ericsson instructions for use and maintenance of the Product. Nor does this warranty cover any failure of the Product due to accident, software or hardware modification or adjustment, acts of God or damage resulting from liquid.

4. Since the cellular system on which the Product is to operate is provided by a carrier independent from Sony Ericsson, Sony Ericsson will not be responsible for the operation, availability, coverage, services or range of that system.

5. This warranty does not cover Product failures caused by installations, modifications, or repair or opening of the Product performed by a non-Sony Ericsson authorized person.
6. The warranty does not cover Product failures which have been caused by use of accessories or other peripheral devices which are not Sony Ericsson branded original accessories intended for use with the Product.
7. Tampering with any of the seals on the Product will void the warranty.
8. THERE ARE NO EXPRESS WARRANTIES, WHETHER WRITTEN OR ORAL, OTHER THAN THIS PRINTED LIMITED WARRANTY. ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY. IN NO EVENT SHALL SONY ERICSSON OR ITS LICENSORS BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY NATURE WHATSOEVER, INCLUDING BUT NOT LIMITED TO LOST PROFITS OR COMMERCIAL LOSS TO THE FULL EXTENT THOSE DAMAGES CAN BE DISCLAIMED BY LAW.

Some countries/states do not allow the exclusion or limitation of incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.
The warranty provided does not affect the consumer’s statutory rights under applicable legislation in force, nor the consumer’s rights against the dealer arising from their sales / purchase contract.

*Geographical scope of the warranty
If you have purchased your Product in a country member of the European Economic Area (EEA) or in Switzerland or the Republic of Turkey, and such Product was intended for sale in the EEA or in Switzerland or in Turkey, you can have your Product serviced in any EEA country or in Switzerland or in Turkey, under the warranty conditions prevailing in the country in which you require servicing, provided that an identical Product is sold in such country by an authorised Sony Ericsson distributor. To find out if your Product is sold in the country you are in, please call the local Sony Ericsson Contact Center.
Please observe that certain services may not be available outside the country of original purchase, for example, due to the fact that your Product may have an interior or exterior which is different from equivalent models sold in other countries. Please note in addition that it may sometimes not be possible to repair SIM-locked Products.
** In some countries/regions additional information (such as a valid warranty card) may be requested.
