

05/01/2021 IMTC Rate/Country/Mobile codes (Mobile codes are subject to change)

International Mobile Termination Charge, or IMTC, is an additional per-minute charge that is applied to all international calls originating in the United States and terminating in certain countries to (1) wireless devices; and (2) ranges of fixed or wireless telephone numbers which the foreign telecommunications company designates to be for special services.

Because many foreign telecommunications companies impose extra fees on AT&T to complete these calls, AT&T charges the IMTC, in addition to all other applicable charges. The IMTC charge amount varies by country and changes from time to time. Be sure to check codes and rates periodically for current information.

Note: Countries not listed below do not carry an international mobile termination rate. All countries are subject to change.

The countries listed below are in alphabetical order with the exception of Mexico. The entry for Mexico is very large and is included after all other countries.

Mobile Code Example:

A call placed to France -- Country Code 33 - terminates on a mobile service if the dialed stream of numbers

begins with 33-6, regardless of the digits dialed that follow the 336 sequence.
