AT&T Internet
Wi-Fi® Gateway

self-installation guide

Reminder:
- Your Wi-Fi Gateway does not contain a battery backup.
- Battery backup is available for purchase from third-party manufacturers and retailers to keep you connected in the event of a power failure. Visit att.com/batterybackup for more information.

Get started

Approximate installation time: 30 minutes

Before you begin:

1. Check your service activation date.
   Do not attempt to install your service until 2pm or later on the date provided to you by AT&T. This date is also located on your packing slip.

2. Do you have a monitored home security system or health alarm?
   If either of these apply to you, you will need an AT&T technician to install your service. Call 800.288.2020 to schedule an appointment. Additional charges will apply for professional installation services from an AT&T service technician.

In the box:

- Wi-Fi Gateway
- Yellow Ethernet cable
- Green data cable
- Power cord (2 parts)
- Packing slip
- 911 Acknowledgment form
- Terms of Service
- AT&T Phone User Guide
- AT&T Internet User Guide
- 911 stickers

Also needed:

- Your 4-digit passcode. You received a separate letter confirming the 4-digit passcode you designated when placing your order.

Images are not to scale.
1. **Set up**  
   **Approximate time:** 10 minutes

   A. Connect the green data cable from the Wi-Fi Gateway’s DSL Broadband port to your wall jack.

   B. Connect the yellow Ethernet cable from one of the Wi-Fi Gateway’s Ethernet ports to your computer.

   C. Plug one end of your phone cable into the Wi-Fi Gateway’s Phone Lines 1 & 2 port and the other end into a standard phone or cordless base station.

   D. Plug the power cord into the Wi-Fi Gateway and an electrical outlet.

Below is a completed setup. Your connections may vary.

2. **Power up**  
   **Approximate time:** 1-5 minutes

   - Your Wi-Fi Gateway is now powering up. Wait up to five minutes for the Broadband and Service indicator lights to turn solid green.

   ![Images are not to scale.](wall-jack.png)

   - During this time, do not unplug the green data cable, as this can permanently damage the Wi-Fi Gateway and significantly delay your Service Activation.

   ![Images are not to scale.](wireless-network.png)

   - If the Broadband and Service lights do not turn solid green or continue to blink after 5 minutes, see “Having Trouble?” on the back of this guide.

3. **Registration & Activation**  
   **Approximate time:** 5 minutes

   Customers who have already completed the online registration:

   - Activation of your high-speed Internet and voice services will be completed automatically.
   - The service activation may take a few minutes to complete.
   - Be sure to open a browser, go to a Web site, and check that you can access it.

   ![Images are not to scale.](wi-fi-network.png)

   ![Images are not to scale.](power-cord.png)

   - Be sure to test that you can make and receive calls from the phone connected to the Wi-Fi Gateway to ensure it is working.

   ![Images are not to scale.](green-data-cable.png)

   ![Images are not to scale.](yellow-ethernet-cable.png)

   ![Images are not to scale.](gray-phone-cable.png)

   ![Images are not to scale.](power-cord.png)

   ![Images are not to scale.](wall-jack.png)

   Customers who have NOT completed the online registration:

   - Open your Internet browser (e.g. Internet Explorer, Safari, etc.).
   - The online registration process will start automatically. If it doesn’t, enter att.net/uverse into your address bar.
   - Enter your Account Number (if requested) and passcode.

   ![Images are not to scale.](wi-fi-network.png)

   ![Images are not to scale.](power-cord.png)

   - Follow the online instructions to complete your registration and activate your Internet and voice services.
   - Upon successful registration, you will see the following:

   **Congratulations, Your AT&T services are now activated and ready to use!**

   ![Images are not to scale.](wi-fi-network.png)

   ![Images are not to scale.](power-cord.png)

   - Be sure to test that you can make and receive calls from the phone connected to the Wi-Fi Gateway to ensure it is working.

4. **Go Wi-Fi**  
   **Approximate time:** 10 minutes

   Write down the Wi-Fi Network Name (SSID) and Wi-Fi Password (Wireless Network Key) to configure additional Wi-Fi devices. This information is on the side of your Wi-Fi Gateway. The Wi-Fi Network Name consists of “ATT” plus the last seven characters of the Wi-Fi Gateway’s serial number. Be sure to record this information in the form below.

   **Now configure your Wi-Fi network:**

   - Go to your computer’s “Wireless Network Settings” and refresh the network list.
   - Select your Wi-Fi Network Name (SSID) from the list. You may need to scroll through the list to find your Wi-Fi Network Name.
   - Enter the 12-character Wi-Fi Password (Wireless Network Key) in the Password field to connect to your network.

   **Congratulations! You should now be connected to the Internet via Wi-Fi.**
Set up voicemail from your home phone

Voicemail incorporates the latest technology to save you time and money, no matter where you are or how you communicate.

To set up your voicemail from your home phone:
1. Dial *98 (or dial your home phone number).
2. Follow the prompts to set up your mailbox.
3. After creating your PIN, be sure to set up your authentication code. This will allow you to reset your PIN over the phone if you forget it.

After you have set up your voice mailbox, visit att.com/vmviewer for the option of automatic delivery of your voicemail messages to your qualifying Wi-Fi device or computer.

By downloading the Voicemail Viewer App, you can check your voicemail messages visually, choosing the order in which you listen to them or even reading your messages as Voicemail to Text.

Manage your phone and voicemail features

To manage phone features online:
1. Log in to your online account at att.com/myatt
2. Click on Home Phone
3. Click on Manage Features

To manage voicemail features online:
1. Log in to your online account at att.com/myatt
2. Click on Home Phone
3. Click on Check Voicemail
4. Click on Voicemail Settings

For more information on managing phone features or voicemail settings, go to att.com/uvfeatures.

Having trouble?

What is your service activation date?
Do not attempt to install your service until 2pm or later on your service activation date. You can find this date on your packing slip.

Still having problems? Many issues can be resolved with these simple steps:

- Check your connections. Check all cables and cords to ensure they are connected properly and securely.
- Power down, power up. Unplug the power cord from the back of the Wi-Fi Gateway. Leave the Wi-Fi Gateway unplugged for 15 seconds and plug it back in. You may need to wait up to two minutes for blinking indicator lights to turn solid green.

Additional information

Test your Internet connection speed
Our speed test takes less than a minute to perform two key measurements (Download and Upload) to help you determine if you should take steps to improve the performance of your online experience. Visit att.com/speedtest.

Manage your account:
Available 24/7, download the myATT app at att.com/myattapp from your mobile device.

Repair center:
