

# AT&T Secure Family™

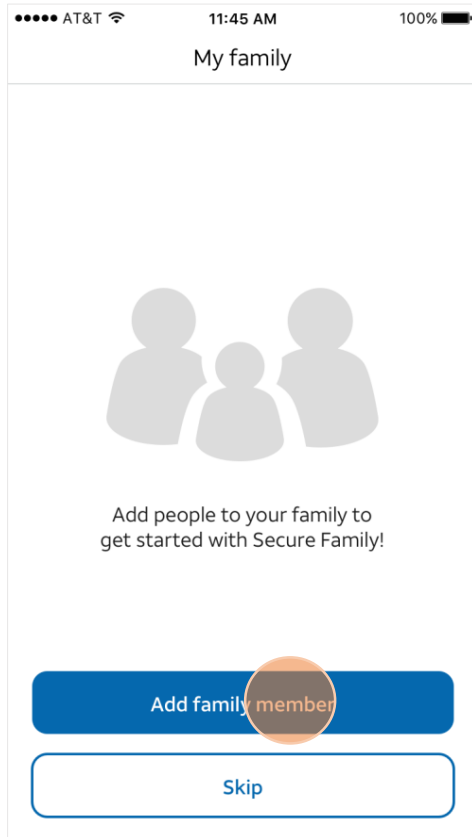

## Adding Family Members

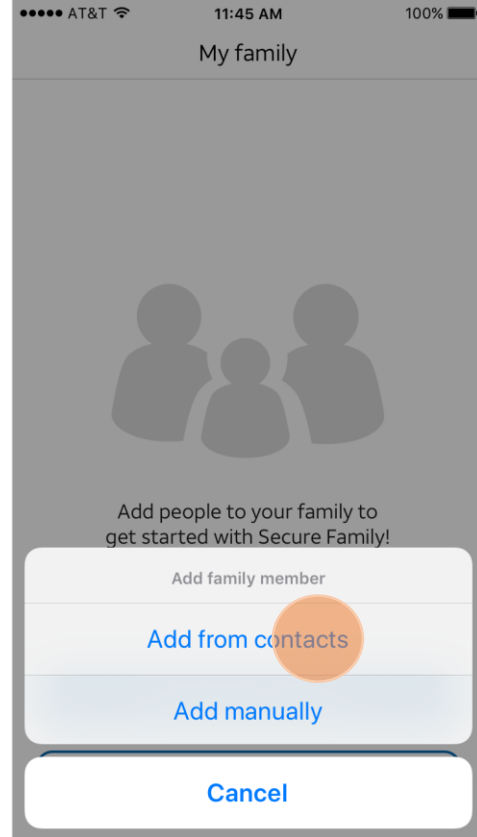

# Add Lines – From Your Contacts

You can add lines to monitor by tapping Set up Family in the sign up flow or by navigating to Settings > My Family

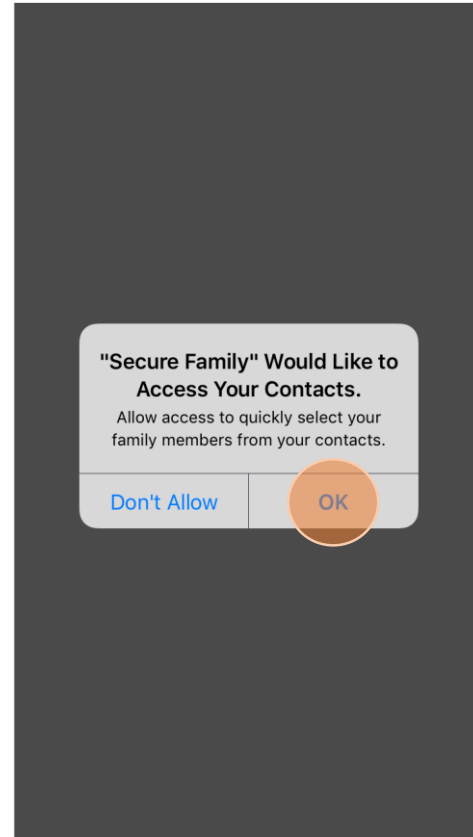

**Note: These steps apply to Secure Family customers who are AT&T PREPAID or customers of other US Wireless Providers**

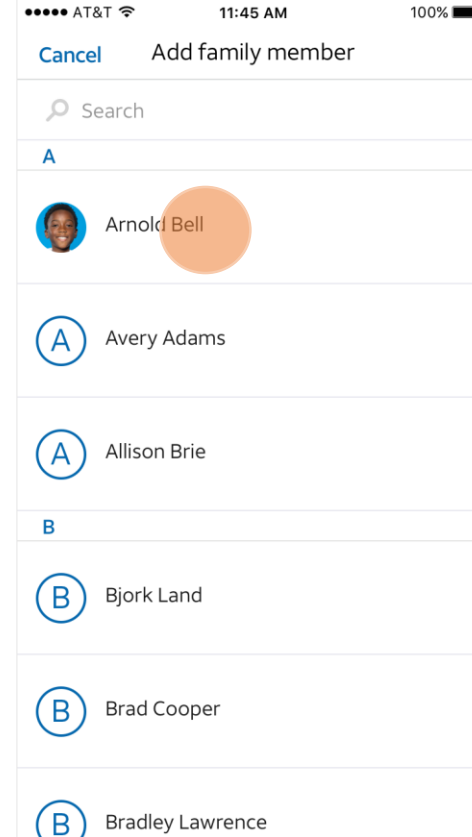

**Step 1** – Tap Add Family Member

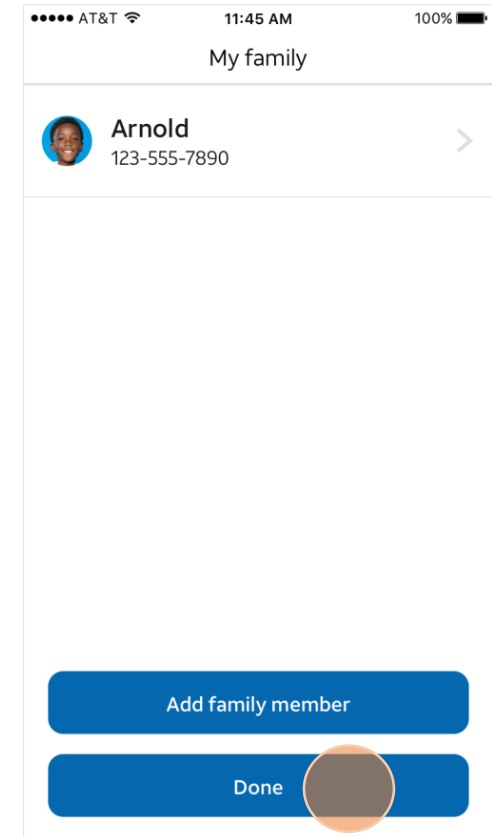

**Step 2** – Tap Add from Contacts

**Step 3** – Tap Ok to allow access to your contacts

**Step 4** – Select the line you wish to add from your contacts

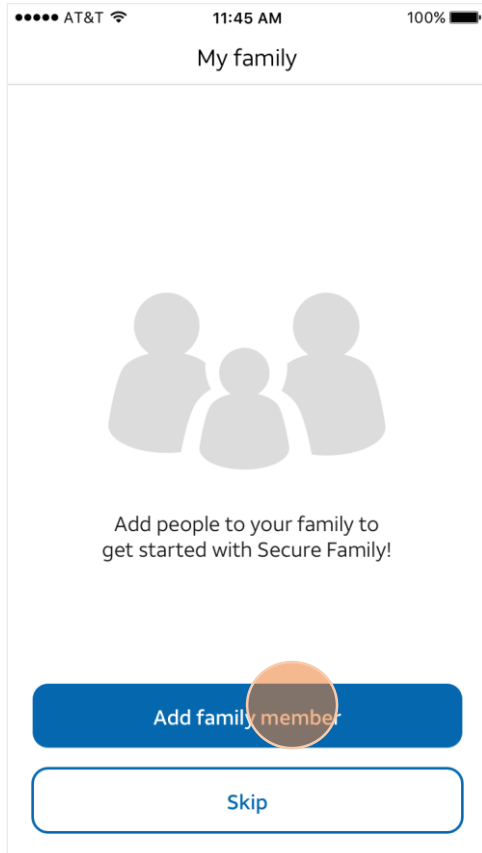

**Step 5** – Once the line has been added, it will appear on My Family page. Tap Add Family Member to add more lines, or tap Done to go back to main dashboard

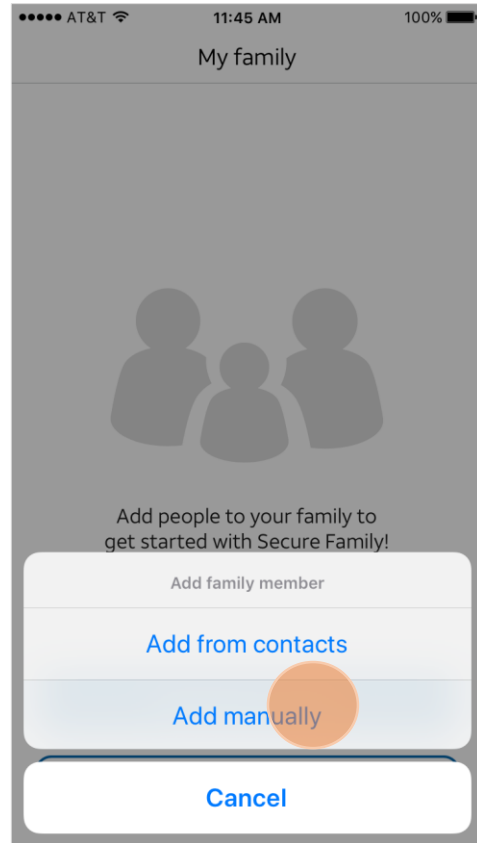

# Add Lines - Manually

You can add lines to monitor by tapping Set up Family in the sign up flow or by navigating to Settings > My Family

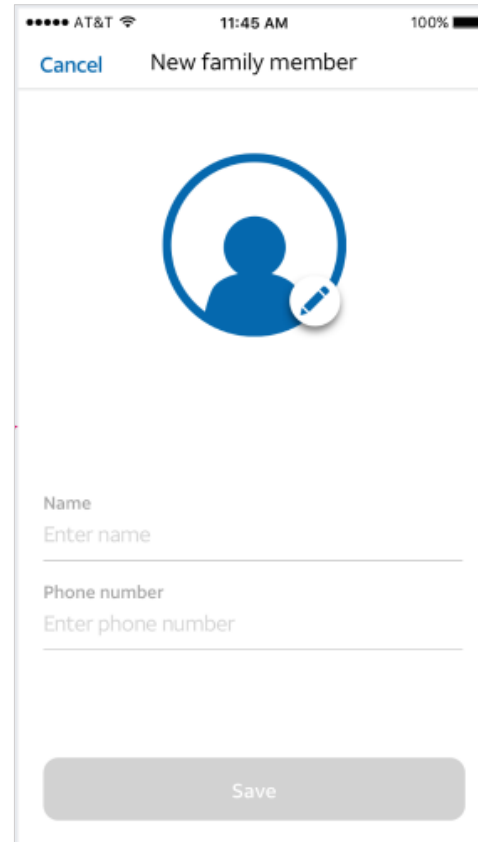

**Note: These steps apply to Secure Family customers who are AT&T PREPAID or customers of other US Wireless Providers**

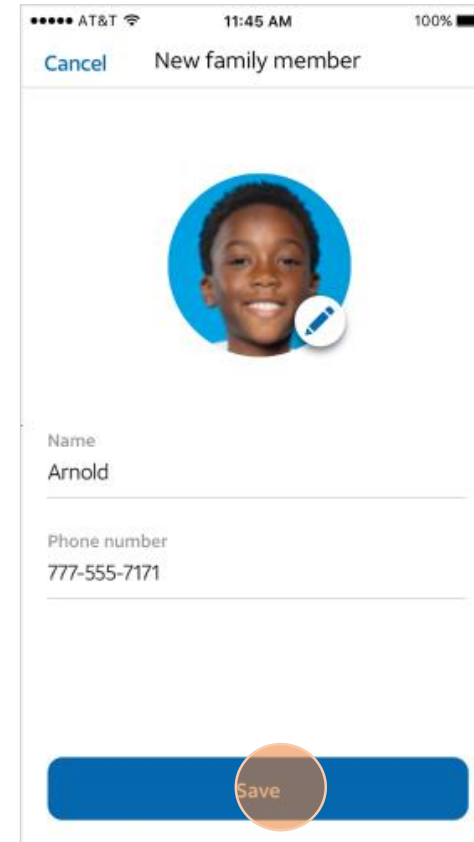

**Step 1** – Tap Add Family Member

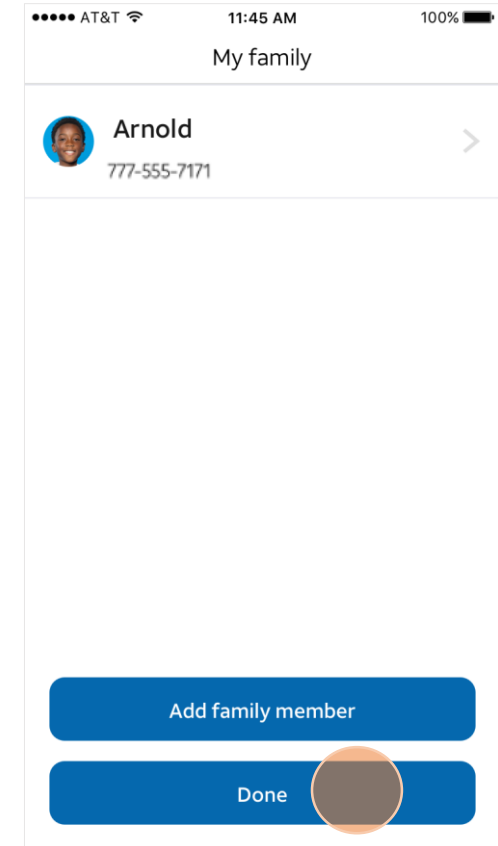

**Step 2** – Tap Add Manually

**Step 3** – Fill out the name of the person and phone number you wish to monitor

**Step 4** – Once the person's information is filled out, tap Save

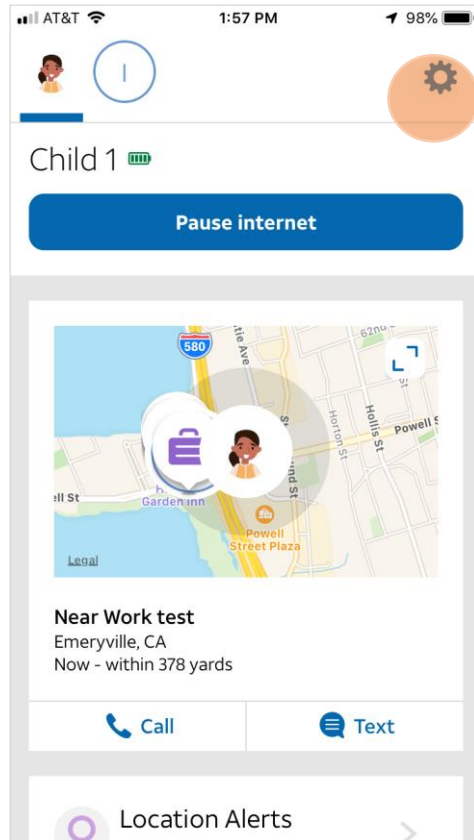

**Step 5** – Once the line has been added, it will appear on My Family page. Tap Add Family Member to add more lines, or tap **Done** to go back to main dashboard

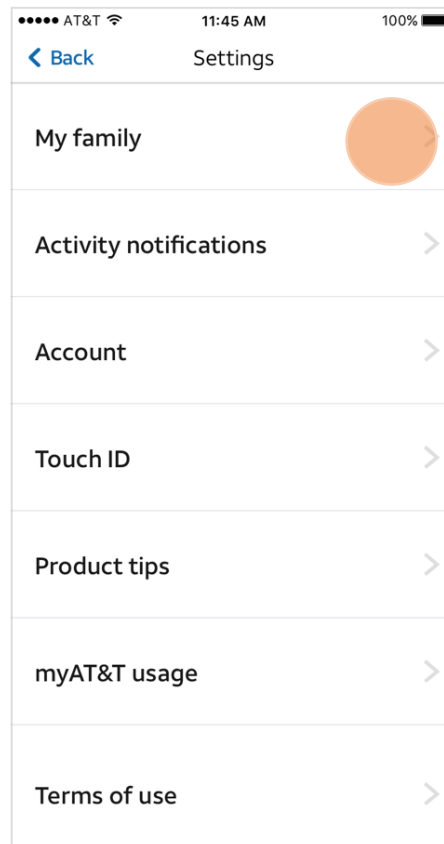

# Add Lines – From Settings (Postpaid Only)

You can add lines to monitor by tapping Set up Family in the sign up flow or by navigating to Settings > My Family

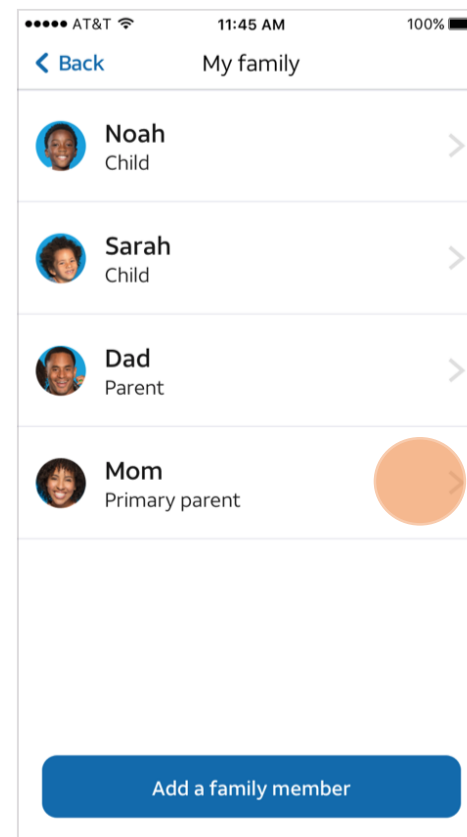

**Note: These steps apply to AT&T Postpaid Wireless customers only**

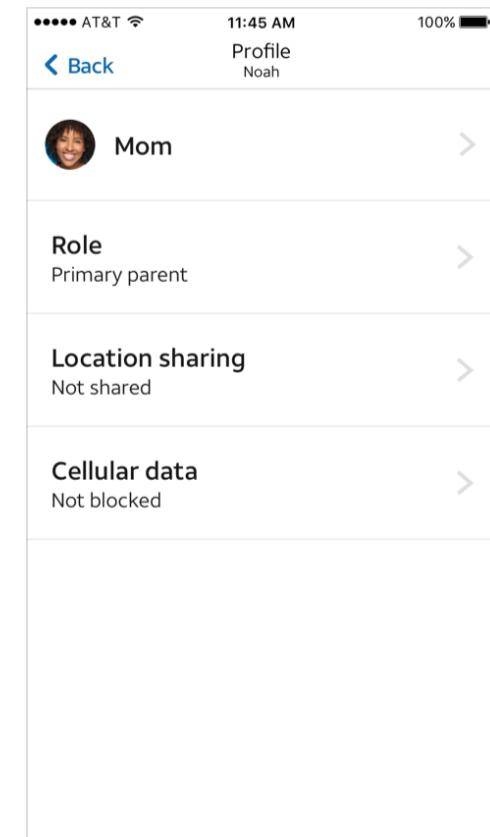

**Step 1** – Tap on the Settings cog

**Step 2** – Tap on My family

**Step 3** – Tap on Add a family member to add another line to monitored, or tap on an existing line to learn more about that family member's settings

**Step 4** – adjust location sharing or cellular data access as desired
