AT&T International Day Pass®

International travel tips

Use your phone like you do at home with unlimited high-speed data*, talk and text in over 210 destinations for $10 a day. Never pay for more than 10 days per bill and get 50% off all additional lines used the same day. Plus, only pay for the days you use. Add International Day Pass to all lines before you go, then follow these tips to help manage costs and make the most of your travels.

How it works

While you’re abroad you will only pay for the days you use your phone. During that period you can:

• Use your domestic data plan to email, post on social media, use maps, convert currency, translate languages, book excursions, use mobile tickets and more.
• Make unlimited calls back to the U.S., to the country you’re in and to other countries included in International Day Pass.
• Send unlimited texts to the world. Texts received are rated as domestic and do not charge a daily fee.

How to get the most value

• When you don’t plan to use your phone, turn off Data Roaming in your device Settings to avoid being charged for unintentional data use.
• When traveling with your family, the first line is $10 a day and all additional lines are 50% off.

If you talk, send a text or use data in any of the included countries, you’ll be charged $10 per 24 hours and $5 for each add’l line on the same account used the same day unless you remove Int’l Day Pass.

How to use data, talk and text internationally

• To use cellular data, make sure Data Roaming is turned on in your device Settings.
• To call or send a message back to the U.S., dial +1 followed by the 10-digit number.*
• To call or send a message to another country, dial + (country code) followed by the local phone number.*
• Some devices have settings that automatically add the correct prefix or country code when calling numbers stored in your Contacts. For iOS, turn on Dial Assist in your device Settings.

*The “+” sign typically appears if you press and hold the “0” key on your dial pad.

INTERNATIONAL DAY PASS: Coverage not available in all areas. Terms and data allowance from your domestic plan, fees and other restrictions apply and are subject to change. If you talk, send a text or use data in any of the included countries, you’ll be charged $10 per 24 hours and $5 for each add’l line on the same account used the same day unless you remove Int’l Day Pass. Charge cap: A max. of 10 daily fees per line, per monthly bill cycle. See att.com/intldaypass for details.
