Before you begin:
1. Check your service activation date.
   Do not attempt to install your service until 2pm or later on your service activation date. You can find this date on your packing slip.

2. Did you activate your service?
   You must complete activation for your Internet service to work correctly. See Step 3 inside.

Check your connections.
Check all cables and cords to ensure they are connected properly and securely.

Power down, power up.
Unplug the power cord from the back of the Wi-Fi Gateway. Leave the Wi-Fi Gateway unplugged for 15 seconds and plug it back in. You may need to wait up to two minutes for blinking indicator lights to turn solid green.

Additional U-verse information

**What is your Internet connection speed?**
Our speed test is available to help you gauge the performance of your online experience. Visit att.com/speedtest to determine the speed at which data is sent to or from your computer.

**Manage your account:**
Available 24/7, download the myATT app at att.com/myattapp from your mobile device.

**Accessibility Support:**
Alternate formats now available in large print or braille. Call 800.288.2020 and request your guide number (ATT141210879-3) in an alternate format. Additional accessibility support:
- Special Needs Equipment:
  - Phone: 877.902.6350
  - TTY: 800.772.2889
- Repair Center:
  - Phone: 800.246.8464
  - TTY: 800.397.3172
- Accessible Tagged PDF: Visit att.com/userguides
- Device Compatibility Feature: Compatible with any TTY/TDD devices with standard phone line

Get started
Approximate installation time: 30 minutes

1. Check your service activation date.
   Do not attempt to install your service until 2pm or later on the date provided to you by AT&T. This date is also located on your packing slip.

2. Do you have a monitored home security system or health alarm?
   If either of these apply to you, you will need an AT&T technician to install your service. Call 800.288.2020 to schedule an appointment. Additional charges will apply for professional installation services from an AT&T U-verse service technician.

In the box:
- Wi-Fi Gateway
- Power cord
- 2 parts
- 3 single-port filters
- Yellow Ethernet cable
- Green data cable
- Dual-port filter
- Packing slip

Also needed:
- Your 4-digit passcode. You received a separate letter confirming the 4-digit passcode you designated when placing your order.

Images are not to scale.
1. **Set up**
   - **Approximate time:** 10 minutes

   **Note:**
   - If you have traditional dial tone phone service, install single-port filters in wall jacks that have devices such as phones, fax machines, satellite receivers, or modems.
   - The dual-port filter is used when you want to connect a phone or other piece of equipment, such as a fax machine, to the same wall jack as your Wi-Fi Gateway.

   A. Connect the green data cable from the Wi-Fi Gateway’s DSL Broadband port to your wall jack.
   B. Connect the yellow Ethernet cable from one of the Wi-Fi Gateway’s Ethernet ports to your computer.
   C. Plug the power cord into the Wi-Fi Gateway and an electrical outlet.

   Below is a completed setup. Your connections may vary.

2. **Power up**
   - **Approximate time:** 1–5 minutes

   - Your Wi-Fi Gateway is now powering up. Wait up to five minutes for the Broadband and Service indicator lights to turn solid green.

   During this time, do not unplug the green data cable, as this can permanently damage the Wi-Fi Gateway and significantly delay your Service Activation.

   - If the Broadband and Service lights do not turn solid green or continue to blink after 5 minutes, see “Having Trouble?” on the back of this guide.

3. **Registration & activation**
   - **Approximate time:** 5 minutes

   **Customers who have already completed the U-verse online registration:**
   - Welcome to U-verse.
   - Activation of your high-speed Internet service will be completed automatically.
   - The service activation may take a few minutes to complete.
   - Be sure to open a browser, go to a Web site, and check that you can access it.

   **Customers who have NOT completed the U-verse online registration:**
   - Open your Internet browser (e.g., Internet Explorer, Safari, etc.).
   - The online registration process will start automatically. If it doesn’t, enter att.net/uverse into your address bar.
   - Enter your Account Number (if requested) and Passcode.
     1. Your Account Number is available on your order confirmation email or letter.
     2. Your Passcode is the four-digit number you selected when you placed your order.
   - Follow the online instructions to complete your registration and activate your Internet service.
   - Upon successful registration, you will see the following:
     Congratulations. Your AT&T U-verse services are now activated and ready to use!

4. **Go Wi-Fi**
   - **Approximate time:** 10 minutes

   Write down the Wi-Fi Network Name (SSID) and Wi-Fi Password (Wireless Network Key) to configure additional Wi-Fi devices. This information is on the side of your Wi-Fi Gateway. The Wi-Fi Network Name consists of “ATT” plus the last three characters of the Wi-Fi Gateway’s serial number. Be sure to record this information in the form below.

   **Now configure your Wi-Fi network:**
   - Go to your computer’s “Wireless Network Settings” and refresh the network list.
   - Select your Wi-Fi Network Name (SSID) from the list. You may need to scroll through the list to find your Wi-Fi Network Name.
   - Enter the 10-character Wi-Fi Password (Wireless Network Key) in the Password field to connect to your network.
   - Congratulations! You should now be connected to the Internet via Wi-Fi.
