

**CGW450-400**  
**SAFETY AND REGULATORY INFORMATION**

**Important Safety Instructions**

1. This equipment is for indoor use only, do not place or install in an outdoor location.
2. Place the equipment in a vertical orientation on flat, firm, solid surface, away from any other items.
3. Only use the manufacturer supplied and approved power adapter. Use of another power adapter could result in damage to the unit CGW450-400
4. The equipment should be situated away from heat sources such as radiators, heat registers, stoves, or other heat producing appliances and equipment. Avoid placing the equipment in direct sunlight.
5. Do not place equipment in an enclosed space that may impede the flow of air through the ventilation openings.
6. Do not use this product near water and avoid contact with moisture.
7. Use the product in the environment specified as below:
  - Air temperature between 0 °C (32 °F) to 41.7 °C (107.1 °F)
  - Relative humidity: below 85% (non-condensing)

**Federal Communications Commission (FCC) Compliance**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference
- (2) this device must accept any interference received, including interference that may cause undesired operation.

**FCC Radio Frequency Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/ TV technician for help.

**FCC Caution**

Any changes or modifications not expressly approved by the grantee of this device could void the user's authority to operate the equipment.

**FCC RF Exposure Statement**

To comply with FCC RF exposure compliance requirements, the antenna used for this transmitter must be installed to provide a separation distance of at least 89 cm from all persons (indoor) and must not be co-located or operating in conjunction with any other antenna or transmitter.

**California Proposition 65**

 **WARNING:** This product can expose you to chemicals including Antimony Trioxide, which are known to the State of California to cause cancer, and to Bisphenol A (BPA), which is known to the State of California to cause birth defects or other reproductive harm.
