Email Set Up

Typing Tips

To capitalize a letter, hold the letter key until the capitalized letter appears or hold the **RIGHT SHIFT** key  and press the appropriate letter key

4. Create a User ID and password of your choice for your BlackBerry Internet Service Account. The password must be at least 6 characters long and is case sensitive. Store this login information in a safe place so that you can add additional email accounts to your BlackBerry 8700c or change your settings in the future.
5. Select a language by clicking on a language choice.
6. Enter your email address and password.

The user name must begin with a letter or number, contain between 4 and 32 characters, and may contain letters, numbers, underscores, dashes, and period characters.

Email Set Up

7. Once the confirmation screen displays, click OK.
8. Once the summary screen displays, showing you the email account you've set up you can choose to set up another account (up to 10 supported accounts), create a BlackBerry email address, or log out.
9. When you log out, your BlackBerry 8700c will display the BlackBerry Internet Service login screen. Be sure to close the browser window by pressing the Menu key and clicking Close. You have now completed the Setup Wizard.

Note:

Once you add an email account using the email setup application, messages sent to that account will also appear in the messages list on your device. Also, when you send a message from your device, it will be sent using the email address of that account.

To learn more about Bluetooth features click the **TRACKWHEEL** while in Bluetooth, scroll to and click **Help**.

Push to Talk

Push to Talk (PTT) is a digital walkie-talkie that allows you to instantly reach others by eliminating the dialing and ringing steps in a regular cellular call. PTT calls can be made to one person or to a group of people.

Setup Push to Talk

Note: You must have a PTT subscription to set up the PTT service. PTT initialization might take a few moments to complete.

1. On the Home screen, click **Push to Talk**  or press the **PTT CONVENIENCE** key on the left side of the BlackBerry® 8700c.
2. Click **Yes** to initialize PTT.
3. Type a name that is up to 20 characters in length. This will be your PTT user name.
4. Click **OK**.

Note: PTT is on when the PTT indicator appears on the Home screen.

Steps?
4

To learn more about Push to Talk features click the **TRACKWHEEL** while using the **Push to Talk**, scroll to and click **Help**.

Add a Push to Talk contact

Individuals and group members that you add to your PTT contact list must have a PTT capable AT&T device and subscribe to AT&T Push to Talk service. When you add a PTT contact, the contact can accept, decline, or defer your invitation.

1. On the Home screen, click **Push to Talk** .
2. Click **Add Contact**.
3. Type the contact information.
4. Click **OK**. An icon appears to indicate that your invitation is in progress.

Create a Push to Talk group

A PTT group is a great way to call several people at the same time.

1. On the Home screen, click **Push to Talk** .
2. Click **Add Group**.
3. Type a name for the group and click **OK**.

For more information about Push to Talk service, visit www.cingular.com/pushtotalk

 - To delete the contact or group, click **Delete Contact** or **Delete Group**.
 - To rename the contact or group, click **Rename Contact** or **Rename Group**.
 - To add or delete members of the group, click **View Members** and then click the **TRACKWHEEL**.

Make a Push to Talk call

Verify that you have added one or more PTT contacts.

1. On the Home screen, press the **PTT CONVENIENCE** key.
2. Highlight a PTT contact or group and perform one of the following actions:
 - To speak to your contact, press and hold the **PTT CONVENIENCE** key
 - To listen to your contact, release the **PTT CONVENIENCE** key.

To end the PTT call, press and hold the **END** key.

Note: To convert your PTT call to a cellular call during the call, press the **TRACKWHEEL**. Click **Convert to Cellular**. When you hear the tone, begin speaking without using the PTT convenience key.

Make a Quick Group call

1. On the Home screen, press the **PTT CONVENIENCE** key.
2. Click the **TRACKWHEEL**.
3. Click **Quick Group**.

4. Click the contacts that you want in the group call then press and hold the **PTT CONVENIENCE** key to speak to the group. Release the **PTT CONVENIENCE** key to listen to the group.

Accept a Push to Talk invitation

If you are invited to be a PTT contact, the PTT Indicator on the Home screen changes to the PTT Message Indicator.

1. On the Home screen, click **Push to Talk** .
2. Click **Accept**.

Note: You can automatically accept all PTT invitations. In the PTT application, set Auto Accept Invitations to On. Click the **TRACKWHEEL**. Click Save.

Respond to a Push to Talk call

An incoming PTT call is indicated by a tone followed by the sound of the caller speaking. Caller information will appear on the screen. Press and hold the **PTT CONVENIENCE** key to speak to the caller. Release the **PTT CONVENIENCE** key to listen to the caller.

Note: Depending on your profile setting, you might need to click **Accept** or **Reject** to initiate or end the call.

Set your Push to Talk availability status

1. On the Home screen, press the **PTT CONVENIENCE** key.
2. Click the **TRACKWHEEL**.
3. Click **My Availability**.
4. Click a status.
5. Click the **TRACKWHEEL**.
6. Click **Save**.

Send a Call Me Alert

1. On the Home screen, press the **PTT CONVENIENCE** key.
2. Click a contact.
3. Click **Call Me Alert**. The recipient's wireless phone or wireless device displays a screen notifying them to call you. The recipient can choose to return your call immediately.

Set a Contact Alert

Contact alerts notify you when a PTT contact becomes available.

1. On the Home screen, press the **PTT CONVENIENCE** key.
2. Click the **TRACKWHEEL**.
3. Click **Contact Alerts**.
4. Click a contact.
5. Click the **TRACKWHEEL**.

- CD drive

Setup Instructions

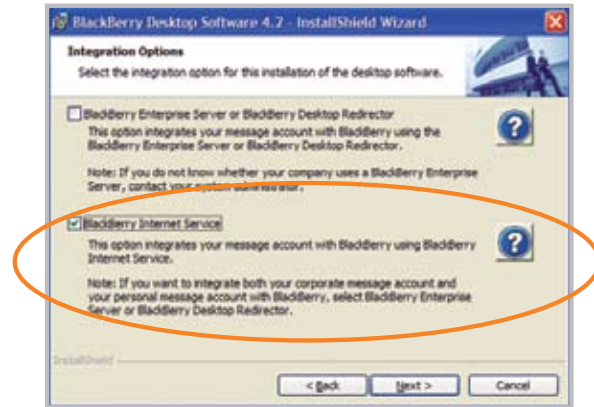

1. Verify that your BlackBerry® 8700c is NOT connected to your computer.
2. Insert the BlackBerry® User Tools CD into the CD drive on your computer.
3. Follow the instructions on the screen.

Steps?
10

Takes?
5 - 10 minutes

4. Click **BlackBerry Desktop Software** to begin installing the software.
5. Click **Install BlackBerry Desktop Software**.
6. Choose **BlackBerry Internet Service** to set up a supported personal email account. Only choose BlackBerry® Enterprise Server if your organization uses this service and your system administrator has provided you with a user name and an enterprise activation password..

- When the installation is complete, the BlackBerry® Desktop Software should automatically open. If it does not click **Start > Programs > BlackBerry > Desktop Manager** from the taskbar.

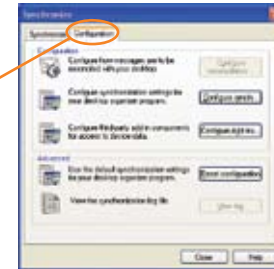

Note: You should check the configuration of the BlackBerry Desktop Software so that your computer can connect to your BlackBerry 8700c. Click **Options** and then **Connection Settings** and select a USB connection.

- Connect the smaller end of the USB cable to your BlackBerry 8700c and connect the larger end of the USB cable to the USB port on your computer.

- Click the **Synchronize** icon in the BlackBerry® Desktop Manager and setup your configuration options.

Be sure to click on the **Configuration** tab to set your configuration settings.

- When you have finished setting up the configuration settings, click **Synchronize now**.

Media

In the Media application, you can open media files, such as ring tones or pictures, are stored on your BlackBerry® 8700c. You might have some preloaded media files, including background pictures and ring tones, in a Preloaded Media folder on your BlackBerry 8700c. Preloaded media files cannot be deleted, renamed, or moved.

Transfer Files to your BlackBerry® 8700c

Note: You must install the BlackBerry Desktop Software to use Media Manager.

1. Connect your BlackBerry® 8700c to your computer.
2. On your computer, open the BlackBerry® Desktop Manager.
3. Double-click **Media Manager**.
4. Drag a file or folder from your computer to your BlackBerry® 8700c.

Note: Any third party products or services that are provided with Research In Motion's and AT&T's Products and services are provided "as is". RIM and AT&T make no representation, warranty or guarantee whatsoever in relation to the third party products and services and RIM and AT&T assume no liability whatsoever in relation to the third party products or services if RIM and AT&T have been advised of the possibility of such damages or can anticipate such damages.

I cannot connect to a wireless network

Try performing one of the following actions:

- Verify that your SIM card is inserted correctly.
- Verify that you have turned on the connection to the wireless network.
- If you were traveling and you selected a network manually, your BlackBerry® 8700c should remain connected to that network until you select your home network again.

I cannot associate my BlackBerry 8700c with an email address

Try performing the following actions:

- Log in to the email setup web site (www.cingular.com/blackberrystart) and add a supported email address (up to 10) to your BlackBerry® 8700c using a browser on your computer. If you have already created a user name and password, use this information to log in. If you have not created a user name and password, click **Create New Account** and complete the instructions on the screen.
- Verify that the email account you wish to associate with your BlackBerry 8700c is POP3 or IMAP account. If you still cannot add the email address, contact your wireless service provider for more information on supported email accounts.

I do not know which email setup option to choose in the Setup Wizard on my BlackBerry® 8700c

Select the **I want to add or create an email address** option if the other options do not apply to you. This option is the most common option for individual users. If you select this option, an email setup screens opens. You can create a new email address for your BlackBerry® 8700c or associate your 8700c with an existing supported email address.

Select the **I want to use a work email account with a BlackBerry Enterprise Server** option if a BlackBerry® Enterprise Server system administrator has provided you with a password that you can use to activate your BlackBerry 8700c over the wireless network. If you select this option, an Enterprise Activation screen appears. On this screen, you can type your work email address and the password provided by your system administrator to activate your BlackBerry 8700c.

Select **Skip email setup** if any of the following situations apply:

- A representative from the store where you purchased your BlackBerry 8700c has already helped you to set up your email address at www.cingular.com/blackberrystart.
- You have already visited www.cingular.com/blackberrystart and have set up your email account.
- You have an existing email account and have access to a BlackBerry® Enterprise Server, but your BlackBerry Enterprise Server system administrator has not provided you with a password that you can use to activate your BlackBerry 8700c over the wireless network. Contact your system administrator for more information about setting up email for your BlackBerry 8700c.

I cannot send messages

Try performing the following actions:

- Verify that your BlackBerry® 8700c is connected to the wireless network. If you are not in a wireless coverage area, your BlackBerry 8700c should send the messages when you return to a wireless coverage area.
- If the menu item for sending a message does not appear, verify that you have added a supported email address or PIN for your contact.

- If you created a BlackBerry email address or added an existing supported email address to your BlackBerry 8700c using the email setup web site, verify that you have received an activation message on your BlackBerry 8700c from the BlackBerry® Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), use the email setup web site to send a service book to your BlackBerry® 8700c.
- If you have not received a registration message from the wireless network, register your BlackBerry 8700c. In the BlackBerry 8700c Options, click **Advanced Options**. Click **Host Routing Table**. Click the **TRACKWHEEL**. Click **Register Now**.
- Resend the message. Open the message. Click the **TRACKWHEEL**. Click **Resend**.

I am not receiving messages

Try performing the following actions:

- Verify that your BlackBerry® 8700c is connected to the wireless network. If you are not in a wireless coverage area, you should receive messages when you return to a wireless coverage area.
- If you created a BlackBerry® email address or added an existing supported email address to your BlackBerry® 8700c using the email setup web site, verify that you have received an activation message on your BlackBerry® 8700c from the BlackBerry® Internet Service. If you have not received an activation message (the message might take a short period of time to arrive), use the email setup web site to send a service book to your BlackBerry® 8700c.
- If you have not received a registration message from the wireless network, register your BlackBerry 8700c. In the BlackBerry 8700c Options, click **Advanced Options**. Click **Host Routing Table**. Click the **TRACKWHEEL**. Click **Register Now**.
- If you use email message filters, verify that your email message filter options are set correctly.

I cannot make or receive calls

Try performing the following actions:

- Verify that your BlackBerry® 8700c is connected to the wireless network.
- If you cannot make calls and fixed dialing is turned on, verify that the phone number for your contact appears in your fixed dialing list or turn off fixed dialing.
- If you have traveled to another country and you have not changed your smart-dialing options, dial the full phone number, including the country code and area code, for your contact.
- If you are not receiving calls, verify that call blocking and call forwarding are turned off.

I want to charge my BlackBerry 8700c using my computer

If you have an available USB port on your computer and you install the BlackBerry® Desktop Software on your computer to obtain the required USB drivers, you can connect your BlackBerry 8700c to your computer to charge the battery when the computer is turned on. Connect the smaller end of the USB cable to the USB port on the side of your BlackBerry 8700c. Connect the larger end of the USB cable to an available USB port on your computer.

Note: To view the BlackBerry Desktop Software Online Help and find more information about connecting your device to your computer, in the BlackBerry Desktop Software, click **Help**.

My corporate email account is not associated with a BlackBerry Enterprise Server

If you do not have access to a BlackBerry® Enterprise Server, but you want to send and receive messages from a corporate Microsoft® Outlook® or IBM® Lotus® Notes® email account that resides on a Microsoft Exchange or IBM Lotus® Domino® mail server, your system administrator might permit you to set up BlackBerry Internet Service to access your corporate email. When you add your corporate email account for use with BlackBerry Internet Service, you might be prompted to install the BlackBerry® Mail Connector program on your computer. For more information, in the BlackBerry® Internet Service email setup application, click **Help**.

Note: If you install the BlackBerry Mail Connector your computer must be on and the installed program must be running to send and receive messages on your device.

I want to reset my BlackBerry 8700c

Remove and reinsert the battery.

I do not have the latest BlackBerry Device Software or BlackBerry® Desktop Manager Software update

To find the latest BlackBerry® Device Software and BlackBerry Desktop Software updates, visit www.cingular.com/bbdownloads.

I have forgotten my BlackBerry Internet Service password

From the Home screen, click **BlackBerry Setup** and then click **Personal Email Setup**. Open the BlackBerry® Internet Service email setup application. On the Login screen, click **Forgot password?** Type your user name. Click **Ok**. Your password is sent to your device as a message that appears in the message list.

BlackBerry Internet Service messages are not being sent to my new device

If you switch devices, you must update your BlackBerry® Internet Service account to use the personal information number (PIN) and International Mobile Equipment Identify (IMEI) for your new BlackBerry device. Open the BlackBerry Internet Service email setup application. On the Login screen, type your user name and password. Click **Log In**. Click **Change Device**. Type the PIN and IMEI for your new device. Click **Save**.

Note: To find the PIN and IMEI for your new device, from the Home screen click **Settings, Options** then **Status**.

I want to talk to a support representative
