Your Phone

Most of what you need is in the touchscreen and the keys below it ("Menu, Home, Search, & Back Keys" on page 12).

The Power key is also a fingerprint sensor. For security, you can touch Menu > Settings > Location & security > Set up screen lock > Fingerprints.

Note: Your smartphone might look slightly different.

Caution: Before assembling, charging or using your phone for the first time, please read the Safety, Regulatory, & Legal Information provided with your phone.
Device Setup

Assemble & Charge

1. Cover off
2. SIM in
3. Battery in
4. Cover on
5. Charge up
6. Power up, log in

Start MOTOBLUR

When you first turn on your phone, you need to create or log into your MOTOBLUR account.
MOTOBLUR syncs your contacts, posts, feeds, messages, emails, and photos from your other accounts. Registration is secure and should only take a few minutes.

1. Press and hold Power \(\odot\) on top of your phone to turn it on.
2. Select a language.
3. Log in or register: Enter your name, your current email address (where MOTOBLUR can send account information), and a new MOTOBLUR account password.
4. To add an account within MOTOBLUR, touch the account type, then enter the account’s user name (or email) and password.
5. When you’re done, touch **Done adding accounts**.

**Tip:** To see your accounts or add more, touch \(\odot \rightarrow Accounts\).

If your contacts don’t import within an hour, see “Transfer contacts” on page 22.

**Your MOTOBLUR Account**

Only MOTOBLUR syncs your contacts, posts, feeds, messages, emails, photos and much more—from sources like Facebook®, Twitter, Myspace, your work email, Picasa™, Photobucket®—and serves them up just the way you want them.

You can log into your MOTOBLUR account from a computer to upload contacts, reset your password, get help, or even locate your phone:

[www.motorola.com/mymotoblur](http://www.motorola.com/mymotoblur)

**Security**

Your contacts are backed up on MOTOBLUR, so don’t worry. Even if you lose your phone, MOTOBLUR can help you find it or wipe it. When you get your next MOTOBLUR product, your stored info...
makes it a snap to set up with just a username and password.

Of course it doesn’t stop there. There are plenty of ways to protect your phone and your information, in “Security” on page 60.

**Calls**

**Quick Start: Calls**

**Find it:** 📞 Dialer

**Call Lists**

**Active Call**

**Call Timer**

**Store Number**

**Voice Dial**

**Conference Call**

During a call, touch Menu ☰ to choose Hold or Voice Quality. When the
touchscreen goes dark, you can press Power to wake it up.

**Note:** Your touchscreen might stay dark during calls if the sensor just above it is covered. Don't use covers or screen protectors (even clear ones) that cover this sensor. To find Motorola accessories for your phone, visit [www.motorola.com/products](http://www.motorola.com/products).

To make a call, touch Dialer, enter a number, then touch .

**Tip:** If you leave the call display during a call, flick down the status bar and touch the active call to reopen it.

### Make & Answer Calls

To make a call, touch Dialer, enter a number, then touch .

When you enter a number to dial, touch Menu to add a pause (pauses two seconds), or wait (waits for your confirmation).

**Tip:** To enter the international dialing code, touch and hold . To add a pause or wait after numbers, press Menu .

To answer a call, drag the green tab to the right (when your phone is unlocked, **Answer** is just a touch button).

### End Calls

Touch **End call**.

**Note:** When you hold your phone to your ear, the display goes dark to avoid accidental touches. When you move your phone away from your ear, the display lights up again.
Tip: You can touch Home (-home button) or Back (-back button) to hide the active call display. To reopen it, touch Dialer.

Voicemail
When you have a new voicemail, ∞ shows at the top of your screen. To hear the voicemail, flick down the status bar and touch the ∞.

Voice Dial
Find it: Dialer >
Dialer >
Say a number, or a name from your Contacts.

Handsfree
Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

During a call:
• To use the speakerphone, touch Speaker.
• To use a connected Bluetooth® device, touch Bluetooth. There’s more about “Wi-Fi®, DLNA™ & Bluetooth® Connections” on page 46.

Tip: You can purchase a Motorola vehicle dock to turn your phone into an on-board navigator, handsfree device, music player and more, all while recharging it. Follow the dock’s instructions to dock your phone. Then, touch > CarDock and choose an option before you drive.

Conference Calls
To start a conference call, call the first number. After they answer, touch Add Call and call the next number. When the next number answers, touch Menu ( elles ) > Join.
Mute & Hold
During a call:
• To mute the current call, touch Mute.
• To put a call on hold, touch Menu > Hold.

Enter Numbers During a Call
To enter numbers during a call, touch and then touch the dial pad.

Recent Calls
Find it: Dialer > Recent
• To call a number, touch the green phone icon on the right.
• To send a text message, create a contact, view a contact, add the call to speed dial, or other options, touch and hold an entry.

• To filter the list, touch the view name (like All calls) at the top.
• To clear the list, touch Menu .

Speed Dial
Find it: Dialer
• To add, edit, or clear entries, touch Menu > Speed dial setup.
• To call an entry, touch and hold its speed dial number in the Dialer.

Favorites
Find it: Dialer > Favorites
Your favorite contacts are listed, followed by numbers you call frequently but haven’t tagged as Favorites.
To tag a favorite, open Contacts, touch a contact, then touch the star to the right of their name.
Your Phone Number

Find it: Menu 📞 > Settings > About phone > Status

Your Caller ID

To hide your number from the people you call, touch Menu 📞 > Settings > Call settings > Additional settings > Caller ID.

Call Forwarding & Waiting

You can forward calls all the time, or only when your phone is busy, unanswered, or unreachable (not on the network):

Find it: Menu 📞 > Settings > Call settings > Call forwarding

When you’re on a call and a second call comes in, Call waiting lets you answer it. If you turn off Call waiting, second calls go straight to your voicemail:

Find it: Menu 📞 > Settings > Call settings > Additional settings > Call waiting

Restrict Outgoing Calls

To restrict your phone so that it can only dial a few numbers:

Find it: Menu 📞 > Settings > Call settings > Fixed dialing number

• To restrict calls, touch FDN disabled.
• To add or change allowed numbers, touch Manage FDN list.

TTY Mode

Your phone can use an optional teletypewriter (TTY) device, for people who are hard of hearing or have a speech impairment.

1. Plug the TTY device into the phone’s headset connector.
2. Touch Menu ☰ > Settings > Call settings > TTY mode and choose a TTY setting.

Emergency Calls

**Note:** Your service provider programs one or more emergency phone numbers (such as 911 or 112) that you can call under any circumstances, even when your phone is locked. Emergency numbers vary by country. Your pre-programmed emergency number(s) may not work in all locations, and sometimes an emergency call cannot be placed due to network, environmental, or interference issues.

1. Touch ☺ Dialer (if your phone is locked, touch Emergency Call).

2. Enter the emergency number.

3. Touch Call to call the emergency number.

**Note:** Your mobile device can use GPS and AGPS signals to help emergency services find you. See “GPS & AGPS” in your legal and safety information.
Home Screen

Quick Start: Home Screen

The home screen gives you all your latest information in one place. It’s what you see when you turn on the phone or touch Home 🏡 from a menu. Double-tap Home 🏡 to show all of your panels. If your screen goes to sleep, press Power 📡 to wake it up.

Use & Change Your Home Screen

In your home screen:

• To open something, touch it. Touch Home 🏡 to return to the home screen.

• To change widget options (if available), open the widget and touch Menu 📓. You can choose an account in messaging widgets.

• To resize Motorola widgets, touch and hold one until you feel a vibration, then release. Drag a corner to resize.
• To add something to the screen, touch and hold an empty spot until the menu opens—you can add shortcuts, widgets, or folders, or change wallpaper.

• To move or delete something, touch and hold it until you feel a vibration, then drag it to another place, another panel, or to the trash can.

Search
To search your Contacts, apps, and the Web, use a Search widget (if you have one), or touch and hold Menu to open a touchscreen keypad.
Keys

Menu, Home, Search, & Back Keys

Touch Menu  to open menu options in your home screen, lists, and other places. Touch and hold Menu  to open a display keypad.

Touch Home  to close any menu or app and return to the home screen. Touch and hold Home  to show the last few apps you used, then touch an app to open it. In the home screen, touch Home  to open or close the app menu.

Touch Search  to open “Search” on page 11.

Touch Back  to go to the previous screen.

Power & Sleep Key

Press and hold Power  to open the power key menu, where you can choose **Silent mode**, turn off your network connection (**Airplane mode**), or just **Power off**.

To save your battery, prevent accidental touches, or when you want to wipe smudges off your touchscreen, put the touchscreen to sleep by pressing Power . To wake up the touchscreen, just press Power  again.

To change how long your phone waits before the screen goes to sleep automatically, touch Menu  > **Settings** > **Display** > **Screen timeout**.

**Tip:** To make the screen lock when it goes to sleep, use “Screen Lock” on page 60.
Volume Keys
Press the volume keys to change the ring volume (in the home screen), or the earpiece volume (during a call).

Connections
The MOTOROLA ATRIX 4G has a dual core 1GHz processor, 1GB of RAM, and 16GB of internal memory.
You can share media over a DLNA wireless connection. Or:

• An optional Lapdock™ opens the webtop application and includes a display, full keyboard, and touchpad.

• An optional HD Multimedia Dock opens the webtop application and lets you connect your HDMI display, keyboard, and mouse.

• The HDMI™ cable in your phone’s box opens Entertainment Center and lets
you connect your HDMI display and use your phone as a controller.

You can do more with other docks too:

- **A Standard Dock** shows an alarm and shortcuts you can set for each dock, plus it lets you connect headphones or speakers.

- **A Vehicle Dock** shows shortcuts you can set to maps, navigation, and Internet services like voice search and radio.

### Connections Quick Reference

Follow the page number references to find out how to use a USB, HDMI, Wi-Fi, or Bluetooth connection.

Entertainment Center

Connect the Entertainment Center

The **Entertainment Center** lets you show all your phone’s photos, music, and videos on that big screen in your living room. Sit back and get comfortable, as your phone becomes a controller for the show.

1. Connect your phone to a TV or computer with the included HDMI cable, or an optional dock.

2. If needed, choose **Entertainment Center**.

When you’re done using **Entertainment Center**, just disconnect your phone from the cable or dock.

Control the Entertainment Center

If you connect your phone to a TV or computer with an HDMI cable, you can use your phone as the controller. An optional **HD Multimedia Dock** gives you a remote control, and lets you connect your HDMI display and USB keyboard. Docks let you connect headphones or speakers too.
Webtop Application

Connect the webtop application
The webtop application lets you browse, or use web apps, on a large screen in a full Firefox browser. Create and share documents, spreadsheets, and presentations, with online tools like Google Docs.

1. Connect your phone to a TV or computer with an optional dock.

2. Choose webtop.
When you’re done using the webtop application, just disconnect your phone from the cable or dock.

Control the webtop application
If you connect your phone to a TV or computer with an optional HD Multimedia Dock, you can also connect your USB keyboard and mouse. An optional Lapdock™ includes a full display, keyboard, and touchpad.

To navigate the webtop application display:
• In the Phone window, you can open your phone apps.
• At the bottom of the screen, you’ll see **App Shortcuts**.
  You can open multiple Firefox browsers 🌐.

• In the top right of the screen, you’ll see **icons for status and 🌐 Settings**.
  For help in the webtop application, open **Settings > Help** in the top right of the screen.

---

**Text Entry**

**Touchscreen Keypad**

To open a keypad, touch a text field, or touch and hold Menu (งง). To close the keypad, touch Back (งง).

**Tip:** Turn your phone sideways for a larger keypad.
To change the **Input method** to **Multi-touch keyboard** or **Swype**, touch and hold a blank spot in the text box.

**Swype™ text entry**

Swype text entry lets you drag your finger over the letters of a word, in one continuous motion.

To enter a word, just trace a path through the letters.

To capitalize, go above the keypad. For double letters, circle the letter.

**Tips:**

- To enter apostrophes in common words (like “I’ll”), drag through the **n** as though it was an apostrophe.
- To enter several symbols, touch **SYM**.
- To highlight a word, double-tap it. Then, touch and hold the highlight for options like cut, paste, or to add the word to your dictionary.
- If Swype doesn’t know a word, you can still touch the letter keys to enter it.

**Text Entry Settings**

When you use the touchscreen keypad, your phone suggests words from your dictionary and chosen language. Your phone also automatically enters apostrophes in some words, like “don’t.”

**Find it:** Menu > **Settings** > **Language & keyboard**
• To edit your dictionary, touch User dictionary.

• To change the language and the style for your touchscreen keypad, touch Select locale.

• To change the sounds, corrections, and other settings for your touchscreen keypad, touch Multi-touch keyboard.

Voice Input & Search

Voice Input
You can touch the voice icon \( \text{\textphoneicon{}} \) on the display keypad to speak text or names.

Voice Dial
To use voice dial, touch \( \text{\textphoneicon{}} \) Dialer \( \rightarrow \) . Then, say “Call,” and a phone number or a name from your Contacts.

Voice Search
To search by voice, touch the voice icon on a Search widget.
Your phone searches your apps, Contacts, and the Web. To change
search settings, touch Menu > Settings > Search.

Ringtones & Settings

Quick Start: Ringtones & Settings

You can customize sound and display settings:

• To change your ringtone and sounds, touch Menu > Settings > Sounds.
  To use a song as a ringtone, touch > Music, touch and hold the song name, then touch Use as phone ringtone.

• To change your display settings, touch Menu > Settings > Display. Notification LED is the green flashing light at the top of your phone.

• To set notifications for different message types, touch > Messaging > Menu > Messaging Settings > Text Messaging, Email, or Social Messaging.
• To switch to silent mode when you have Screen lock turned on, you can slide the silence switch on the unlock screen.

Date & Time
Set your date, time, time zone, and formats:
Find it: Menu > Settings > Date & time

Language & Region
Set your menu language and region:
Find it: Menu > Settings > Language & keyboard > Select locale

Contacts
Quick Start: Contacts
Find it: Contacts

In your contacts list:
• To edit a contact, open it and touch Menu > Edit.
• To call, send a message, or more, touch and hold a contact.
• To search, touch Search then type a name.

Transfer contacts
Only MOTOBLUR syncs and merges friends from your social networking accounts, together with your work and personal email contacts, into a single phonebook. All you need to do is add your accounts to MOTOBLUR, and it will handle the rest!

• To add your email or social networking accounts to MOTOBLUR, see “Add Accounts” on page 25.

Tip: If you add a Corporate Sync account, you can send messages to your coworkers, even if you don’t have them stored in your contacts.

• To import contacts from your SIM card (if that didn’t happen automatically), touch

Contacts, then touch Menu > More > Import/Export > SIM card.

• To transfer contacts from anything else, export them into a .CSV file on a computer. Then, log into your MOTOBLUR account and import the .CSV file at www.motorola.com/mymotoblur.

Tip: For more help with transferring contacts, go to www.motorola.com/TransferContacts.

Call, Text, or Email Contacts
Find it: Contacts
Touch and hold the contact to call, send a message, or other options.

View & Use Contacts
With a MOTOROLA ATRIX 4G, you’ll know what everybody’s up to and when. Every time you pick up a call, check a message, or look up a friend’s contact info, sure, you’ll see their name and number, but
you’ll see their social network status and smiling face, too.

**Find it:** ✉️ Contacts

- To show a group (**All contacts**, **Facebook**, and so on) touch the current group name at the top.

**Tip:** To change which account provides the pictures for your **Contacts**, from the home screen touch ☑️ > ✉️ Accounts > Menu 🔗 > **Picture Source**.

- To show another view, flick left or right.
- To find a contact, touch and hold Menu 🔗 to open a keypad, then type the name.

Touch a contact to open their details. To start a call or message, just touch their phone number or other info.

**Tip:** To add a shortcut to one of your contacts, touch and hold a blank spot on your home screen and then touch **Motorola widgets** > **Contact quick tasks**.

**Edit or Delete Contacts**

**Find it:** ✉️ Contacts

Touch the contact, then touch Menu 🔗 > **Edit** or **Delete**. To delete only one of multiple numbers for a contact, touch the - next to the number, then touch the trash can. You can set a ringer, address, and other details that will be saved on your phone and your MOTOBLUR account.

**Where are contacts edited or deleted?**

Your phone edits the contacts in its memory, and also updates your MOTOBLUR account. Your changes won’t affect your SIM card.
Link Contacts
You might have two Contacts for the same person, maybe a Facebook® friend who is also stored on your SIM card, or one friend with two email addresses. To combine these two contacts:

Find it: Contacts
Touch a contact to open it, then touch Menu > Link contact and touch the second entry. Your MOTOBBLUR account remembers this connection.

Create Contacts
Find it: Contacts > Menu > Add contact
Enter contact details, then touch Save.

Save recent calls as contacts
To save a recent call as a contact, touch Dialer > Recent, touch the call, then choose Add to contacts.

Synchronize Contacts
When you change one of your Contacts, your phone automatically updates your MOTOBBLUR account online. Also, your phone updates your Contacts and MOTOBBLUR account whenever you change a friend in your social networking accounts.
So, you don’t have to do anything to synchronize your Contacts with your other accounts! MOTOBBLUR takes care of it for you.
Tip: Your phone works best if you have fewer than 2,000 Contacts.

My Details
Find it: Contacts > Menu > My info
To edit details, touch Menu > Edit.
Social Networking

Add Accounts

When you add social networking accounts (like Facebook or MySpace) to MOTOBLUR, friends appear in your phone’s Contacts, and updates appear in Social Status and Social Networking widgets.

Find it: Accounts > Add account

Sign into your social networking account with the user name or email and password you set up on that account (the same as on your computer). If you don’t have accounts, you can visit their websites to set them up.

Note: Your network or other factors might affect the speed of widget updates. To download updates faster, try “Wi-Fi Networks” on page 47.

Groups

You can put your Contacts into groups that you create (like “friends,” “family,” or “work”). Then, you can find contacts faster by showing one group at a time.

To create a group in your Contacts, touch Menu > Display group > Create new group. Enter a group name, then touch Add to add members.

To show only one group in your Contacts, touch Contacts at the top of your screen and choose the group name.
Update Your Status
To update your status, just touch a **Social Status** widget and enter text. If you have more than one account, you can use the pull-down menu to limit which accounts are updated.

To add a **Social Status** widget, touch and hold a blank spot on your home screen, then touch **Motorola widgets**.

View Account Updates & Features
After you add a social networking account to MOTOBLUR, you can see and respond to friends’ updates with a **Social Networking** widget on your home screen.

When you touch a **Social Networking** widget to open it, you can touch Menu to choose accounts for the widget, or touch the profile pic to open response options.

To add a **Social Networking** widget, touch and hold a blank spot on your home screen, then touch **Motorola widgets**.
Edit & Delete Accounts
Find it:  > Accounts
Touch and hold an account, then touch Open account to edit it, or touch Remove account to remove it (along with its contacts and messages).

Email & Text Messages
Quick Start: Email & Text Messages
Find it:  > Messaging > Universal Inbox

In your inbox:
• To create an email, text, or other message, touch +. Choose the message type, then enter the recipient and message. In text messages and emails, touch Menu for options.
• To forward, save attachments, or use other options for a text message, open it, then **touch and hold** it.

• To enter names and text with **voice recognition**, just touch a text box, then touch on the display keypad.

**Tip:** To turn on/off the green notification light that flashes at the top of your phone, touch **Menu > Settings > Display > Notification LED**.

**Please don’t text and drive.**

**Read & Reply to Messages**

Every text, email, friend-feed, wall post, and bulletin is automatically delivered to you, ready for your immediate reply with the keypad. The best part is you don’t have to dig through any apps, screens or menus—every message streams right to the phone, viewable exactly the way you want.

**Find it:** 📞 > 💌 Messaging > Universal Inbox

**Note:** **Universal Inbox** shows all of your messages together—text, email, and social networking messages. To change this, touch **Menu 🍀 > Edit Universal Inbox**. To show only one type of message, touch a message account type instead of **Universal Inbox**.

• To open a message, touch it.

• To respond to a message, just open it and enter your response in the text box at the bottom.

To forward a text message, touch and hold a message in the conversation, then touch **Forward message**.

For email, touch 📧 to choose a reply or forward option.
• To open options, touch and hold a message.

Tip: When you open a text message in your a Messages widget, touch ☞ to open the conversation so that you can turn your phone sideways for a larger touchscreen keypad.

Create Messages

Find it: ☐ > Messaging > +

Choose a message type. Then, enter the recipient and message. In text messages and emails, touch Menu ☰ for options like Attach Files.

Send & Receive Attachments

To send a file in a message, open a new message and touch Menu ☰ > Attach Files.

When you receive a message with an attachment, open the message and touch the file name to download it. Then, touch the name again to open it. Some file formats can be converted to HTML for faster viewing, and your phone will show a button that says Get HTML version.

Tip: To send and receive large attachments faster, “Wi-Fi Networks” on page 47.

Set Up Email

To add email accounts, touch ☐ > Accounts > Add account.

• Email is for most personal and other accounts that are not on a Microsoft® Exchange Server.

To sign into your account, use the user name or email and password that you set up on that account (the same as on
your computer). For account details, contact the account provider.

When you sign into your account, you may see your friends and contacts in your **Contacts** list.

- **Corporate Sync** is for work email accounts on a Microsoft® Exchange Server. Enter your user and server details from your business IT department.

  **Note:** This requires an enterprise data plan. Some work accounts might require you to add a password lock to your phone for security.

To change your settings, touch 📞 > 📩 Messaging > Menu (≡).

- **Manage accounts** to change your user name or password (or server settings for email).

- **Edit Universal Inbox** to choose which accounts show messages in the **Universal Inbox**

- **Messaging Settings** to set the notification for each account type (along with other preferences for email).

**To get Gmail™** in your **Messages** widget and **Universal Inbox**, you’ll need to add it as an **Email** account: Touch **Messaging Settings** > **Add account** > **Email** and enter your Gmail™ details. If you added your **Google** account too, turn off its email sync to avoid duplicate email notices: Touch 📞 > Accounts, touch your Google™ account, and touch the checkmark to turn off **Gmail**.

**Tip:** For social network accounts, see “Add Accounts” on page 25.

**Instant Messages**

Find it: 📞 > 📞 IM

You can also use:
• Google Talk™: Touch 📞 > 📞 Talk. To find out more, visit www.google.com/talk
• Web browser: Touch 📦 > 📦 Browser > Menu 📦, then enter your IM provider’s website. Once you’re there, follow the link to sign in.

**Note:** Your IM options will depend on your IM provider. To search for instant messaging apps, touch 📦 > 📦 Market.
To open camera Settings, touch Menu ( ). You can use a memory card to store even more.

After you take a photo, touch the screen:

• To set the photo as a wallpaper, contact photo, or social network profile photo, touch Set as.

• To send the photo in a message or post it online, touch Share. For more info on sharing your photos, see “Share Your Photo Gallery” on page 33.

• To post the photo in your online album, touch Quick upload.

• To delete the photo and return to the viewfinder, touch Delete.

Photo Options

In the viewfinder, touch Menu ( ) > Settings to open the camera menu:

<table>
<thead>
<tr>
<th>options</th>

View Your Photos

**Find it: 📷 > 📷 Gallery**

To play a slideshow, touch 📷 > 📷 Gallery, touch a picture, then touch 🎥 to start a slideshow. To stop the slideshow, touch the display. To return to the gallery, touch Back 👉.

**Share Your Photo Gallery**

**Find it: 📷 > 📷 Gallery**

To send your photo in a message or post it online:

1. Touch and hold a thumbnail image, then touch Share.
2. Choose how you want to share.
   **Tip:** With MOTOBLUR - Photo sharing you can post a photo to more than one social network at the same time.

**Manage Your Photos**

**Find it: 📷 > 📷 Gallery**

Touch and hold a thumbnail image, then:
- To delete the photo, touch Delete.
- To set the photo as a contact picture, social network profile picture, or wallpaper, touch Set as.

**Tip:** To copy photos to/from a computer, go to “USB Drag & Drop” on page 51.

**Edit Your Photos**

**Find it: 📷 > 📷 Gallery > picture > Menu 📜 > Edit**
You can choose advanced editing features to resize, crop, or change the picture color.

**Videos**

Find it: 📹 > 🎥 Camcorder

Before you record a video to send in a message, touch Menu 📷 > Settings > Video Resolution > Medium (QVGA).

After you record a video, touch the screen:

- To **play** the video, touch the screen again.
- To **send** the video in a message or post it online, touch **Share**. For more info on sharing your videos, see “Share Your Video Gallery” on page 34.
- To **delete** the video, touch **Delete**.

**Play Your Videos**

Find it: 📹 > 🎥 Gallery > video

**Share Your Video Gallery**

Find it: 📹 > 🎥 Gallery

To send your video in a message or post online:

1. Touch & hold a video, then touch **Share**.
2. Choose how you want to share.
Manage Your Videos

**Find it:** 📸 > 📸 **Gallery**

To delete a video, touch and hold a video, then touch **Delete**.

---

**Apps**

**App Menu**

The app menu shows you all of your applications. To open it from the home screen, touch 📱. To close it, touch 📱 again.

**Tip:** To find an app in the app menu, touch and hold Menu 📉 to open a display keypad, then type the app name.

Your phone can tell you when there’s an updated app or other phone software. To install the update, just follow the instructions on your screen.

**Recent Apps**

Touch and hold Home 🏡 to see the last few apps you used, then touch the app you want. Touch Home 🏡 to return to the home screen.
Android Market™
Find it: 📱 > Market

Android Market offers quick, easy access to a wide variety of applications developed specifically for the Android platform. These have been created by developers all around the world, and have been rated by your fellow Android users.

In Market:

- To find an app, touch the search icon or Menu 📊 > Search. To download, touch the app.
- To reinstall downloaded apps or load your apps on a new device, touch Downloads.
- To get help, touch Menu 📊 > Help.

To manage or remove apps on your phone, touch Menu 📊 > Settings > Applications > Manage applications. Touch an app in the list, then touch Uninstall (for apps you downloaded), Clear cache, or other options.

If you have trouble removing an app, turn off your phone, then turn it back on—when you see the “Motorola” logo during power-up, press and hold both volume keys. Your screen will show Safe Mode in the lower left corner, and you can remove the app.
Update My Phone

You can check, download, and install phone software updates.

You may get an automatic notification of an available update on your phone. Simply follow the instructions to download and install.

To manually check for updates, touch Menu (Ellipses) > Settings > About phone > System updates.

Your phone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don’t have an appropriate data plan, or mobile network updates are not available in your country, you can update using a computer.

Location Apps (GPS)

AT&T Navigator

**AT&T Navigator**, with GPS-enabled directions, gives you turn-by-turn voice and on-screen driving directions, navigates around traffic congestion with automatic re-routing. Plus you can locate and navigate to restaurants, Wi-Fi® hotspots, and more, from more than 10 million business listings.

**Note:** AT&T Navigator requires a separate subscription, and performs best with a vehicle adaptor and an antenna mounted on a window without heavy UV sun protection.

**Find it:** 📱 > 🌐 AT&T Navigator

1. Enter your (mobile) phone number, name, and AT&T Navigator PIN, then touch Login.
You received your AT&T Navigator PIN in a text message when you activated your subscription. To activate a subscription, visit att.com/navigator.

2. After you log in, touch **Drive To**.
3. Touch **Address**, then touch **Type It**.
4. Enter the address for your destination. AT&T Navigator validates the address and generates your route.

For details about **AT&T Navigator**, contact AT&T.

---

**AT&T Features & Services**

**Features & Services**

- **AT&T Navigator™**—Get driving directions quickly and conveniently. AT&T Navigator requires a separate subscription.

- **AT&T Code Scanner**—View mobile web sites & video clips, get coupons or learn more about your favorite products using 2D QR and Data Matrix barcodes as well as 1D UPC codes that you find in magazines, in stores, and online.

- **U-verse Mobile Live TV**—Transform your phone into a wireless TV. U-verse Mobile Live TV requires a subscription and data plan, and is not available in all areas. Programs are subject to change.

**More Information**

For information on setting up or using these services, visit att.com/Tutorials. To
add these services, contact your local AT&T store or call 1-800-331-0500.

Quick Start: Browser
Find it: 📱 > 🌐 Browser

The ATRIX 4G has an Adobe® Flash® Player for rich web browsing any time.

To go to a web page in the browser, touch Menu 📱, then enter the URL address in the box at the top of the screen. In your home screen, you can enter an address in a Search widget.

A 📱 at the right of the address bar means you can add the page’s RSS news feed to
a **News** app or widget: Touch Menu ➤ **More** ➤ **RSS Feeds**.

**Connect**

Your phone uses the mobile phone network (over the air) to automatically connect to the web.

**Note:** Your service provider may charge to surf the web or download data.

To use a wireless network, touch Menu ➤ **Settings** ➤ **Wireless & networks**. Touch Wi-Fi to turn it on, then touch Wi-Fi settings to search for nearby wireless networks. Touch a network to connect. There’s more in “Wi-Fi Networks” on page 47.

---

**Web Touchscreen Tips**

**Zoom**

To zoom in or out, slide two fingers apart or together

**Browser Options**

Touch Menu ➤ to see browser options:

<table>
<thead>
<tr>
<th>options</th>
<th>description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Bookmarks</strong></td>
<td>Shows a list of your bookmarks. Touch <strong>Add bookmark...</strong> to add the current page to your list.</td>
</tr>
<tr>
<td><strong>New window</strong></td>
<td>Opens a new window.</td>
</tr>
<tr>
<td><strong>Refresh</strong></td>
<td>Reloads the current page.</td>
</tr>
</tbody>
</table>
Download Apps

Note: All apps downloaded are stored in your phone memory.

To download apps:

1. If you want to download apps from any web page, touch Menu > Settings > Applications > Unknown sources.

2. To launch the browser, touch > Browser.

3. Find the app you want to download and touch the download link.

Manage Your Downloads

To view files or applications you have downloaded, touch > Browser > More > Downloads.

To clear your download history, touch Menu > Clear list. To cancel, touch Menu > Cancel all downloads.
Music

Quick Start: Music
Just open your music library and choose what you want.

Find it: 📱 > 📱 Music, then choose a song

Tip: Add the current song to a playlist by touching Menu 📊 > Add to playlist.

Things You Need
To put music on your computer and then load it on your phone, you need a:

- **Computer:** Microsoft® Windows® PC, or Apple® Macintosh®
- **Cable:** USB data cable, to connect your phone and computer
- **Music:** Your phone can play MP3, M4A, AAC, ACC+, MIDI, WAV, and OGG Vorbis files. Your phone does not support DRM protected files.
- **Headphones:** You can go wireless with Bluetooth® stereo headphones or speakers (see “Wi-Fi®, DLNA™ & Bluetooth® Connections” on page 46).

Get Music

Import a CD to Create Music Files
You can import (rip) a CD to create music files on your computer, then transfer the music files to your phone’s memory. To do this, you can use Microsoft® Windows® Media Player (see www.microsoft.com).
1. On your computer, open Windows Media Player.

2. Insert a music CD into the computer’s CD ROM drive.

   **Note:** Make sure you change the format to MP3 in “Tools > Options > Rip Music (tab) > Format MP3”.

3. In the Windows Media Player window, click on the “Rip” tab.

4. Highlight the songs you want to import, and click “Start Rip”.

The songs are imported to the Windows Media Player Library.

**Transfer Music Files to Your Phone**

You can transfer music files from a computer to your phone’s memory with Windows® Media Player.

**Tip:** To transfer music files with other programs, see “Memory Card & USB” on page 51.

**Note:** Copyright—do you have the right? Always follow the rules. See “Content Copyright” in your legal and safety information.

1. Connect a Motorola micro USB data cable from your phone’s micro USB port to a USB port on your computer. Your phone should show ☘ in the status bar.

   **Note:** Your phone supports Microsoft® Windows® XP, Windows Vista®, and Apple® Macintosh®. Other operating systems may not be compatible. If your computer needs to download drivers for your phone, visit [www.motorola.com/support](http://www.motorola.com/support). If a camera connection window opens, just close it.

2. Your phone shows a USB connection dialog. Touch **USB drive**.

3. On your computer, open Windows Media Player.

5. Select “Properties”, check the “Create folder hierarchy on device” box, and click “OK”.

6. Drag your music files over to the “Sync List” and touch “Start Sync”.

Transfer Music Files with My Computer

You can transfer music files from a computer to your phone’s memory with My Computer.

1. Connect a Motorola micro USB data cable from your phone’s micro USB port to a USB port on your computer. Your phone should show \(\mathfrak{\Upsilon}\) in the status bar.

Note: Your phone supports Microsoft® Windows® XP, Windows Vista®, and Apple® Macintosh®. Other operating systems may not be compatible. If your computer needs to download drivers for your phone, visit www.motorola.com/support. If a camera connection window opens, just close it.

2. Your phone shows a USB connection dialog. Touch \textbf{USB drive}.

3. Find “Removable Device” (your phone) in the “My Computer” window.

4. Drag and drop your music to a folder on your phone.

Tip: To help manage your music, create a “Music” folder on your phone.

5. When you’re done, use the “Safely Remove Hardware” feature to finish.

Play Music

Music Library

Open your music library, then select what you want to play.

Find it: \(\mathfrak{\Upsilon} > \mathfrak{\Upsilon} \text{Music}\)
Your music is stored by artists, albums, songs, and playlists. Touch a category, then touch the song or playlist you want to play. Touch Menu 📇 > **Party shuffle** to randomly play all your songs, or touch **Search** to look for a song.

### Music Player Controls

**Tip:** You can purchase a Motorola car dock to turn your phone into an on-board navigator, handsfree device, music player and more, all while recharging it. Follow the dock’s instructions to dock your phone. Then, touch 📇 > CarDock and choose an option before you drive.
Hide, Wake, Turn Off

Touch Home (HOME) to use another app. Your music continues to play.

When you see (PLAY) in the status bar a song is playing, flick down to see details. Touch the song to return to the music controls.
To turn off your music touch (STOP).

Playlists

To add a song from the music library to a playlist, touch and hold the song then touch Add to playlist. Choose an existing playlist, or touch New to create a new playlist.

To add a song to the playlist you’re playing, touch Menu (MENÚ) > Add to playlist in the music player.
To edit, delete and rename playlists, touch and hold the playlist in the music library.

Wi-Fi®, DLNA™ & Bluetooth® Connections

Quick Start: Wireless

Find it: Menu (MENÚ) > Settings > Wireless & networks

• In Wi-Fi settings:

Connect to a Wi-Fi network for fast Internet access and downloads. You can connect to DLNA Certified devices on
the network to share media files: > Media Share.
See [www.attwifi.com](http://www.attwifi.com) for terms, conditions & charges.

• In **Bluetooth settings**:
  Touch **Bluetooth** to turn it on and scan for a Bluetooth headset or car kit, then touch a device that was found to connect it.

• In **Mobile hotspot**:
  Make your smartphone a mobile hotspot to share broadband with up to 8 Wi-Fi enabled devices. This requires an appropriate data plan with tethering.

**Tip:** Airplane mode turns off your Bluetooth, Wi-Fi, and network connections—useful when flying. Press and hold Power > **Airplane mode**.
When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth power back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region’s emergency number (e.g., 911) can still be made.

**Wi-Fi Networks**

**Note:** Your phone comes with Wi-Fi power turned on. To turn it off, touch Menu > **Settings** > **Wireless & networks** > **Wi-Fi**.

**AT&T Wi-Fi Hot Spots:** Access high speed Internet at Wi-Fi speeds in over 20,000 AT&T Wi-Fi Hot Spots. They are easy to use. Just follow these easy steps:

1. Make sure Wi-Fi power is on and walk into an AT&T Hot Spot. If you need to turn on Wi-Fi power, touch Menu > **Settings** > **Wireless & networks** > **Wi-Fi**.

Wi-Fi®, DLNA™ & Bluetooth® Connections
2. Touch 🌐 > 🏛️ Browser > Menu 📦 > Go, then type a website address.

   To use some AT&T services, you might need to turn off Wi-Fi® power.

AT&T Hot Spot Locator: To find Hot Spots, touch 🌐 > 🛍️ AT&T Wi-Fi Hot Spots, or visit [www.attwifi.com](http://www.attwifi.com) and select “Find a Hotspot.”

Standard Wi-Fi networks: You can still connect when AT&T Wi-Fi Hot Spots aren’t available:

1. Touch Menu 📦 > Settings > Wireless & networks > Wi-Fi settings.
2. Touch Wi-Fi to turn on and scan. If Wi-Fi is already on, touch Menu 📦 > Scan.

   Your phone lists the networks it finds within range.

   Tip: To see your phone’s MAC address or other Wi-Fi details, touch Menu 📦 > Advanced.

3. Touch a network to connect. If necessary, enter pass codes from the network administrator and touch Connect.

   When Wi-Fi power is on and your phone finds a network you’ve used, it automatically reconnects and shows 📡 in the status bar.

   To turn off Wi-Fi power: Touch Menu 📦 > Settings > Wireless & networks > Wi-Fi.

   Tip: Turn off Wi-Fi power to extend battery life or stop connections. Turn it off and on to search for networks.

   To add a quick switch, touch and hold a blank spot on your home screen, then touch Motorola widgets > WiFi toggle.

Note: Your phone’s Wi-Fi features and power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use
the Wi-Fi features in France unless you are indoors.

**DLNA™ Media Devices**

You can use DLNA Certified computers, TVs, and other devices to play or transfer the videos, pictures, and music stored on your phone. For more about DLNA (Digital Living Network Alliance), visit [www.dlna.org](http://www.dlna.org).

1. Make sure your phone and another DLNA device are both connected to the same Wi-Fi® network.

2. Touch 📹 > Media Share

3. Follow the prompts to connect your phone to the other DLNA device.

   **Tip:** To reconnect later, you can just touch 📹 > DLNA

**Bluetooth Handsfree Devices**

**Note:** This feature requires an optional accessory.

---

Find it: Menu 📱 > Settings > Wireless & networks > Bluetooth settings

- Turn on & scan
- Change your phone’s Bluetooth name
- Let Bluetooth devices find your phone
- Connect

To connect with a new device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.

1. Make sure the device you are pairing with is in discoverable mode.

   Refer to the guide that came with the device for details.
2. In **Bluetooth settings**, touch **Bluetooth** to turn on and scan. If Bluetooth power is already on, touch **Scan for devices**.

3. Touch a device to connect.

4. If necessary, touch **OK** or enter the device passkey (like **0000**) to connect to the device. When the device is connected, the Bluetooth indicator 📡 appears in the status bar.

**Note:** Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

After you connect:

- To **reconnect** with a device, turn on the device or touch the device name in the **Bluetooth devices** list.
- To **disconnect** a device, turn off the device or touch the device name in the devices list and touch Menu 📁 > **Disconnect**.

- To **turn off** Bluetooth power, touch Menu 📁 > **Settings** > **Wireless & networks** > **Bluetooth**.

  **Tip:** Turn off Bluetooth power to disconnect devices, extend battery life, or stop connections. To add a quick switch, touch and hold a blank spot on your home screen, then touch **Motorola widgets** > **Bluetooth toggle**.

**Note:** Your phone’s Bluetooth features and Bluetooth Class 1 power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use the Bluetooth features in France unless you are indoors.
Memory Card & USB

Memory Card
You can add more space to store videos, music, and other files by installing a removable microSD memory card.

To manage memory card files, touch > Files. Touch a file or folder to open, touch and hold a file to Delete or Share.

Note: Do not remove your memory card while your phone is using it or writing files on it.

Before you remove or format your memory card you need to unmount it. Touch Menu > Settings > SD card & storage > Unmount SD card.

To format your memory card, touch Format SD card.

Warning: All data on your memory card will be deleted.

USB Drag & Drop

Note: This feature requires an optional accessory.
You can use a USB cable to transfer your pictures, videos, music, ringtones and more, from your computer to the memory card in your phone:

1. Connect a Motorola micro USB data cable from your phone’s micro USB port to a USB port on your computer.

Note: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer. If a camera connection window opens, just close it. If your computer needs to download drivers for your phone, visit www.motorola.com/support. If a camera connection window opens, just close it.

2. Your phone should show in the status bar. Flick down the status bar and
touch ♻️ to choose a memory card connection. You should be able to access the memory card from your computer.

3. On your computer, use the “My Computer” window to find “Removable Disk”.

4. Click on the “Removable Disk” icon to access the memory card.

5. Drag and drop your pictures, videos, music, ringtones, and more, to your phone folder. To help manage your files, you can create more folders in your phone folder.

6. When you’re done, use the “Safely Remove Hardware” feature to finish.

Motorola Phone Portal
Your can use Motorola Phone Portal (MPP) to connect your phone and computer with a cable or a Wi-Fi® network. Just connect your phone to your computer over a Wi-Fi network or a USB cable.

Note: Most public Wi-Fi networks (like the ones at coffee shops) don’t let devices connect to each other. In that case, you need a USB connection.

If you use a cable, your computer might install drivers (you can download drivers at www.motorola.com/support). If Motorola MediaLink launches instead, right-click 🖱️ in your task bar, choose to launch MPP when the phone connects, then reconnect your phone to open the MPP home screen.

If you use a Wi-Fi network, touch 📸 > Phone Portal to show an MPP URL that you can
enter in any computer browser on the network to open the MPP home screen!

**Note:** MPP works best with Internet Explorer 7 or newer, with Java script and cookies enabled.

Open your recent activity (Home), Contacts, Photos, Settings, File Manager, or Support.

Show All recent activity, or only your SMS (text messages) or Calls.

### Tools

#### Alarm Clock

**Find it:** 🕒 > 🕒 Alarm & Timer

To turn on an alarm, touch the check box.

To add an alarm, touch Menu (⋮) > Add alarm, then enter alarm details.

To set a snooze period, touch the alarm, then touch Menu (⋮) > Snooze time.

When an alarm sounds, drag Dismiss to turn it off or touch the screen to snooze.

To cancel a snoozed alarm, drag down the status bar and touch the alarm name.

**Tip:** You can purchase a Motorola desk dock to turn your phone into an alarm clock, weather station, music player and more, all while recharging it on your desk.
or night stand. Follow the dock’s instructions to insert your phone. It will show the clock view:

The calendar on your phone can be synchronized with your Google Calendar™.

Add Calendar Events

From any calendar view, touch Menu 📅 > New event. Enter event details and touch Save.

Manage Calendar Events

To edit an event, touch Menu 📅 > Edit event. Edit event details, then when you’re done, touch Save.

To delete an event, touch Menu 📅 > Delete event.

To go to today, touch Menu 📅 > Today.

Calculator

Find it: 📅 > Calculator

Your calculator has two views: basic and advanced. To change your views, touch Menu 📅 > Advanced panel or Basic
panel. To clear history, touch Menu > Clear history.

Accessibility

See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier.

Note: For general information, accessories, and more, visit www.motorola.com/accessibility

Voice recognition

Use your voice—just touch and speak.

- **Dialing and commands**: Touch Voice Commands. To dial, say “Call” and then a contact name or phone number. For other commands, say a command from the list shown, like “Send Text” or “Go To”

- **Search**: Touch and hold Search to open voice search, then say what you want to search for, like “Motorola accessories”.

- **Text entry**: Touch a text entry field to open the touchscreen keypad. Touch , then say what you want to type.

Tip: Speak naturally, but clearly. Use the microphone in a similar way to a speakerphone, so no need to shout or hold the phone close to your mouth.

To change your voice settings, see “Voice settings” on page 56.

Voice readouts (TalkBack)

Note: You may be asked to download additional “text-to-speech” software (data charges may apply).

To turn on voice readouts (similar to TalkBack), touch Menu > Settings > Accessibility. Touch Accessibility to enable the settings, then touch Voice readouts.
• **Menus and screens**: In menus and screens, touch an item to highlight it (the item will be read out loud), and double-touch to choose it.

  **Note**: Touching a home screen widget or shortcut will open it.

• **Dialer & text entry**: As you type, each number or letter is read out loud.

• **Notification**: When you flick the status bar down, all notifications are read out loud.

  **Tip**: Navigate through your apps and menus to hear how voice readouts work on your phone.

To change your voice settings, see “Voice settings” on page 56.

**Caller ID**

When you want to **hear** who’s calling:

• **Read out loud**: Have your caller announced—touch Menu > Settings > Call settings > Caller ID readout.

• **Ringtones**: Assign a unique ringtone to a contact—touch Contacts, open a contact, then touch Menu > Edit. Ringtones are listed under Additional info.

To change your voice settings, see “Voice settings”.

**Voice settings**

Personalize your voice settings:

• **Voice recognition**: Touch Menu > Settings > Voice input & output > Voice recognizer settings. From here, you can set options like language and censorship.

• **Voice commands**: Touch Voice Commands > Menu > Settings. From here, you can refine recognition of
your voice (Adaptation) and set options like prompts and shortcuts.

- **Text-to-speech**: Touch Menu > Settings > Voice input & output > Text-to-speech settings. From here, you can set options like speed and language.

### Volume & vibrate

Choose volume and vibrate settings that work for you. Touch Menu > Settings > Sound:

- **Volume**: Touch Volume and use the sliders.

  **Tip**: To set separate ring and notification volumes, uncheck Use incoming call volume for notifications.

- **Vibrate**: Select Vibrate to feel your phone ring.

### Display brightness

Set a brightness level that works for you. Touch Menu > Settings > Display > Brightness. Make sure that Automatic brightness is unchecked so you can set your own level.

### Touchscreen & keys

All these touch features are great, and sometimes it’s nice to hear or feel your touches too. Touch Menu > Settings > Sound:

- **Touchscreen**: To hear screen touches (click), select Audible selection.

- **Keys**: To feel key touches (vibrate), select Haptic feedback.

- **Screen lock**: To hear when you lock/unlock the screen (click), select Screen lock sounds.
Messages
From a simple text message to IM, email, and more. Create, send, and receive them all, in one place.

Find it: 📮 > 💌 Messaging > Universal inbox

And to make text entry even easier, you can use features like auto-complete, auto-correct, and auto-punctuate—touch Menu 📢 > Settings > Language & keyboard. Of course if you don’t want to type at all, then use your voice—touch 🎤 on the touchscreen keypad.

Hearing aids
To help get a clear sound when using a hearing aid or cochlear implant, your phone may have been rated for use with hearing aids. If your phone’s box has “Rated for Hearing Aids” printed on it, then please read the following guidance.

Note: Ratings are not a guarantee of compatibility, see “Hearing Aid Compatibility with Mobile Phones” in your legal and safety information. You may also want to consult your hearing health professional, who should be able to help you get the best results.

- **Settings**: Touch Menu 📢 > Settings > Call settings > HAC mode settings. Select **Microphone** to optimize your phone for microphone coupling, or select **Telecoil** to optimize your phone for telecoil coupling.
- **Call volume**: During a call, press the side volume keys to set a call volume that works for you.
- **Position**: During a call, hold the phone to your ear as normal, and then
rotate/move it to get the best position for speaking and listening.

TTY
You can use your phone in TTY mode with standard teletype machines. Touch Menu > Settings > Call settings > TTY mode and select the mode you need:

• **TTY full**: Type and read text on your TTY device.
• **TTY HCO**: Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your phone’s speaker.

• **TTY VCO**: Voice-Carry-Over—speak into your phone and read text replies on your TTY device.

**Note**: You’ll need a cable/adapter to connect your TTY device to the headset jack on your phone.
Refer to your TTY device guide for mode and usage information.

Apps
Want more? No problem. Android Market™ provides access to thousands of apps, and many provide useful accessibility features.

**Find it**: Market
Select a category or touch Search to find the app you want.

**Tip**: Choose your apps carefully, from trusted sites like Market, as some may impact your phone’s performance.
Quick Start: Security

Find it: Menu > Settings > Location & security

You have lots of ways to keep your phone safe.

If you lose your phone, you can log into your MOTOBLUR account from a computer to locate your phone or clear the data on it: www.motorola.com/mymotoblur.

Screen Lock

To set your security level, touch Menu > Settings > Location & security > Set up screen lock:

- **Pattern** - draw a pattern to unlock.
- **PIN** - enter a numeric code to unlock
- **Password** - enter a text password to unlock
- **Fingerprints** - swipe your finger across the power key to unlock

**Note:** You can make emergency calls on a locked phone (“Emergency Calls” on page 9). A locked phone still rings, **but you need to unlock it to answer.**
Lock Pattern
To set the lock pattern, touch Menu > Settings > Location & security > Set up screen lock > Pattern.
Follow the instructions to draw your lock pattern.
When prompted, draw the pattern to unlock the phone.

Passcode Lock
To set the passcode, touch Menu > Settings > Location & security > Set up screen lock > PIN.
Enter a numeric code, then touch Continue. Enter the code again to confirm it, and touch OK.
When prompted, enter the numeric code to unlock the phone.

Password Lock
To set the password, touch Menu > Settings > Location & security > Set up screen lock > Password.
Enter a password, then touch Continue. Enter the password again to confirm it, and touch OK.
When prompted, enter the password to unlock the phone.

Fingerprint Lock
To store your fingerprint, touch Menu > Settings > Location & security > Set up screen lock > Fingerprint.
Enter a numeric code (in case of fingerprint recognition problems), then touch Continue. Enter the numeric code again to confirm it, and touch OK.
Follow the display instructions to swipe your finger across the power button, until the phone memorizes your fingerprints.
When prompted, enter the numeric code or swipe your finger to unlock the phone.

**Personalize Your Lock Screen**

To change your timeout, touch Menu > Settings > Display > Screen timeout. If you don’t touch the screen or press any keys for this amount of time, the screen locks automatically. To unlock, see “Lock & Unlock” on page 62.

To change your lock screen picture, touch Menu > Settings > Display > Wallpaper settings.

**Lock & Unlock**

To lock the screen/phone:

- Press Power (0).
- Let the screen time out (don’t press anything).
- Switch the power off.

To unlock the screen/phone, press Power (0), or switch the phone on to display the lock screen.

**Forgot Your Pattern or Passcode?**

In the **passcode** unlock screen, press Menu > Forgot passcode? to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

In the **pattern** unlock screen, after you enter an incorrect pattern five times, you can touch Forgot passcode? to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

**Lock Your SIM**

**Enable SIM PIN**

To lock your SIM (the next time you power up the phone you will need to enter your SIM PIN), touch Menu > Settings > Location & security > Set up SIM card
Lock SIM card. Enter your SIM PIN code.

Caution: If you enter an incorrect PIN code three times, your phone locks your SIM card and asks for your PIN unlock code, contact AT&T.

Change SIM PIN
To change your SIM PIN, touch Menu > Settings > Location & security > Setup SIM card lock > Change SIM PIN.

PUK Code
To unlock your SIM PIN, you need to enter your PIN unlock code (PUK code) when prompted.

Note: Your PUK code is provided by AT&T.

Reset
To reset your phone to factory settings and erase all the data on your phone, touch Menu > Settings > Privacy > Factory data reset > Reset phone.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Lost, Stolen, Broken, Cleared
Don't you just hate it when your life is on your phone and it all goes wrong? Lose it, break it, reset it, or even worse - stolen! Relax, MOTOBLUR can help find your phone, clear it (if you need to) and best of all, restore all your stuff.

Note: You cannot track or clear your phone if it is turned off or broken.

Track Your Phone
To locate your phone:
1. Log into your MOTOBLUR account: www.motorola.com/mymotoblu.
2. On the phone profile page, follow the link to locate your phone.
MOTOBLUR locates your phone using GPS and AGPS.

Remote Clear

To wipe your phone data:

1. Log into your MOTOBLUR account:

2. On the phone profile page, follow the link to delete data.
   
   **Warning:** All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Restore Your Phone

If you lose your phone, don’t worry. Your contacts are backed up on MOTOBLUR.

To restore your contacts and account settings after a reset, remote clear, or on a new MOTOBLUR phone, just log into your existing MOTOBLUR account. Please note that text messages, downloaded applications, call logs, and items stored on your phone will not be restored. To restore your Android Market™ apps, see “Apps” on page 35.
Icons & Battery Life

Icons
At the top of the screen, icons on the left notify you about new messages or events (flick the bar down for details). Icons on the right tell you about phone status:

<table>
<thead>
<tr>
<th>Icon</th>
<th>Status</th>

Things You Can Do

Stop pocket dialing
If you put your phone in your pocket, the touchscreen might get touched and accidentally call people. To avoid this, press Power to put the display to sleep. To wake it up, press Power again. You can also set up “Security” on page 60.

Go home
Touch Home to go to the home screen. There, touch Home again to open the app menu.

Call again
Touch Dialer, then touch the Recent or Favorites tabs.

Open apps again
Touch and hold Home to show the last few apps you used.
### Icons & Battery Life

<table>
<thead>
<tr>
<th><strong>Open apps on a plane</strong></th>
<th>Press and hold Power ( ), then touch <strong>Airplane mode</strong> in the menu.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Open options</strong></td>
<td>Touch Menu (.) to open your options for the current screen.</td>
</tr>
<tr>
<td><strong>Find stuff</strong></td>
<td>Press Search ( ).</td>
</tr>
<tr>
<td><strong>Skip</strong></td>
<td>When you’re in a list like <strong>Contacts</strong>, you can press Scroll ( ) to scroll up and down. To skip to the top or bottom of the list, press Alternate (Alt) &gt; Scroll ( ).</td>
</tr>
</tbody>
</table>

**Note:** In very limited circumstances, such as where your phone has been exposed to extreme heat, a “Cool Down” message will appear. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in “Cool Down” mode, only emergency calls can be made.

To get the most out of your battery, touch Menu ( ) > **Settings** > **Battery Manager** > **Battery mode**, then choose the best mode for you (for details, touch the icons to the right of each mode).

Be aware that the following could reduce battery life between charges:

- recording or watching videos, listening to music or taking pictures.
- widgets that stream information to your home screen, like news or weather (“Use & Change Your Home Screen” on page 10).

### Battery Tips

Your phone is like a small computer, giving you a lot of information and apps, at 3G speed, with a touch display! Depending on what you use, that can take a lot of power.
• GPS use: Touch Menu > Settings > Location & security > Use GPS satellites.

• Wi-Fi® and Bluetooth® use: Touch Menu > Settings > Wireless & networks > Bluetooth or Wi-Fi.

• Email updates: Touch Messaging > Menu > Messaging settings > Email > Get new email > Every hour.

• network searching: If you are out of coverage, to keep your phone from looking for networks, press and hold Power button to open the Power key menu, then touch Airplane mode.

• display brightness: Touch Menu > Settings > Display > Brightness > (dimmer setting).

• display timeout delay: Touch Menu > Settings > Display > Screen timeout > (shorter setting).

Troubleshooting

FAQs

Why can’t I connect my wireless network? Make sure that Airplane mode is off in the power menu (press and hold the Power button).

Why can’t I connect to my 3G network? Try turning your phone off and back on, to make your phone search for the best local network.

Why can’t I hear sound? While you are on a call or playing a media file, press the up volume key up.

Crash Recovery

If your phone stops responding, try a quick reset: Remove the battery (“Assemble & Charge” on page 2), then put it back in and turn on your phone.
Battery Use & Safety

Important: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON’Ts

• Don’t disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
• Don’t let the mobile device or battery come in contact with water.* Water can get into the mobile device’s circuits, leading to corrosion. If the mobile device and/or battery get wet, have them checked by your service provider or contact Motorola, even if they appear to be working properly.*
• Don’t allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
• Don’t place your mobile device or battery near a heat source.* High temperatures can cause the battery to swell, leak, or malfunction.

DOs

• Do avoid leaving your mobile device in your car in high temperatures.*
• Do avoid dropping the battery or mobile device.* Dropping these items, especially on a hard surface, can potentially cause damage.*
• Do contact your service provider or Motorola if your mobile device or battery has been damaged from dropping or high temperatures.

* Note: Always make sure that the battery compartment is closed and secure to avoid direct exposure of the battery to any of these conditions.

Important: Use Motorola Original products for quality assurance and safeguards. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a “Motorola Original” hologram.

Motorola recommends you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with Motorola batteries. If you see a message on your display such as Invalid Battery or Unable to Charge, take the following steps:
• Remove the battery and inspect it to confirm that it has a “Motorola Original” hologram;
• If there is no hologram, the battery is not a Motorola battery;
• If there is a hologram, replace the battery and try charging it again;
• If the message remains, contact a Motorola authorized service center.

Important: Motorola’s warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:
• www.motorola.com/recycling
• www.rbrc.org/call2recycle/ (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery Charging

Notes for charging your product’s battery:
• During charging, keep your battery and charger near room temperature for efficient battery charging.
• New batteries are not fully charged.
• New batteries or batteries stored for a long time may take more time to charge.
• Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Driving Precautions

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws and regulations on the use of these products.

While driving, NEVER:
• Type or read texts.
• Enter or review written data.
• Surf the web.
• Input navigation information.
• Perform any other functions that divert your attention from driving.

While driving, ALWAYS:
• Keep your eyes on the road.
• Use a handsfree device if available or required by law in your area.
• Enter destination information into a navigation device before driving.
• Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available.
• Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
• End your call or other task if you cannot concentrate on driving.

Remember to follow the “Smart Practices While Driving” in this guide and at www.motorola.com/callsmart (in English only).

Seizures/Blackouts
Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing videos or games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing videos or games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are tired.

Caution About High Volume Usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:
• Limit the amount of time you use headsets or headphones at high volume.
• Avoid turning up the volume to block out noisy surroundings.
• Turn the volume down if you can’t hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked.

For more information about hearing, see our Web site at direct.motorola.com/hellomoto/nss/AcousticSafety.asp (in English only).

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your
hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician.

[Nov0109]

Small Children

Keep your mobile device and its accessories away from small children. These products are not toys and may be hazardous to small children. For example:
• A choking hazard may exist for small, detachable parts.
• Improper use could result in loud sounds, possibly causing hearing injury.
• Improperly handled batteries could overheat and cause a burn.

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres

Areas with potentially explosive atmospheres are often, but not always, posted and can include fueling areas, such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, or mobile device may contain symbols, defined as follows:

<table>
<thead>
<tr>
<th>Symbol</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>!</td>
<td>Important safety information follows.</td>
</tr>
<tr>
<td>☢</td>
<td>Do not dispose of your battery or mobile device in a fire.</td>
</tr>
<tr>
<td>🔄</td>
<td>Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.</td>
</tr>
<tr>
<td>☢️</td>
<td>Do not dispose of your battery or mobile device with your household waste. See “Recycling” for more information.</td>
</tr>
<tr>
<td>🏡</td>
<td>For indoor use only.</td>
</tr>
</tbody>
</table>
Radio Frequency (RF) Energy

Exposure to RF Energy
Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits. Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions
For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:
• When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
• If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by Motorola, keep the mobile device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.
• Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our Web site at: www.motorola.com.

RF Energy Interference/Compatibility
Nearly every electronic device is subject to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some circumstances, your mobile device may cause interference with other devices.

Follow Instructions to Avoid Interference Problems
Turn off your mobile device in any location where posted notices instruct you to do so.
In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices
If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device.
Persons with implantable medical devices should observe the following precautions:
• ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable device and its antenna.
medical device when the mobile device is turned ON.
• DO NOT carry the mobile device in the breast pocket.
• Use the ear opposite the implantable medical device to minimize the potential for interference.
• Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

Specific Absorption Rate (IEEE)
Your model wireless phone meets the governmental requirements for exposure to radio waves. Your mobile device is a radio transmitter and receiver. It is designed and manufactured to not exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed for the safety of all persons, regardless of age or health, and to account for any variations in measurements.

The exposure standard for mobile devices employs a unit of measurement known as the Specific Absorption Rate (SAR). The IEEE SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 watts per kilogram (W/kg), averaged over one gram of tissue. Tests for SAR are conducted using procedures accepted by the FCC and by Industry Canada with the mobile device transmitting at its highest certified power level in all tested frequencies. Although the SAR is determined at the highest certified power level, the actual SAR level of the mobile device while operating can be below the maximum value. This is because the mobile device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station, the lower the power output.

Before a mobile device is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) submitted to the FCC and available for review by Industry Canada. The highest SAR value for this mobile device when tested for use at the ear is 1.47 W/kg, and when worn on the body, as described in this guide, is 1.35 W/kg. The SAR value for this mobile device in its data transmission mode
(body-worn use) is 1.35 W/kg. Body-worn measurements can differ, depending upon available accessories and regulatory requirements. The SAR information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product. While there may be differences between the SAR levels of various mobile devices and at various positions, they meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products; in all cases, products are designed to be within the guidelines. Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site: http://www.phonefacts.net or the Canadian Wireless Telecommunications Association (CWTA) Web site: http://www.cwta.ca

Information from the World Health Organization
“A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established for mobile phone use.”
Source: WHO Fact Sheet 193
Additional information: http://www.who.int/emf

European Union Directives Conformance Statement

Hereby, Motorola declares that this product is in compliance with:
- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives

The above gives an example of a typical Product Approval Number.
You can view your product’s Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the Product Approval Number from your product’s label in the “Search” bar on the Web site.

FCC Notice to Users
The following statement applies to all products that have received FCC approval. Applicable
products bear the FCC logo, and/or an FCC ID in the format FCC ID:xxxxxx on the product label. Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user’s authority to operate the equipment. See 47 CFR Sec. 15.21. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3). This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Notice to Users
Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5. This Class B digital apparatus complies with Canadian ICES-003.

GPS & AGPS
Your mobile device can use Global Positioning System (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device. Your mobile device can also use Assisted Global Positioning System (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider’s network and therefore airtime, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.
Your Location
Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls
When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location. AGPS has limitations and might not work in your area. Therefore:
• Always tell the emergency responder your location to the best of your ability; and
• Remain on the phone for as long as the emergency responder instructs you.

Performance Tips
• Go outside and away from underground locations, covered vehicles, structures with metal or concrete roofs, tall buildings, and foliage. Indoor performance might improve if you move closer to windows, but some window sun shielding films can block satellite signals.
• Move away from radios, entertainment equipment, and other electronic devices.

Navigation
When using navigation features, note that mapping information, directions and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Smart Practices While Driving
Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas—for example, handsfree use only may be required. Go to www.motorola.com/callsmart (in English only) for more information. Your mobile device lets you communicate by voice and data—almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first
responsibility. If you choose to use your mobile device while driving, remember the following tips:

- **Get to know your Motorola mobile device and its features such as speed dial, redial and voice dial.** If available, these features help you to place your call without taking your attention off the road.

- **When available, use a handsfree device.** If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original handsfree accessories available today.

- **Position your mobile device within easy reach.** Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voicemail answer it for you.

- **Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions.** Rain, sleet, snow, ice, and even heavy traffic can be hazardous.

- **Do not take notes or look up phone numbers while driving.** Jotting down a “to do” list or going through your address book takes attention away from your primary responsibility—driving safely.

- **Dial sensibly and assess the traffic; if possible, place calls when your car is not moving or before pulling into traffic.** If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue.

- **Do not engage in stressful or emotional conversations that may be distracting.** Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.

- **Use your mobile device to call for help.** Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies (wherever wireless phone service is available).

- **Use your mobile device to help others in emergencies.** If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number (wherever wireless phone service is available), as you would want others to do for you.

- **Call roadside assistance or a special non-emergency wireless assistance number when necessary.** If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special
Privacy & Data Security
Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- **Monitor access**—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device’s keypad where this feature is available.
- **Keep software up to date**—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device’s security, install it as soon as possible.
- **Secure Personal Information**—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.

**Note:** For information on how to backup or wipe data from your mobile device, go to www.motorola.com/support
- **Online accounts**—Some mobile devices provide a Motorola online account (such as MOTOBLUR). Go to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- **Applications**—Install third party applications from trusted sources only. Applications can have access to private information such as call data, location details and network resources.
- **Location-based information**—Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile phones which are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.
- **Other information your device may transmit**—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. This
information is used to help improve products and services offered by Motorola.
If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

Use & Care
To care for your Motorola mobile device, please observe the following:

- **liquids**
  Don’t expose your mobile device to water, rain, extreme humidity, sweat, or other liquids. If it does get wet, don’t try to accelerate drying with the use of an oven or dryer, as this may damage the mobile device.

- **extreme heat or cold**
  Don’t store or use your mobile device in temperatures below -10°C (14°F) or above 60°C (140°F). Don’t recharge your mobile device in temperatures below 0°C (32°F) or above 45°C (113°F)

- **microwaves**
  Don’t try to dry your mobile device in a microwave oven.

- **dust and dirt**
  Don’t expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.

- **cleaning solutions**
  To clean your mobile device, use only a dry soft cloth. Don’t use alcohol or other cleaning solutions.

- **shock and vibration**
  Don’t drop your mobile device.

- **protection**
  To help protect your mobile device, always make sure that the battery compartment and any connector covers are closed and secure.

Recycling

Mobile Devices & Accessories
Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at: www.motorola.com/recycling
Packaging & Product Guides
Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

California Perchlorate Label
Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label: Perchlorate Material – special handling may apply when the battery is recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate
There is no special handling required by consumers.

Hearing Aid Compatibility with Mobile Phones
Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has “Rated for Hearing Aids” printed on it, the following explanation applies.
When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate. The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model. The ratings are not guarantees. Results will vary depending on the user’s hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.
M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.
T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device’s telecoil (“T Switch” or “Telephone Switch”) than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)
Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.
Software Copyright Notice
Motorola products may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore, the purchase of Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Content Copyright
The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open Source Software Information
For instructions on how to obtain a copy of any source code being made publicly available by Motorola related to software used in this Motorola mobile device, you may send your request in writing to the address below. Please make sure that the request includes the model number and the software version number.

MOTOROLA MOBILITY, INC.
OSS Management
600 North US Hwy 45
Libertyville, IL 60048
USA

The Motorola website opensource.motorola.com also contains information regarding Motorola’s use of open source.

Motorola has created the opensource.motorola.com website to serve as a portal for interaction with the software community-at-large.
To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please press Menu Key > Settings > About phone > Legal information > Open source licenses. In addition, this Motorola device may include self-contained applications that present supplemental notices for open source packages used in those applications.
Export Law Assurances
This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Product Registration
Online Product Registration: www.motorola.com/us/productregistration
Product registration is an important step toward enjoying your new Motorola product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage. Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status. Thank you for choosing a Motorola product.

Service & Repairs
If you have questions or need assistance, we’re here to help. Go to www.motorola.com/repair (United States) or www.motorola.com/support (Canada), where you can select from a number of customer care options.

You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).

Motorola Limited Warranty for the United States and Canada
What Does this Warranty Cover?
Subject to the exclusions contained below, Motorola Mobility, Inc. warrants its mobile telephones (“Products”), Motorola-branded or certified accessories sold for use with these Products (“Accessories”), and Motorola software contained on CD-ROMs or other tangible media and sold for use with these Products (“Software”) to be free from defects in materials and workmanship under normal consumer usage for the period(s) outlined below. This limited warranty is a consumer’s exclusive remedy, and applies as follows to new Motorola Products, Accessories, and Software purchased by consumers in the United States or Canada, which are accompanied by this written warranty:
**Products and Accessories**

<table>
<thead>
<tr>
<th>Products Covered</th>
<th>Length of Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Products and Accessories</strong> as defined above, unless otherwise provided for below.</td>
<td>One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.</td>
</tr>
<tr>
<td>Decorative Accessories and Cases. Decorative covers, bezels, PhoneWrap™ covers and cases.</td>
<td><strong>Limited lifetime warranty</strong> for the lifetime of ownership by the first consumer purchaser of the product.</td>
</tr>
<tr>
<td>Monaural Headsets. Ear buds and boom headsets that transmit mono sound through a wired connection.</td>
<td><strong>Limited lifetime warranty</strong> for the lifetime of ownership by the first consumer purchaser of the product.</td>
</tr>
<tr>
<td>Products and Accessories that are Repaired or Replaced.</td>
<td>The balance of the original warranty or for ninety (90) days from the date returned to the consumer, whichever is longer.</td>
</tr>
</tbody>
</table>

**Exclusions (Products and Accessories)**

**Normal Wear and Tear.** Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.

**Batteries.** Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this limited warranty.

**Abuse & Misuse.** Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola, are excluded from coverage.

**Use of Non-Motorola Products and Accessories.** Defects or damage that result from the use of non-Motorola branded or certified Products, Accessories, Software or other peripheral equipment are excluded from coverage.

**Unauthorized Service or Modification.** Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, or its authorized service centers, are excluded from coverage.

**Altered Products.** Products or Accessories with (a) serial numbers or date tags that have been
removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola housings, or parts, are excluded from coverage.

**Communication Services.** Defects, damages, or the failure of Products, Accessories or Software due to any communication service or signal you may subscribe to or use with the Products Accessories or Software is excluded from coverage.

**Software**

<table>
<thead>
<tr>
<th>Products Covered</th>
<th>Length of Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Software.</strong> Applies only to physical defects in the media that embodies the copy of the software (e.g. CD-ROM, or floppy disk).</td>
<td>Ninety (90) days from the date of purchase.</td>
</tr>
</tbody>
</table>

**Exclusions (Software)**

**Software Embodied in Physical Media.** No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.

**Software NOT Embodied in Physical Media.** Software that is not embodied in physical media (e.g. software that is downloaded from the Internet), is provided “as is” and without warranty.

**Who is Covered?** This warranty extends only to the first consumer purchaser, and is not transferable.

**What Will Motorola Do?** Motorola, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstated. To avoid losing such data, software, and applications, please create a back up prior to requesting service.
